Freesun IMC360 Smart Projector

PRODUCT INFORMATION

Please read this manual carefully before use and keep it for future reference.

1. In order to reduce the risk of fire and electric shock, do not expose the projector to rain and fog.
2. Please use the original power adapter. The projector should work under the specified rated power supply.
3. When the projector is working, please do not look directly into the lens; the strong light will flash your eyes and cause slight pain. Children should use the projector under the supervision of adults.
4. Do not cover the vents of the projector. Heating will reduce the life of the projector and cause danger.
5. Regularly clean the projector vents, or dust may cause a cooling malfunction.
6. Do not use the projector in a greasy, damp, dusty or smoky environment. Oil or chemicals will cause a malfunction.
7. Please handle with care during daily use.
8. Please cut off the power if the projector is out of use for a long time.
9. Non-professionals are forbidden to disassemble the projector for testing and maintenance.

- Do not heat the power cord.
- Avoid touching the power adaptor with wet hands.

Disclaim

This manual is general instructions. The pictures and functions in this manual should be subject to the actual product. Our company is devoted to improve product performance, we reserve the right to modify product functions and interface described in this manual without notice. Please keep your device properly. We are not responsible for any loss caused by the wrong operation of software/hardware, or by repairing or any other reasons. We are not responsible for any loss of third-party claims. This manual has been carefully checked by a professional engineer, please understand any inevitable omissions.

Attention: Please do not look directly into the lens when projecting to prevent the strong light doing harm to your eyes. Kids should use the projector under the supervision of

adults.

FCC

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interferenceto radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.

FAQs

- **Q: Can children use the projector unsupervised?**
  - A: No, children should always use the projector under the supervision of adults to avoid any accidents or misuse.
- **Q: How should I clean the projector vents?**
  - A: Use a soft, dry cloth to gently clean the vents. Avoid using any liquids or harsh cleaning agents.
- **Q: What should I do if the projector is not powering on?**
  - A: Ensure that the original power adapter is properly connected and try plugging it into a different power outlet.
