More information including technical data and installation guidelines is available from the Product Manual published on our website.

In line with our policy to continually develop, improve and support our products, Future Products Group Ltd reserves the right to change specifications and design without notice.

Product Usage Instructions:

1. Installation:

Follow the model cutout dimensions specified in the product manual. Ensure a benchtop cutout of 578 x 650mm for IN-3A06-SQ-XX-IC models. When placing the cabinet next to an Inline 3000 Series refrigerated cabinet, use the Inline 3000 Series thermal divider panel between them.

2. Display Configuration:

The cabinet comes with two tiltable, height-adjustable stainless steel shelves and base that are full cabinet width, providing maximum display capacity. Choose between fixed front or sliding doors options based on your preference.

3. Lighting System:

The cabinet features a 50,000 hour LED lighting system at 2758 lumens per metre in the cabinet top, ensuring optimal visibility of displayed items.

4. Maintenance:

Regularly clean the cabinet using mild cleaning agents and a soft cloth to maintain its appearance and functionality.

Please contact FPG to discuss your requirements for meeting country-specific standards.

Specifications:

- Model: IN-3A06-SQ-XX-IC
- Core Product Temperature: Ambient
