FOXWELL NT680 Plus Handheld Scanners

Specifications

- Model: XYZ Product
- Manufacturer: ABC Company
- Connectivity: WiFi
- Serial Number: L644008000030

Product Usage Instructions

Registering the Product:

1. Update the device and connect to WiFi.
2. Scan the QR code provided in the manual or visit <https://www.foxwelltech.us> to register.
3. Enter your email address, receive a verification code in your mailbox, and complete the registration process by creating a password.
4. After successful login, click the Submit button to complete product registration automatically or manually enter the correct serial number

Updating Software

1. Enter the Update section on the device and select an available WiFi network to connect.
2. Choose the software you want to update and click the Update or Select All button to begin downloading.
3. Wait for all selected software updates to finish downloading. A success message will confirm the installation of all software.

To Register Through Website

1. Visit the Foxwell website www.foxwelltech.us and press the Register icon, or go to the registration page by selecting Support from the home page and then click Register.
2. Enter one of your email addresses as your user ID and click the Send Code button. We will send a 4-digit verification code to the email you just entered. Find the security code in your mailbox, input the code, create a password, and click Free Registration to complete.
3. Sign in to the Member Center, click New Registration, input the right serial number, and click Submit to activate the product.

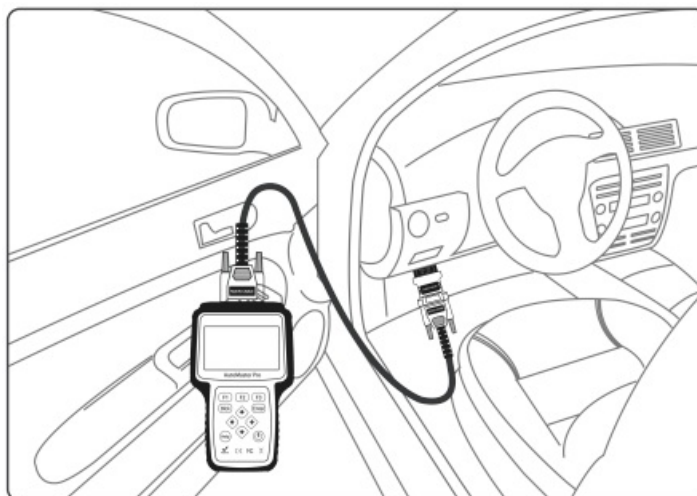

4. Enter Update and connect WIFI, then scan the QR code to register.
5. Scan the QR code and enter your email address. Click "Send code" to find the verification code in your mailbox.
6. Create a password and then click "Free registration" to complete.
7. After logging in successfully, click the Submit button to complete product registration when the serial number shows automatically, or manually input the correct serial number.

Vehicle Connection

1. Locate the data link connector(DLC) under the dash on the vehicle's driver's side.

2. Connect the diagnostic cable to the scanner and plug it into the vehicle's DLC.
3. Switch the ignition key to the ON position.
4. Go to the Main menu to choose diagnostic software to start the test.

Serial Number

To find the serial number:

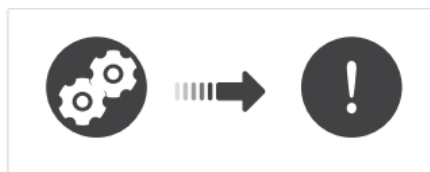

1. On the back of the main unit.

Multi-System Scanner

Rated input 8-18V DC
Operating temperature 0°C-60°C
Storage temperature -20°C-70°C

