FOSSIL Michael Kors Access App

Did your smartwatch come with an additional buckle?

Purchase a new strap and attach the complimentary buckle per the instructions below:

CHARGE & POWER ON

Connect your smartwatch to the included charging cord. Once it automatically turns on, tap the screen to begin and choose your language. Keep your smartwatch charging during pairing and setup.

INPUT: 5V 0.5 A

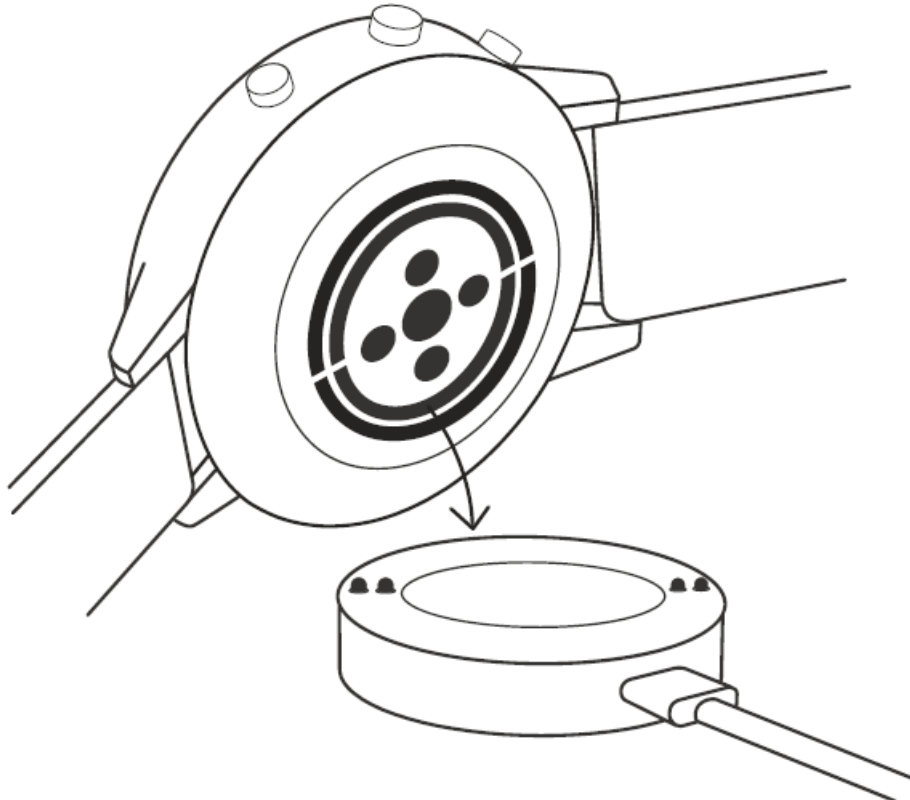

Gen 6 chargers INPUT: 5V 1.1 A

WARNING: To avoid damage to your watch, only use with included charger.

INPUT: 5V 0.5 A

Gen 6 chargers INPUT: 5V 1.1 A

Do not use a USB hub, USB splitter, USB y-cable, battery pack or other peripheral device to charge.

DOWNLOAD & PAIR

On your phone, enable Bluetooth™, then download the Michael Kors Access app from the App Store™ or Google Play store. Open the app and follow the onscreen instructions to pair.

Once paired, your smartwatch will give you an interactive tutorial.

USEFUL TIPS

Remember to turn on your phone's Bluetooth™ and keep the Michael Kors Access app running in the background to ensure your watch stays connected.

Continue to charge your smartwatch throughout the pairing process, as initial setup can drain battery life.

Connect your smartwatch to Wi-fi so it can download updates. These can take a few minutes.

BLOOD OXYGEN TRACKING

Wear your watch slightly higher up your arm and avoid pressing your watch against your wrist bone. Make sure your watch fits comfortably on your wrist. Wearing your watch too tight constricts the blood circulation while wearing it too loose may let other light in, which affects the measurement. Place your hand on a flat surface with your fingers resting open. The back of your watch should be in contact with your skin. Stay still and avoid interacting with the watch during the measurement.

RESOURCES & SUPPORT

To learn more about the Google services on your watch, visit: support.google.com/wearos
