**FRIGIDAIRE GCFI3060BF ADA 30 Inch Front Control Induction Range with Total Convection**

## Product Information

- **Product Line:** Induction Range
- **Power Type:** Electric 240v
- **Connected Appliance:** No
- **UPC:** 012505515095

## Product Usage Instructions

### Total Convection

Total Convection gives you maximum versatility in the kitchen, powering cooking modes like Air Fry, No Preheat, Slow Cook, Convection Bake, Steam Bake, Convection Roast, Steam Roast, Air Sous Vide, Bread Proof, Dehydrate and more!

### Cooktop Cleaning

Unlike traditional electric and gas cooktops, induction only heats the pan and the food in it, so the area around the pan stays cooler, allowing you to clean up spills and splatters while you cook.

### No Preheat

Start baking immediately with No Preheat. Eliminate time wasted waiting for your oven to heat up by simply placing your food in the cold oven and get to mealtime, in no time. No Preheat is best used for single-rack baking of frozen or pre-made items and food that needs to cook for longer than 10 minutes.

### Air Fry

Deliver all of the flavor and none of the guilt with Air Fry. Air Fry allows you to make healthier and delicious meals

for the entire family, right in your oven.

### **Slow Cook**

Experience a hassle-free way to cook with Slow Cook. Lock in moisture and flavor without over or undercooking your food.

### **Induction**

Get amazingly fast results with Induction. Induction boils water 50% faster than gas or electric cooktops.

## **Product Specifications**

### **Cooktop Performance**

- Right Front Element Burner Size: 8 3/10
- Right Rear Element Burner Size: 5 1/2
- Left Front Element Burner Size: 7
- Left Rear Element Burner Size: 7
- Center Rear Element Burner Size: 5 1/2

## **Frequently Asked Questions**

- Q: What is Total Convection?
- A: Total Convection provides maximum versatility in the kitchen, offering over 15 different cooking modes including Air Fry, No Preheat, Slow Cook, Convection Bake, Steam Bake, Convection Roast, Steam Roast, Air Sous Vide, Bread Proof, Dehydrate and more!
- Q: How does induction cooktop cleaning work?
- A: Induction cooktops only heat the pan and the food in it, keeping the area around the pan cooler. This allows you to easily clean up spills and splatters while you cook.
- Q: What is No Preheat and how do I use it?

- A: No Preheat allows you to start baking immediately without waiting for the oven to heat up. Simply place your food in the cold oven and start cooking. It is best used for single-rack baking of frozen or pre-made items and food that needs to cook for longer than 10 minutes.
- Q: How does Air Fry work?
- A: Air Fry allows you to make healthier and delicious meals for your family right in your oven. It delivers all of the flavor without the guilt.
- Q: What is Slow Cook and how does it work?
- A: Slow Cook provides a hassle-free way to cook, locking in moisture and flavor without over or undercooking your food.
- Q: How fast is induction cooking compared to gas or electric cooktops?
- A: Induction cooking boils water 50% faster than gas or electric cooktops.

## GCFI3060BF

### 30" Front Control Induction Range with Total Convection

The Frigidaire Gallery 30" Front Control Induction Range with Total Convection features our most powerful and advanced convection system, which enables cooking modes like No Preheat, Air Fry, Slow Cook, Steam Bake, Steam Roast, Air Sous Vide, Convection Roast, Convection Bake, Bread Proof and more! Plus, no cooktop is easier to clean than induction, since induction heats the pan and not the cooktop around it, spills wipe up more easily. Also, you can get dinner on the table faster with the induction cooktop, which boils water 50% faster than gas and electric. Plus, enjoy precision cooktop temperature control with our new TempLock™ technology.

**Available Colors:** Stainless Steel

### Consumer Benefits

#### Get over 15 ways to cook with Total Convection

Total Convection gives you maximum versatility in the kitchen, powering cooking modes like Air Fry, No Preheat, Slow Cook, Convection Bake, Steam Bake, Convection Roast, Steam Roast, Air Sous Vide, Bread Proof, Dehydrate and more!

#### Keeping your cooktop clean has never been easier

Unlike traditional electric and gas cooktops, induction only heats the pan and the food in it, so the area around the pan stays cooler, allowing you to clean up spills and splatters while you cook.

#### Start baking immediately with No Preheat

Eliminates time wasted waiting on your oven to heat up – simply place your food in the cold oven and get to mealtime, in no time. No Preheat is best used for single-rack baking of frozen or pre-made items and food that needs to cook for longer than 10 minutes.

#### Deliver all of the flavor and none of the guilt with Air Fry

Air Fry allows you to make healthier and delicious meals for the entire family, right in your oven.

## Experience a hassle-free way to cook with Slow Cook

With Slow Cook, your food cooks slowly and at a lower temperature (as low as 100° F), allowing you to lock in moisture and flavor without over or undercooking your food.

## Get amazingly fast results with Induction

Induction boils water 50% faster than gas or electric cooktops. 9" induction right front element, 6 qt./10" diameter pot, 1 qt. tepid water compared to 3000W 9" electric right front element and 18,000 BTU gas right front burner.
