Physical Description

Setting Up Your Camera

Connection via the Foscam App (Recommended)

Before You Get Started

Scan the QR code below to download and install the Foscam APP.

To ensure a smoother video experience on your smartphone, it is recommended that your smartphone meet the following specifications:

- iOS: version 11 or higher.
- Android: 5.0 or higher, using a device with a Graphics Processing Unit (GPU).

Note: For the best experience, please update the APP to the latest version!

WiFi Connection

1. Plug the power adapter into the camera, and please wait for a few seconds until hearing the “Ready for WiFi configuration”

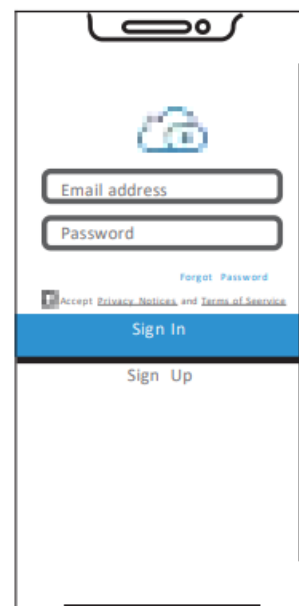

Tips: If you didn't hear the voice prompt, press and hold reset for about 3~5 seconds to reset the camera.

2. Make sure that your smartphone is connected to your WiFi router and turn on the system Bluetooth

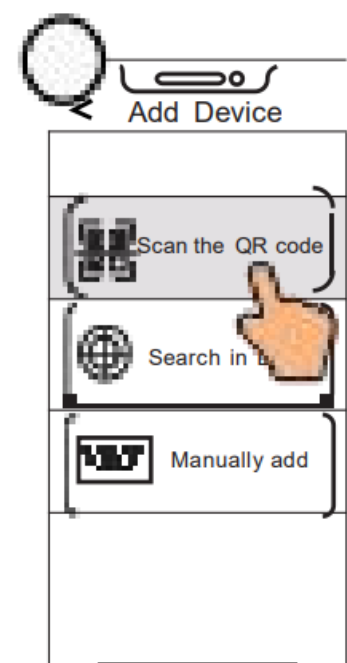

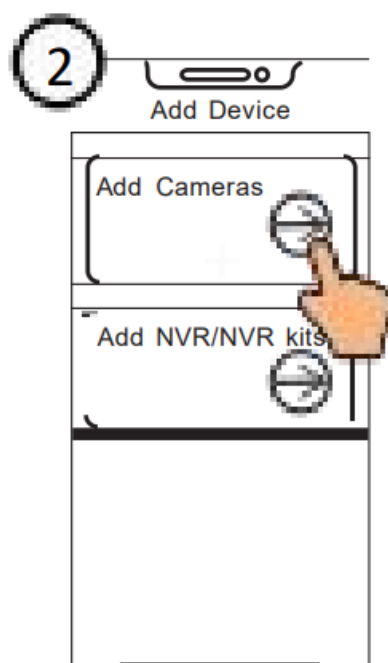

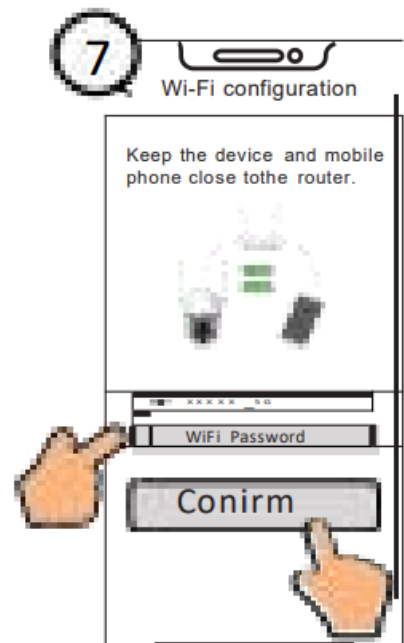

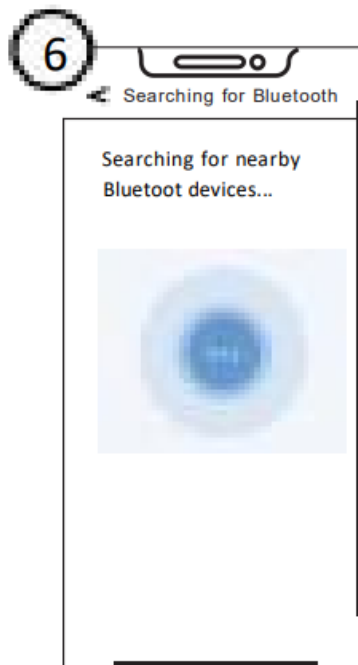

Note: Before connecting the camera via Bluetooth, ensure that the system's Bluetooth is turned on.

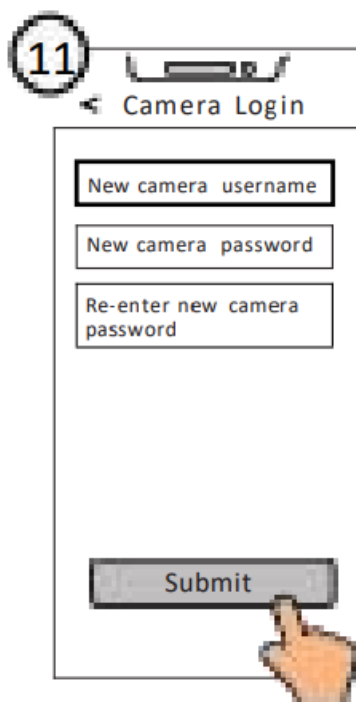

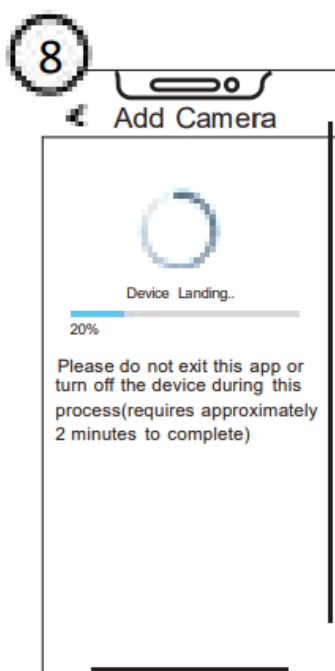

3. Open the Foscam APP and please register a Foscam account, or sign in if you have one already

4. Follow the steps below:

Note: If the adding process fails, please reset your camera and try adding again according to the above method.

PC Access Your Camera

Foscam VMS

