FLASHING Blinky LIGHTS®

Flashing Blinky Lights 11320 LED Light up Sword

INTRODUCTION

For youthful explorers, nothing beats the flashing lights and enjoyment of the Blinky Lights 11320 LED Light Up Sword. The sleek design and bright LED lights make this sword a plaything that will keep kids entertained for hours. With its reactive lighting aspect, the sword elevates every playing experience, making it ideal for children who adore superhero combat or futuristic adventures. Its long lifespan and entertaining features make it an excellent buy at \$19.99. Children will have no trouble holding this manually controlled sword thanks to its lightweight design and 3 AA batteries. It weighs only 0.38 pounds. You can trust that this product is sturdy, long-lasting, and safe since it comes from the Flashing Blinky Lights company, which is famous for creative and fun toys. With its vibrant and captivating glow, this LED sword is perfect for any occasion, whether it's a present, a costume item, or just for fun playtime.

Item Dimensions	25.5 x 2.5 x 2.5 inches
Manufacturer	FlashingBlinkyLights

WHAT’S IN THE BOX

- LED Light-up Sword
- Battery
- User Manual

FEATURES

- The sword’s translucent blue blade has an LED light-up function that, when turned on, creates a dazzling look that is perfect for play or costume parties.
- When swung or when the blade makes contact with an item, the sword produces genuine sound effects of clanging, which enhance the immersion.

- The two blue and red LEDs on the handle light up when turned on, creating a dramatic visual impact that goes well with the luminous blade.
- Swinging the sword causes it to automatically generate clanging noises, adding to the thrilling experience, thanks to the motion-activated sound effects.
- Users may easily activate or deactivate the lights and sound effects with the simple touch of a button on the handle.
- **Sword Operates on Three Rechargeable AA Batteries (Not Included):** These batteries are rechargeable, so you may use the toy for different events and occasions.
- This LED sword is a must-have for any contemporary ninja or samurai warrior's costume, and it's the perfect accessory for Halloween, costume parties, festivals, and cosplay.
- The sword's high-quality plastic construction makes it long-lasting, even after repeated uses, and its light weight makes it simple to hold and wield.
- The sword offers hours of enjoyment for ninja lovers and fighters of all ages, making it suitable for both youngsters and adults.
- Sword has been safety tested and complies with regulations, so children may play with it without worry about lead, phthalates, or other dangerous metals.
- **Benefits to Education:** As kids play with the sword, create battles, and use their motor skills to swing and engage, the item increases literacy and spatial awareness.

- The sword's blue LED lights not only light up the blade but also heighten the dramatic impact, which is particularly noticeable in dim lighting.
- **Sleek Handle Design:** The silver and black handle is fashioned to seem like a classic samurai or ninja sword, which enhances its visual attractiveness.
- The sword's compact 25-inch length makes it a wonderful addition to costume collections without being overly heavy or difficult for children to manage.
- When turned on, the red LEDs on the handle, together with the blue lights, produce a multicolor blinking effect that will liven up any performance or event.

SETUP GUIDE

- **To activate the battery connection:** remove the plastic pull tab from the battery chamber before using the sword.
- **To install the batteries:** open the handle-mounted battery box and carefully insert three AA batteries (not supplied). Make sure to arrange the batteries in the proper way around.
- **Put the Cover on the Battery:** To keep dust and water out of the electronics, put the cover on the battery and shut it tightly.
- **To make the sword work:** press the handle button once to activate the sound effects and LED lights.
- **Press the button again** to disable the sword's lights and sound effects. That way, you won't have to worry

about leaving the sword on by mistake.

- There are no extra buttons or switches needed to activate the sword's sound effects; simply swinging the sword or touching an item will cause it to emit a clanging sound.
- **Make Sure It Works:** Press the button and give the sword a quick swing to see if the lights and noises are functioning properly.
- Use the sword alone or in conjunction with additional items based on ninja or warrior themes to create a whole outfit.
- Outdoors or indoors, the LED sword shines brightest in low light, making it a blast to play with in any environment.
- **Replace the batteries** if you notice a gradual dimmer of the lights or the volume of the audio. Put in new batteries after removing the old ones.
- To keep the electronics in the sword in good working order, you should not use it in areas where there is water or other moisture.
- **Protect the electronics and batteries** by storing the sword in a dry, secure location after each usage.
- **Personalize Your Experience:** Harness the Power of Flashing Lights: Pair this sword with other themed accessories to stage a grand ninja or samurai duel.
- Consider buying a few swords so that your friends and family can all share in the excitement when you play group games or host themed parties.
- **Before Using the Sword at a Big Event:** Make sure everything is in working order by testing it before using it at a big event.

