floorMuffler®

FloorMuffler Encore Rigid Core Underlayment

Product Specifications:

- **Product Name:** High Performance Acoustical Underlayment & Moisture Barrier
- **Coverage Area:** 300 sq. ft.
- **Thickness:** 1.1 mm
- **Dimensions:** 48" x 75'
- **Application:** For vinyl plank floors with or without pre-attached pad
- **Recommended Use:** Residential & Commercial
- **Installation Method:** Floating Floor

Product Usage Instructions

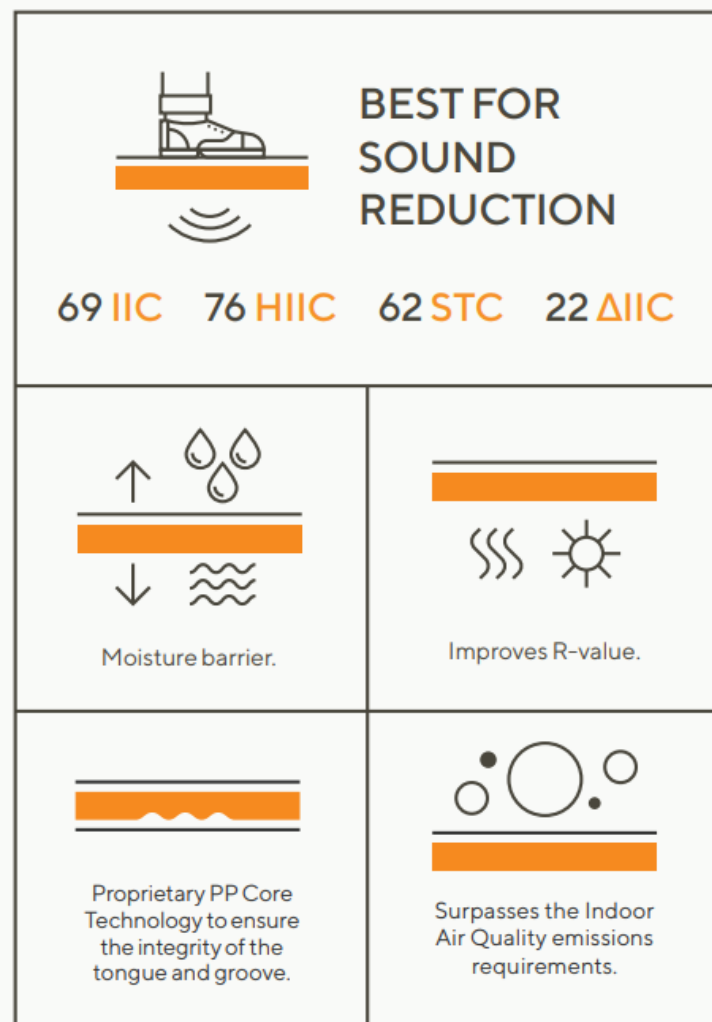

Pre-Installation Preparation:

1. Ensure the subfloor is structurally sound, level, and free of dust and debris.
2. Check for protruding nails or defects in the subfloor. For concrete subfloors, ensure it meets acceptable moisture levels.

Installation Steps:

1. Start in a corner with the tape strip side next to the wall and the overlapping film towards the open room.
2. Unfold the overlap plastic film, extending it 3 inches from the foam, ensuring to overlap only the moisture barrier plastic film.
3. Remove the adhesive liner and adhere the underlayment to the plastic film overlap.
4. Install the flooring following the manufacturer's instructions.

BEST FOR SOUND REDUCTION

- HIGH PERFORMANCE ACOUSTICAL UNDERLAYMENT & MOISTURE BARRIER.
- FOR VINYL PLANK FLOORS WITH OR WITHOUT PRE-ATTACHED PAD*.
- FOR RESIDENTIAL & COMMERCIAL APPLICATIONS.
- FOR FLOATING FLOOR INSTALLATIONS.
- SELF-SEALING LIP & TAPE SYSTEM.

Item No. 0265291

*Follow your flooring manufacturer's installation instructions.

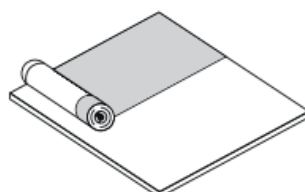

Flooring systems protected under USPTO No. 8,720,177; 8,931,227 and 9,133,628.

Installation Instructions

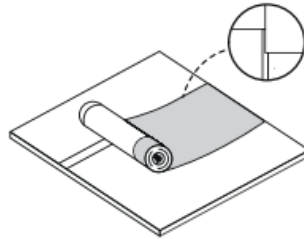

1. Make sure the subfloor is structurally sound, level and is free of dust and debris.
2. Check for protruding nails and/or defects in the subfloor. If installing over concrete, the concrete must meet the floor covering manufacturer's acceptable moisture tolerance range.

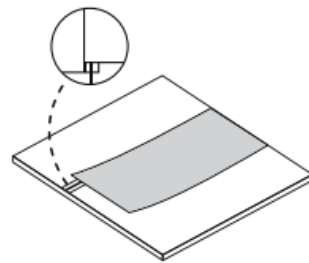

1. Start in a corner with the tape strip side next to the wall and the overlapping film towards the open room.
2. Install floorMuffler® Encore (overlap film side down) parallel to the wall in the opposite direction that you plan to install the flooring planks.
3. When installing the floorMuffler® Encore, leave at least 2" going up the wall (you will trim this part after installing the floor).

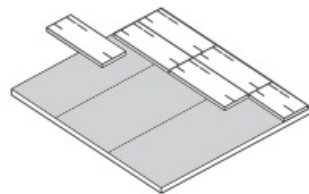

1. Be sure to unfold the overlap plastic film, extending it 3" from the foam.
2. Roll out the next roll of floorMuffler® Encore in the same manner, making sure that the foam seams are butted together.
3. Be sure to overlap only the moisture barrier plastic film and not the underlayment pad.

1. Remove the adhesive liner and adhere the underlayment to the plastic film overlap.

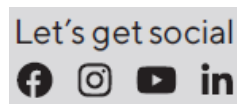

1. Install the flooring per manufacturer's instructions

FAQ

Q: Can this underlayment be used with any type of flooring?

A: This underlayment is specifically designed for vinyl plank floors with or without a pre-

attached pad. It is recommended to follow your flooring manufacturer’s installation instructions for compatibility.

Q: Is the underlayment suitable for both residential and commercial applications?

A: Yes, this underlayment is suitable for both residential and commercial applications.

Q: How do I ensure proper installation of the underlayment?

A: Ensure that the subfloor is prepared correctly, follow the step-by-step installation instructions provided, and refer to any additional guidelines from your flooring manufacturer.