Foscam VMS is a new tool for PCs. It does not require plug-ins and is compatible with Windows & Mac, supporting all Foscam HD cameras and up to 36 cameras at the same time. If you would like to manage multiple cameras, we suggest you install Foscam VMS. You can download the “Foscam VMS” Windows version from foscam.com/vms, and can download the “Foscam VMS” Mac version from the APP store:

<https://apps.apple.com/cn/app/foscamvms/id1521202507?mt=12>

Note: For the best experience, please update Foscam VMS to the latest version!

Add the IP Camera

1. Run Foscam VMS, then create a local administrator account or a Foscam account and login.
2. Tap the “+” icon on the Foscam VMS and follow the setup wizard to add your camera.

Please visit foscam.com/downloads to view the user manual and for additional detailed steps.

Hardware Installation

Method A: Wall mounted

Method B: Ceiling mounted

Point the camera at the desired location and use the screws provided to mount it.

Please Note:

Ensure that the rain or water will not reach the connector ports at the end of the pigtail wiring. These connectors are not weather-resistant.

- Wireless Standard: IEEE802.11b/g/n/ax (2.4GHz) IEEE802.11a/n/ac/ax (5GHz)
- Power Supply: DC 12V 1.0A 12W

FCC Statement

To assure continued compliance, any changes or modifications not expressly approved by the party. Responsible for compliance could void the user's authority to operate this equipment.

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in

accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

The equipment complies with FCC Radiation exposure limits set forth for uncontrolled environments. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
