Download Procedure

1. Access above URLs with Microsoft Edge.
2. Click Download.

3. Right-click on the file name, select Save link as from the menu.

If there are more than one updates, perform the above step.

4. In the Save As screen, select the download destination for the updates, then click Save.

5. Updates will be saved to the location specified in Step (4).

Install Procedure

1. Preparation before Applying the Security Updates
   1. Copy the update files to any folder on the GX Print Server.
   2. Turn the power to the Print Server off and disconnect the network cable.
      - Metal parts are exposed on the back of the Print Server's main body.
      - When disconnecting the network cable be careful to avoid being injured by these parts.
      - Alternatively, you can disconnect the network cable on the hub side.
   3. Turn the Print Server back on.
   4. If the Print Service application is running, then terminate it. (Windows Start menu > Fuji Xerox > StopSystem)

      Terminate any other running applications.
   5. Double-click on "D:\opt\PrtSrv\utility\ADMINtool\StartWindowsUpdate.bat".
   6. Press return key to continue.
2. How to Apply the Security Updates.

   1. Double-click on the security update file.

      Note : Before applying the security update close all the running applications (e.g., Print Service).
   2. In the Windows Update Standalone Installer, click Yes.

   3. The Installation will now begin.

4. When the installation is finished, click Close to complete the setup.

Note: You can reboot the computer every time a security update is applied.

3. Confirming the Security Updates.

By following the procedure described below you can confirm if the update programs have been successfully applied.

1. Select Start Menu > Settings > Control Panel > Programs and Features.

2. In the left pane click View installed updates.

3. Confirm that the security updates that you applied are displayed in the list.
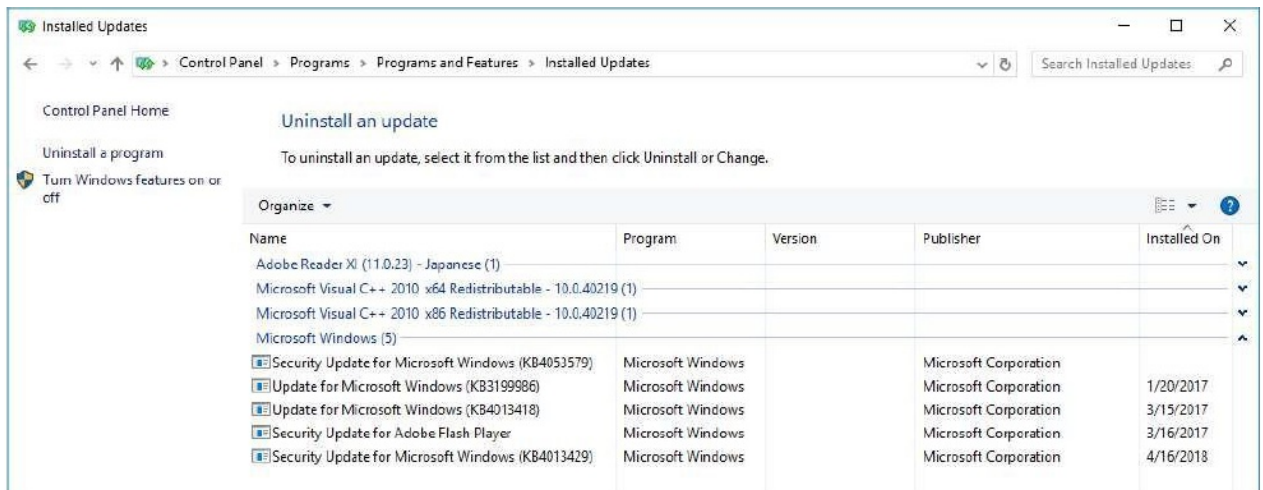

4. Completion
    1. Shut down the Print Server and reconnect the network cable.
    2. Turn the Print Server back on.

Frequently Asked Questions

- **Q: Can I apply the security updates without an internet connection?**
    - A: No, an internet connection is required to download and apply the security updates.
- **Q: How can I check if the security updates were successfully applied?**
    - A: You can confirm the applied security updates by checking the list of installed updates in the Control Panel.
