SECURITY INFORMA TION

Security information (including BS, ES, battery securityinformation)of third-party software installation and function may vary in different regions or by different hardware specifications.

Foxx holds disclaimer for the performance problem or incompatibility caused by third-party applications, registry editing ,OS software modifying .Customizing the OS may cause the device or some applications fail to work properly.

Please prevent the device or the battery in extreme cold/hot condition. Then extreme temperature will lead to deformation of the tablet and reduce the charging capacity and battery life.

Please only use the custom designed and approved battery and charger by Foxx. Incompatible battery and chearger may cause damage to the tablet . Please abide by local regulation when disposing of the used batteries and tablet.

Please do not place the battery or the tablet onto or inside heating devices such as microwave, oven or radiator. The battery may explode if it gets too hot.

Please do not crush or pierce the battery . Prevent the battery from getting high pressure from outside , it may cause internal short and overheating .

SPECIFICATIONS

BASIC INFORMATION

Model	V8
Operating System	Android™ 13
CPU	MT8766B 4 Core 2.0GHz
GPU	GE8300
RAM	3GB
ROM	32GB
Battery	4000mAh

Display

Screen Size	8 inch
Resolution	1280*800 Pixeis
Touch	Capacitive multi-touch

Cameras

Front	Camera	5MP Camera
Rear	Camera	8MP Camera

Connection(I/O)

Band	GSM:B2/3/5/8 WCDMA :B2/4/5 FDD:B2/4/5/12/13/66/71 TDD:B41 HPUE
SIM/TF card	2 Nano SIM Card and 1 TF Card
WiFi	IEEE802.11 a/b/g/n/ac
Bluetooth	Bluetooth 5.0
GNSS	GPS
FM	YES
Earphone Port	3.5mm
USB Port	Type-C USB

Other Features

Video File Format	3GP/MPEG4,etc
Audio File Format	WAV/MP3/AAC/AMR/MIDI/APE/WMA,etc
Card Extend	Support TF card up to 256 GB
Language	Support Multi-language
Sensor	G-Sensor,Gravity sensor,Compass.

In the box

1*tablet
1*Type-c Cable
1* Power Adapter
1*Quick Start Guide

Safety Statement

FCC Caution:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may ause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

ISED Warning

Operation of 5150-5250 MHz is restricted to indoor use only. This device complies with Innovation, Science, and Economic Development Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

1. this device may not cause interference, and
2. this device must accept any interference, including interference that may cause undesired operation of the device.

Specific Absorption Rate (SAR) information SAR tests are conducted using standard operating positions accepted by the FCC/ISED with the phone transmitting at its highest certified power level in all tested frequency bands, although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. Before a new model phone is available for sale to the public, it must be tested and certified to the FCC/ISED that it does not exceed the exposure limit established by the FCC/ISED, tests for each phone are performed in positions and locations as required by the FCC/ISED. For body worn operation, this model phone has been tested and meets the FCC/ISED RF exposure guidelines when used with an accessory designated for this product or when used with an accessory that contains no metal and that positions the handset a minimum of 10mm from the body. Non-compliance with the above restrictions may result in violation of RF exposure guidelines.

For body-worn operation, this device has been tested and meets the FCC/ISED RF exposure guidelines when used with a leather case. The users must use this leather case. Use of other leather case may not ensure compliance with FCC/ISED RF exposure guidelines.

Absorption Rate (SAR) information:

This device meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. This device was tested for typical body-worn operations with the back of the device kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a appropriate separation distance between the user's body and the back of the device. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided. Use only the supplied or an approved antenna.