CARE & MAINTENANCE

- When the sword's lights or sound effects begin to fade, it's time to replace the three AA batteries to keep it functioning.
- **To clean the sword:** use a moist towel to gently wipe the plastic grip and blade. To keep the plastic in good condition, do not use any strong chemicals.
- **Inspect for Damage:** On a frequent basis, check the sword's handle and blade for any damage or cracks that might affect its safety or effectiveness.
- Be wary of dropping the sword on hard surfaces, since doing so might cause harm to the LEDs and audio components.
- **Proper Storage:** To maintain the lights' and sounds' quality, keep the sword in a dry, cool spot away from direct sunlight after use.
- **To conserve power:** always push the button to switch off the sword while it's not in use.
- Keep an eye out for rust and corrosion in the battery compartment; they can degrade battery performance, so it's important to inspect it often. If necessary, clean with a gentle brush.
- The internal electronics and batteries in the sword are susceptible to harm from water, thus it is important to keep it away from wet environments while not in use or storage.
- **Make that the handle button** is still working correctly by monitoring its functionality. To fix a stuck or unresponsive button, use a cotton swab to wipe the area surrounding it.

- **To keep the LEDs in good working order:** wipe off any fingerprints or dust from the see-through blade with a gentle cloth if you notice that the lights aren't bright enough.
- **Make Sure You wield It Properly:** Only wield the sword for light play or as part of a costume. The components are susceptible to damage from excessive force or overuse.
- To keep the toy in good condition for longer, don't use it too aggressively or swing it too high.
- **To avoid corrosion or leaking within the compartment:** remove the batteries before keeping the sword for an extended length of time.
- **Press the button** and swing the sword about every so often to check if the lights and noises are functioning properly.
- When the sword is no longer needed, recycle the batteries and any broken or obsolete components in compliance with local laws for proper disposal.

TROUBLESHOOTING

Problem	Solution
Lights don't turn on	Replace the batteries with fresh, high-quality AA batteries.
Sword flickers or dims	Check if the batteries are installed correctly and replace if necessary.
Sword is not lighting up consistently	Ensure the battery contacts are clean and free of corrosion.
Lights are not bright	Test the batteries in another device to ensure they have sufficient power.
Sword is too heavy for younger kids	Consider a smaller model if the weight is challenging for small hands.
The sword turns off during play	Hold the button down for a few seconds to reset the sword.
Sword is not responding to button	Check the button for any debris or dirt that may be blocking its function.
Battery compartment is difficult to open	Use a small screwdriver to open the compartment carefully.
Lights are uneven or one side doesn't work	Inspect the wiring and ensure no loose connections inside the sword.
Sword has no sound	Verify that it is not in silent mode or check if sound is an additional feature.
Sword is too large for storage	Store it in a safe place where it won't be bent or damaged.
The lights have stopped working after a few uses	Try replacing the batteries to see if the issue is power-related.
Sword is scratched or damaged	Clean gently with a soft cloth and avoid rough handling to prevent damage.
The lights flicker when shaken	Check if the battery contacts are loose or need cleaning.
Sword becomes too hot to hold	If this happens, remove the batteries immediately and let it cool.

PROS & CONS

PROS:

1. Bright, colorful LED lights make it visually exciting.
2. Lightweight design suitable for children of various ages.
3. Affordable price at \$19.99.
4. Encourages imaginative play and spatial awareness.
5. Battery-powered for easy and portable play.

CONS:

1. Requires 3 AA batteries, which are not included.
2. Limited lighting effects compared to other high-end models.
3. No sound effects, which may limit immersive play.
4. Some users may find the sword a bit too large for younger children.
5. Manual operation might be less appealing for tech-savvy kids.

WARRANTY

The Flashing Blinky Lights 11320 LED Light Up Sword comes with a **1-year limited warranty**, ensuring that the product is free from defects in material or workmanship under normal use. If the sword experiences issues due to manufacturing faults, customers are eligible for a repair or replacement. Keep in mind that the warranty does not cover damage caused by misuse, accidents, or external factors. Be sure to check the product packaging for specific terms and conditions, and retain proof of purchase for warranty claims.

FREQUENTLY ASKED QUESTIONS

What is the FlashingBlinkyLights 11320 LED Light Up Sword?

The FlashingBlinkyLights 11320 LED Light Up Sword is a battery-powered toy sword that lights up with vibrant LEDs. It is designed for fun, action-packed play, encouraging imaginative and creative scenarios for kids.
