FUJITSU F1530 Series Core Banking Solution

Specifications

- **Product:** Fujitsu Core Banking Solution
- **Manufacturer:** Fujitsu Limited
- **Release Date:** May 6, 2025
- **Philosophy:** Creating an easily integrable solution to support the future expansion of financial services
- **Feature:** Lightweight Core Banking Application using microservices architecture

Product Usage Instructions

Overview

The Fujitsu Core Banking Solution is a next-generation system designed to shape the future of finance by providing highly reliable core banking and branch solutions.

Features

The system focuses on achieving finance automation, smart finance, personalized finance, and an AI/data utilization platform. It leverages data to continuously evolve and offer time-independent financial services for the future.

Core Banking Solution

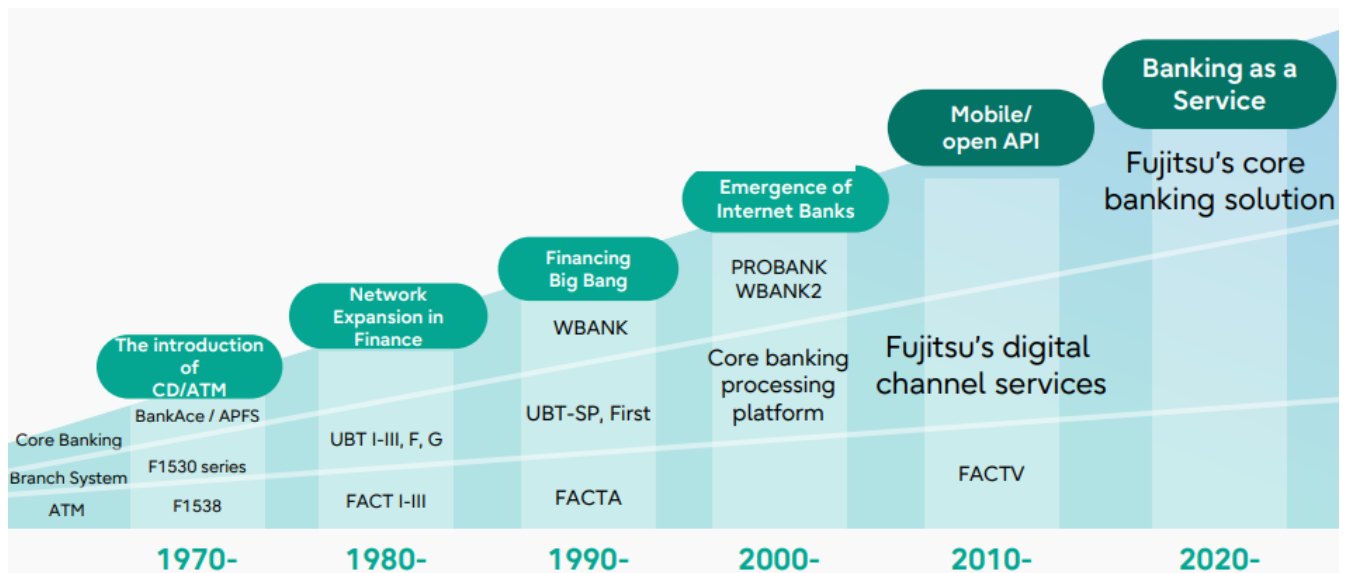

The core banking solution offers a lightweight application utilizing microservices architecture for enhanced IT resilience. It reduces asset scale by approximately 60% compared to conventional systems.

Usage Steps

1. Access the core banking solution platform.
2. Select the desired service or transaction type (e.g., time deposit).
3. Follow the on-screen prompts to complete the transaction.
4. Ensure data consistency and transaction guarantees are maintained throughout the process.

