THE UPGRADE THAT OPTIMIZES ACCESSIBILITY

Wireless keypad for linking to Bluetooth devices without a built-in keypad

ACCESS CONTROLS

ELECTRONIC CYLINDERS

FURNITURE LOCKS

Standalone configuration, no wiring or installation

TECHNOLOGY, ACCESSIBILITY & CONVENIENCE

- **Modernization**, FreePad is an additional wireless keypad, so you can open Bluetooth devices with a numerical

code without having an integrated keypad.

- **Compatibility**, the FreePad keypad provides pin code opening for the X-RP electronic cylinder, the Opak access control and the Lockerfy BLE lock for lockers and furniture.
- **Wireless**, keypad with standalone configuration, no wires or installation required, beyond attaching it to the wall.
- **Secure**, to combat vandalism or theft of the keypad, the Omnitec system lets you associate another keypad to the device to continue the operation without affecting the access codes of guests or staff.

SECURITY GUARANTEE

1. **VANDAL-RESISTANT DEVICE**: tampering with cables or the FreePad keypad PCB does not open the linked device.
2. **1-to-1 LINK**: one keypad for one device.
3. **ANTI-SPY NUMERICAL CODE**: supports up to 16 digits, including the opening code.

MANAGEMENT & ACCESS

OS ACCESS

Management software for hotels

opening

admin

Multifunction APP for employees and guests

opening & admin

APP mobile for holiday homes and hotels without 24-h reception
