Smart LAN Installation

Step 1:

Smart LAN consists of three parts. Insert the Internet cable into the nuts on the bottom, and then make the RJ45 Port for the wiring as below. Tighten the components.

**Step 2:**

Rotate the lock, and make sure the triangle logo is on the front and center. Plug the Smart LAN into the LAN port under the bottom (underside) of the inverter. Tighten the nut clockwise as follows.

**APP Installation**

Scan the QR Code below to download and install the FoxCloud APP on your smartphone or tablet.

Create A Plant

For Installer Via Smartphone

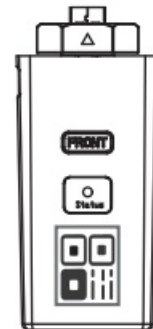

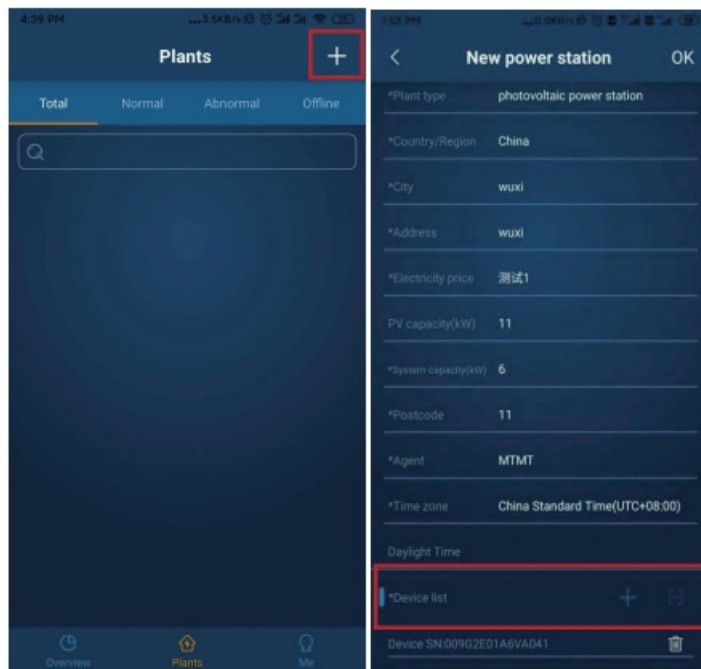

Step 1:

Open the APP, log in with your Installer/agent account.

Step 2:

Press the '+' icon on the homepage to add a plant. Press the scan icon next to the 'Device list' to scan the QR code label on the side of the Smart LAN. Note: After starting the APP, it will pop up a message 'Whether to allow positioning permissions', please select 'Allow'. For the capacity, please fill in the actual capacity of the installed solar panels.

Via Computer

Press the 'New' on the homepage to add plant. Complete all required information and click 'Create'.

For End-User **Via Smartphone**

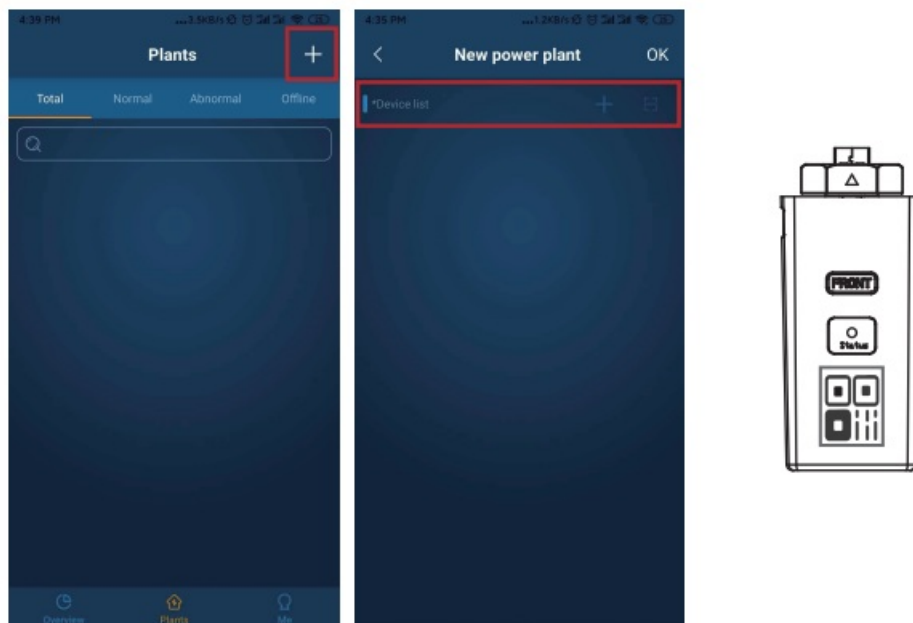

Step 1:

Open the APP, and log in with your end-user account.