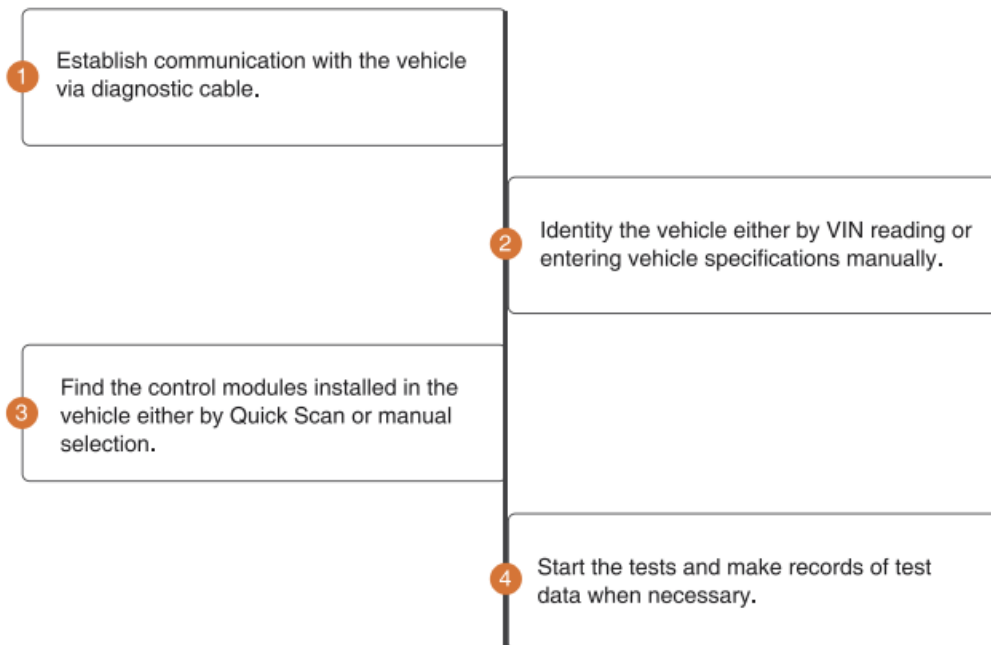

2. In the scanner Settings-About page.

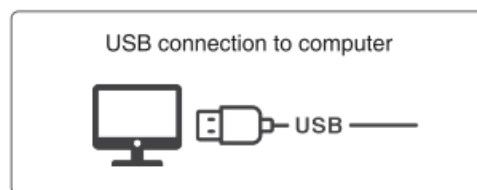

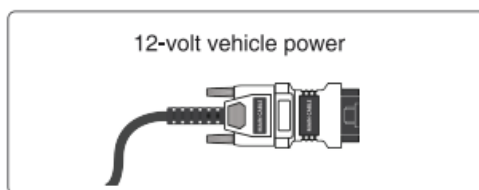

Diagnostic Operations

- Before starting the diagnosis, please make sure the:
 - The ignition switch is turned to the ON position.
 - The engine is off.
 - The vehicle battery voltage is between 10-14 volts.
 - The scanner is correctly connected to the vehicle.
- Don't connect or disconnect the equipment while the ignition is on or the engine is running.

Powering up the scanner

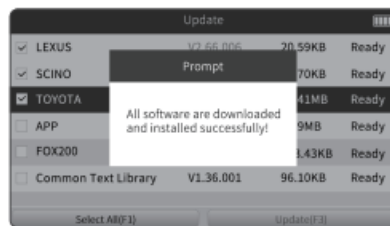

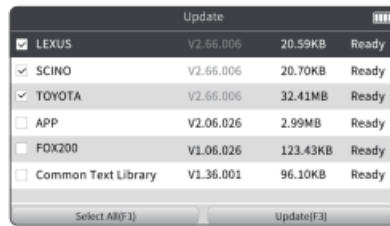

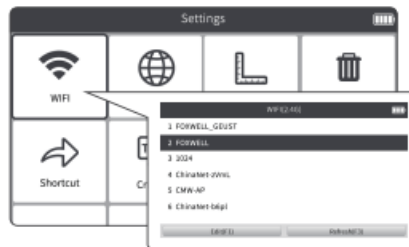

- Before using the scanner, make sure to provide power to the scanner.
- The unit operates on any of the following sources:

Update

Before updating, please make sure you have created a Foxwell ID and that your network works correctly.

1. Enter Update and select an available WIFI to connect.
2. Choose the software you wish to update and click the Update or Select All button to download.
3. When all are updated, an “All software is downloaded and installed successfully!” message displays.
