Product Usage Instructions

NDMist Installation

To install the NDMist filter, follow these steps:

1. Align the small alignment slot on the filter with the corresponding slot on the camera.
2. Use the Magnetic Quick Swap System to attach the NDMist filter securely.

CPLCreative Filters

To use the CPLCreative filters, follow these steps:

1. Attach the filter using the F Series Press-Twist-Lock Mechanism.

2. Align the big alignment slot on the filter with the corresponding slot on the camera.

Filter Options

The following filters are available for use with your smartphone:

- Kaleidoscope
- Colorburst
- Mirage
- Galactic Grid

FAQ

- Q: Which cameras are compatible with the filters?
A: The filters are compatible with all Samsung Galaxy S23 Ultra cameras.
- Q: How do I attach the filters securely?
A: The NDMist filter uses the Magnetic Quick Swap System, while the CPLCreative filters use the F Series Press-Twist-Lock Mechanism.
- Q: Where can I provide feedback or suggest additional filters?
A: You can send your recommendations to our customer care team at care@freewellgear.com.