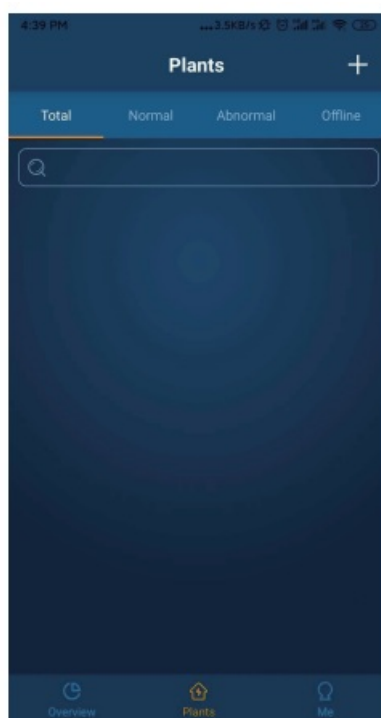

Step 2:

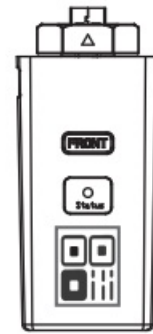

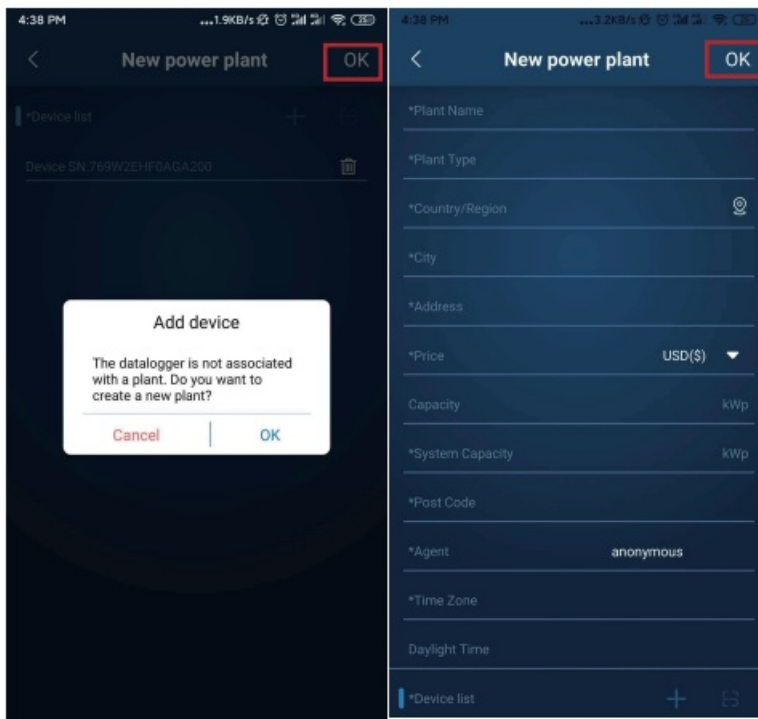

Press the '+' icon on the homepage to add a plant. Press the scan icon next to the 'Device list' to scan the QR code label on the side of the Smart LAN. Note: After starting the APP, it will pop up a message 'Whether to allow positioning permissions', please select 'Allow'. For the capacity, please fill in the actual capacity of the installed solar panels.

Note: If SN has been bound to the plant already, APP will jump to the beside page. If SN has not been bound before, please refer to step 3.

