USE

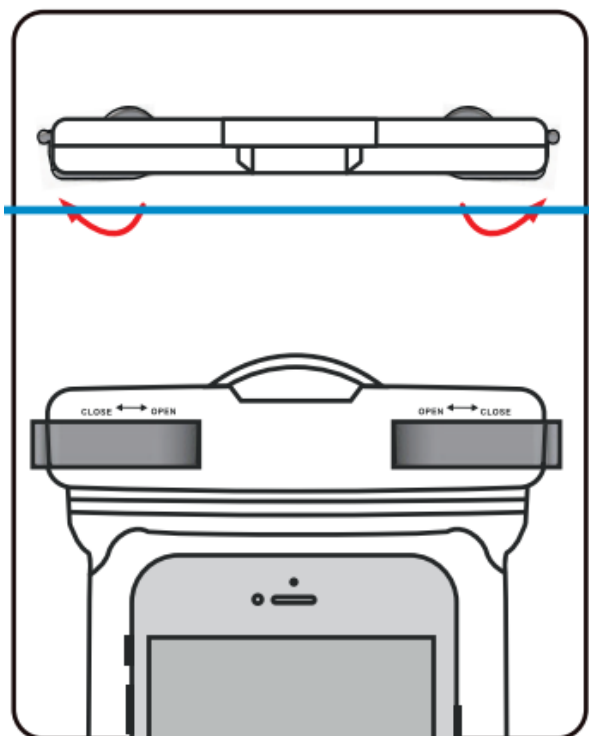

Opening the mechanism

Inserting the phone

Closing the mechanism

IMPORTANT

TEST WATER RESISTANCE BEFORE USE

1. Put a piece of paper into the case and immerse the product under water for at least 30 minutes.
2. Open the case and check whether the paper is wet. If so, check that the case is properly closed and repeat the test.
3. After a successful test, you can start using the case.
4. The air in the air pocket around the circumference or the back of the case that ensures its floating evaporates over time.

RECOMMENDATIONS

- Do not store in a humid environment
- Do not use in water with temperatures above 60 °C / 140 °F
- Do not expose to fire or excessive heat
- Do not interfere with the closing mechanism
- Avoid contact with creams and oils
- Do not insert any organic matter
- Always wash the case and allow it to dry

NOTES

The product is warranted in accordance with the regulations in force in the countries where it is sold. In case of service problems, contact the dealer from which you have purchased the product. **FIXED** assumes no liability for damage caused by improper use of the product.

Keep the manual.

TROUBLESHOOTING
