User Manual

Bluetooth wireless keyboard

Connecting to the Keyboard

1. Make sure that Bluetooth is enabled on your device, then turn on the keyboard. The power indicator will light up.
2. Press the "Connect" button at the top right of the keyboard. The Bluetooth indicator will begin flashing.
3. Tap "Bluetooth 3.0 Keyboard" when it appears in the list of available Bluetooth devices.

Selecting the Correct Operation Mode

 iOS Users: The keyboard is in iOS mode by default. Customers with iPads can use it right away once connected.

 Android Users: Connect your device to the keyboard, then press [Fn] +Android to switch to Android mode. The Bluetooth indicator at the top right will flash three times in quick succession.

 Windows Users: Connect your device to the keyboard, then press [Fn] +Win to switch to Windows mode. The Bluetooth indicator at the top right will flash three times in quick succession.

Function Keys

• Caps Lock: Switches between upper and lower case.
• Control + Space: Switches between input methods.

 Light Bulb Key: Press to cycle between no backlight/back-light/breathing modes. (*Breathing mode: The backlight's seven colours cycle automatically in a manner akin to breathing.)

 RGB Key: Press to change the colour of the backlight when backlight mode is selected.

LED Indicators

- Power: When the keyboard is turned on, the power indicator will light up for 1-2 seconds and then go off.
- Charge: The charge indicator will turn red when the keyboard is being charged. Once it is fully charged, the indicator will turn off.
- Bluetooth: The Bluetooth indicator will flash when connecting and go off once the devices are connected. When switching between operation modes, it will flash three times in quick succession.
- Caps Lock: When Caps Lock is on, the Caps Lock indicator on the upper right corner will light up.
