## SAFETY INFORMATION

- FORMULER products are designed to operate safely when installed and used according to the product instructions and general safety practices. The guidelines included in this document explain the potential risks associated with equipment operation and provide important safety practices designed to minimize these risks. By

carefully following the information contained in this document, you can protect yourself from hazards and create a safer environment.

- This product is designed and tested to meet IEC 62368-1, the Standard for Safety of Information Technology Equipment. This also covers the implementation of IEC 62368-1 based safety standards around the world, e.g. UL 60950-1.
- Retain and follow all product safety and operating instructions. Always refer to the documentation supplied with your equipment. Observe all warnings on the product and in the operating instructions.
- Note: Read all safety information below and operating instructions before using FORMULER to avoid injury.
- WARNING: FAILURE TO FOLLOW THESE SAFETY INSTRUCTIONS COULD RESULT IN FIRE, ELECTRIC SHOCK OR OTHER INJURY OR DAMAGE. ELECTRICAL EQUIPMENT CAN BE HAZARDOUS IF MISUSED. OPERATION OF THIS PRODUCT, OR SIMILAR PRODUCTS, MUST ALWAYS BE SUPERVISED BY AN ADULT. DO NOT ALLOW CHILDREN ACCESS TO THE INTERIOR OF ANY ELECTRICAL PRODUCT AND DO NOT PERMIT THEM TO HANDLE AND CABLES.

## SYMBOLS ON THE EQUIPMENT

■ This is a universal recycling symbol indicating that the battery cannot be disposed of in the trash \_ and must be recycled according to the regulations and/or ordinances of the local community.

To reduce the risk of personal injury, electric shock, fire, or damage to the equipment, observe the following precautions:

### Follow all cautions and instructions marked on the equipment

- Do not bend, drop, crush, puncture, incinerate, or push objects into openings of FORMULER.
- Do not connect or disconnect any cables or perform maintenance or reconfiguration of this product during an electrical storm.
- Do not use FORMULER in wet locations. In case FORMULER gets wet, unplug all cables and turn off before cleaning, and allow it to dry thoroughly before turning it on again.

- Never turn on any equipment when there is evidence of fire, water, or structural damage.
- Place the product away from heat sources.
- Never force a connector into a port. Make sure the connector matches the port before inserting.
- Always use a FORMULER-approved power adapter. Do not connect or disconnect the AC Power Adapter with wet hands. The power adapter is intended for indoor use only.
- Operate the AC adapter in a ventilated area.
- Do not make mechanical or electrical modifications to the equipment.
- Never attempt to repair FORMULER yourself. Do not attempt to open, disassemble the device. You run the risk of electric shock.
- Operate FORMULER in a place where the temperature is always between 5 and 30 degrees Celsius.
- Use this product only with approved equipment and/or accessories.

**POWER RATING : 12V, 1.0A**

## **FCC Warning**

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
