Start Guide

Clamp Installation

method 1 : Clip Mounting Bracket + Wrench&Screw

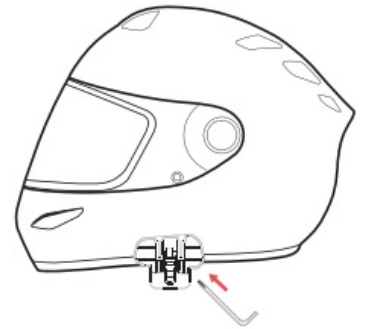

1

2

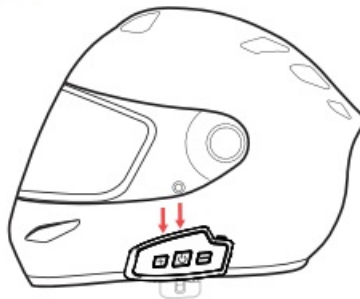

3

1. Assembly the Clip Mounting Bracket.
2. Fix the Clip Mounting Bracket to the helmet.
3. Screw the screw in with a wrench.

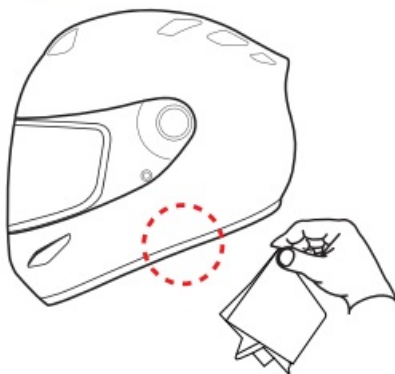

4

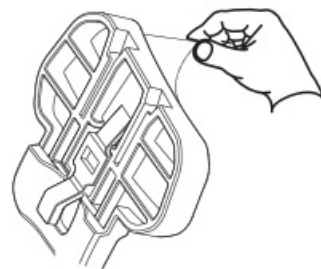

4. Install the FX 1 0C to helmet.

Method 2: 3M Tape Bracket

1

2

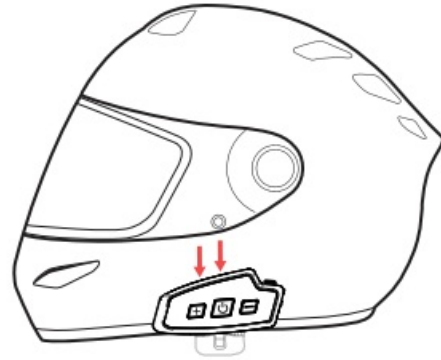

1. Wipe clean the position for pasting the base.
2. Tear the 3M Tape protective layer.
- 3.

3

Press the 3M Tape Bracket for more than 15 seconds to make it fit better.

