FrogValidate Software

		
Trending now Say goodbye to outdated technology and hello to the new era in innovation.	Sustainable Our hassle-free system means you won't need any paper tickets, which not only reduces your maintenance costs but it's also a big green tick for the environment.	Automatic Take the pressure off your admin staff by automating processes. Not to mention that we keep your system up to date effortlessly and remotely.

Crafted to enhance operational efficiency, FrogValidate prioritizes the end-user experience.

FrogValidate is customizable, so we can work with you to find your version of perfect parking validation. There are many options for FrogValidate, from mobile applications, unique QR codes, and even a manual validation codes... FrogValidate has got you sorted.

FrogValidate allows for you to set complex parking requirements that can be applied in real-time. For example, early bird/happy hour rates, limited free parking opportunities, special access use or validation for employees.

FrogValidate is extremely payment-versatile, offering more than just PayWave tap-and-go contactless payments. It also supports ApplePay and Google Pay, with the unique capability to explore further options like WeChat-Pay and AliPay enabled mobile payments.

Connecting seamlessly with your FrogHub, FrogValidate opens the door to unprecedented insights into customer trends, usage patterns, and behavioural tendencies, providing you with invaluable data like you've never seen before.

All Frogparking solutions include a customizable dashboard offering comprehensive insights into your parking asset. This real-time dashboard provides unique information about driver trends, behaviors, and preferences, along with tailored reports covering technical, operational, and revenue collection data. Our dashboard facilitates effortless decision-making to optimize revenue and maximize the potential of your parking asset.