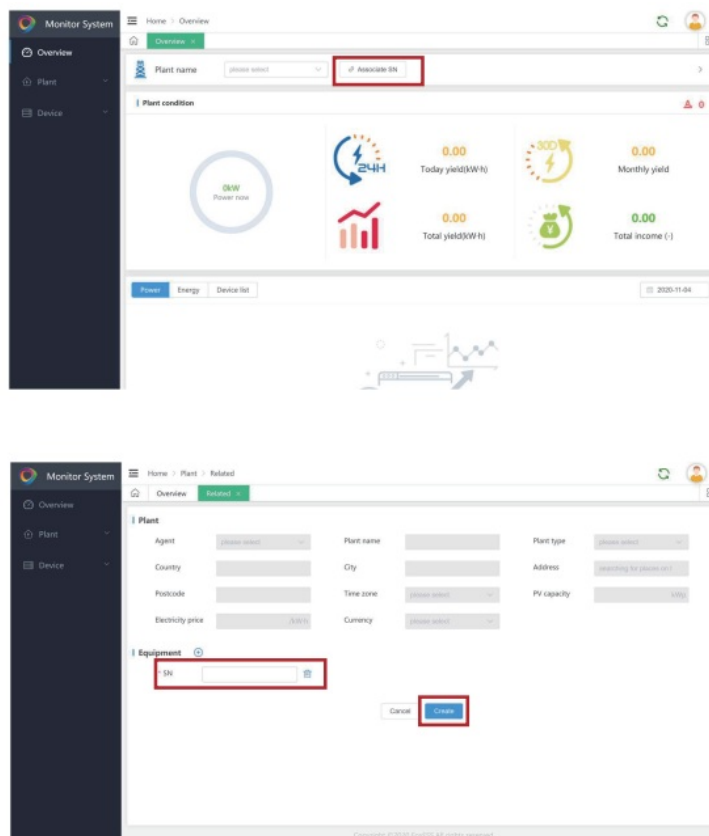

Step 3: After scanning the code successfully, click 'OK' on the top right corner of the page, APP will pop up a message 'Add device', please click 'OK'. Complete all required information and click 'OK' on the top right corner of the page.

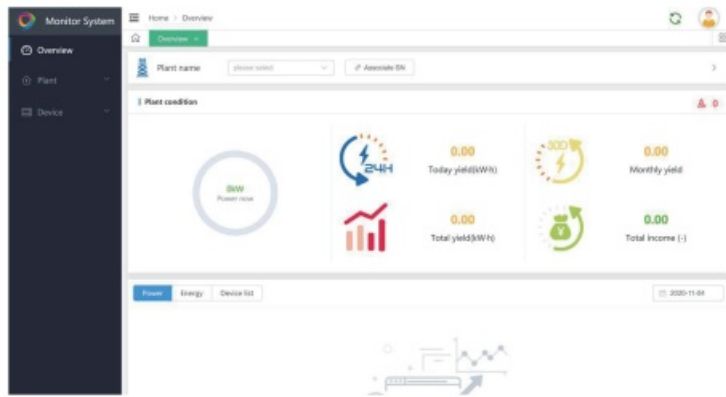

Via Computer

Step 1:

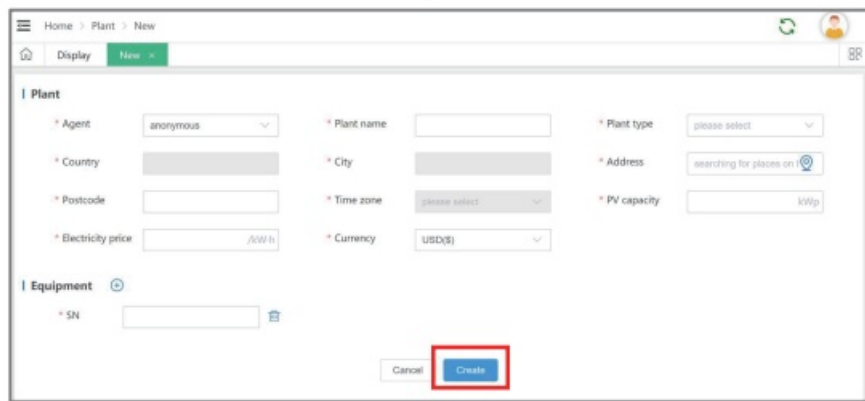

Click 'Associate SN', input SN and click 'Create'. Note: “*” is required to be filled in.

Note: If SN has been bound to the plant already, the website will jump to the following page. If the SN has not been bound before, please refer to step 2.

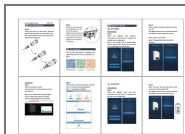

Step 2: It will pop up a 'Tip', please click 'Confirm'. Complete all required information and click 'Create'.