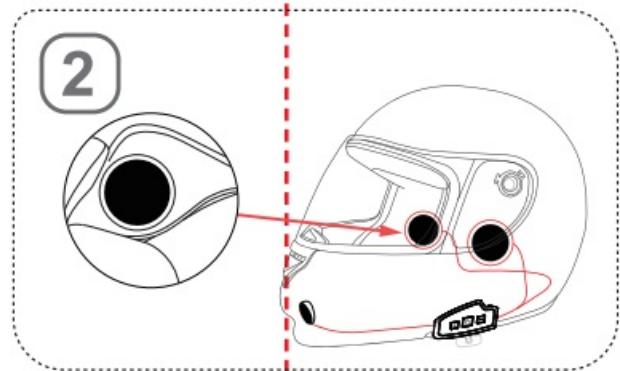

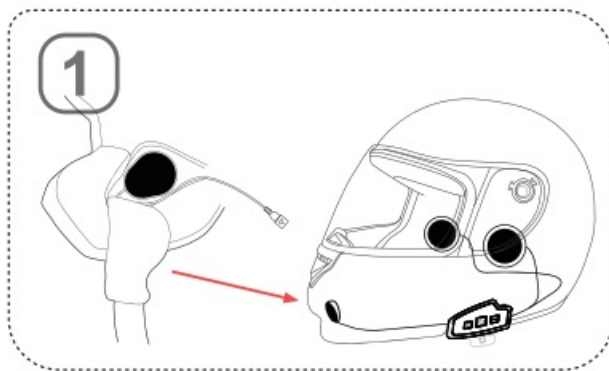

4

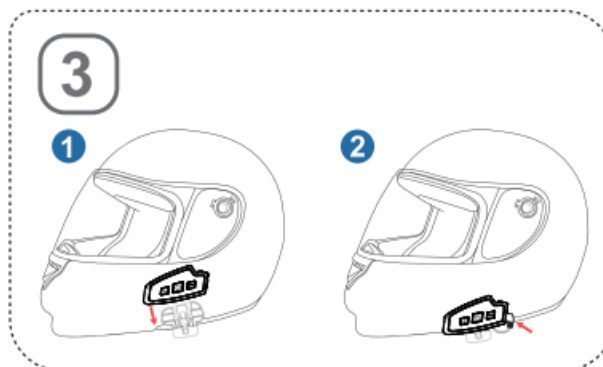

4. Install the FX 10 C to helmet.

Installation

Situation 1: Speakers & Button Microphone+ FX 10C

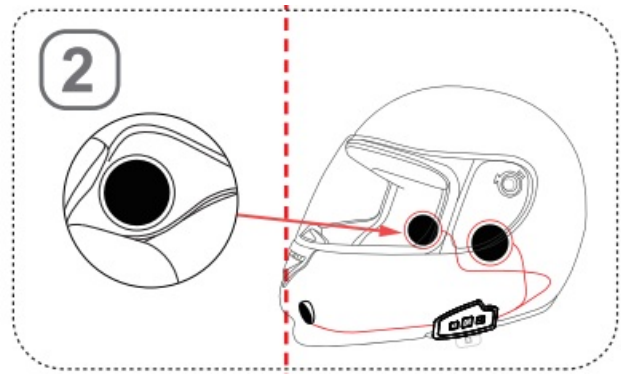

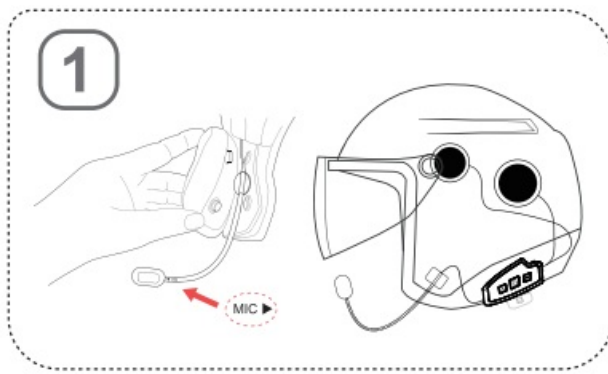

1. Locate an area in the nose section just to the left of center to mount the button microphone for full helmets .
Place the button microphone to the velcro pad and it to the connector of the headset.
2. Place the speakers into the cheek pads. Push the speakers and microphone firmly against the Velcro pads.
Press the wires into the gap between the helmet liner and shell.

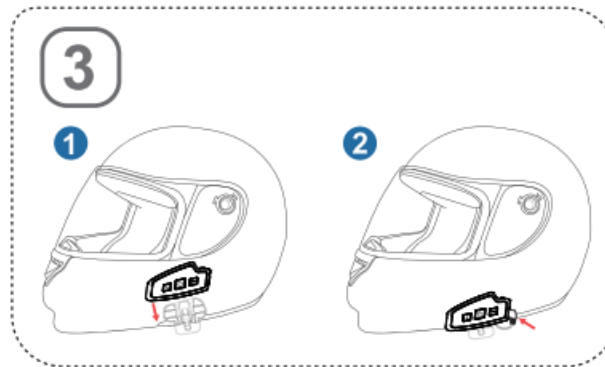

3. Insert the microphone and earphone line, installation complete.

Situation 2: Speakers & Hard Tube Microphone+ FX 10C

1. If you are installing into an open face helmet, please adjust the direction of the microphone so that the triangular mark on the microphone is pointing towards your mouth.
2. Place the speakers into the cheek pads. Push the speakers and microphone firmly against the Velcro pads. Press the wires into the gap between the helmet liner and shell.

3. Insert the microphone and earphone line, installation complete.