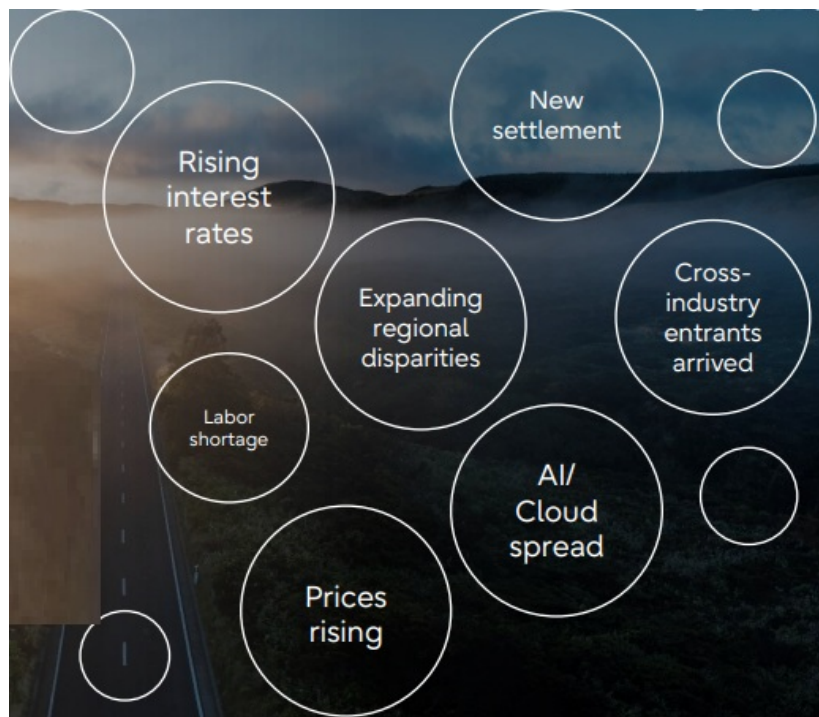

History of Fujitsu's financial system

- Fujitsu is a long-time contributor to the digitalization of financial infrastructure and the streamlining of operations, helping to advance the evolution of financial systems.

Changes in the Social Environment Surrounding Finance

- Sustained corporate growth still involves uncertainty.
- Financial institutions play a central role and face an ever increasing need to drive digital transformation (DX) to maintain and sharpen their competitiveness.

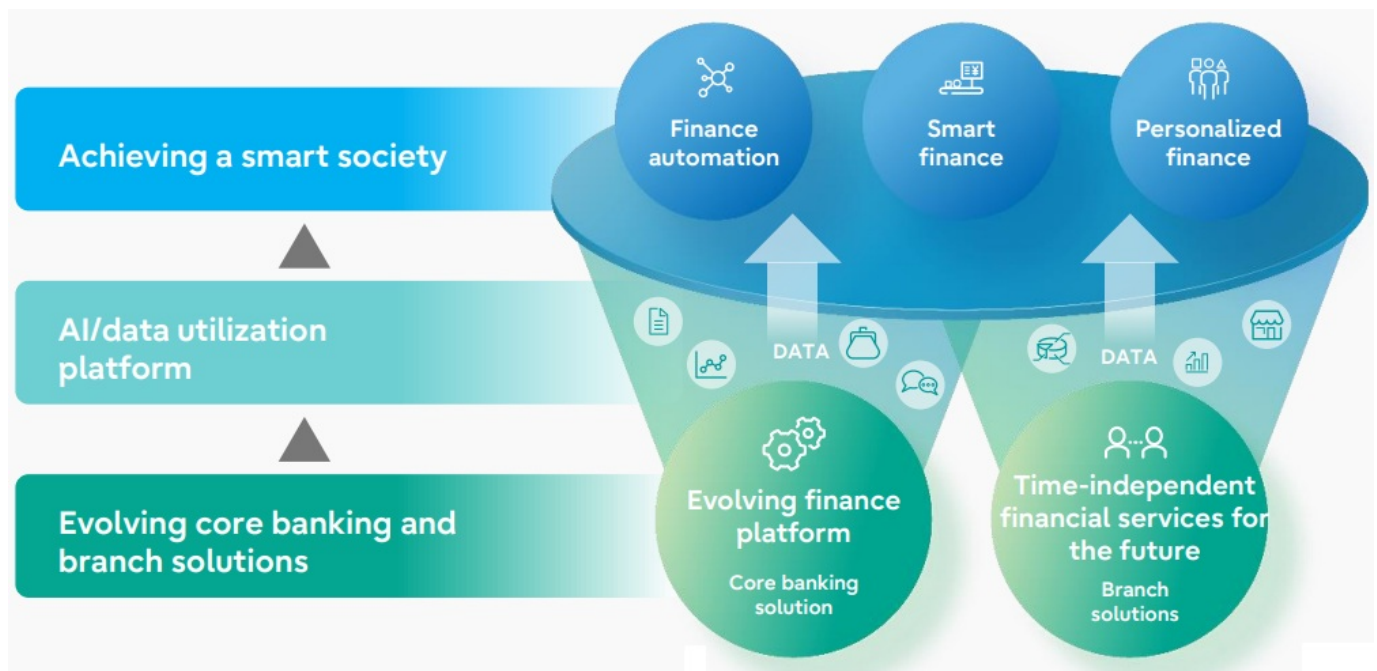

FUJITSU'S Challenge

Shaping the Future of Finance Through Innovation

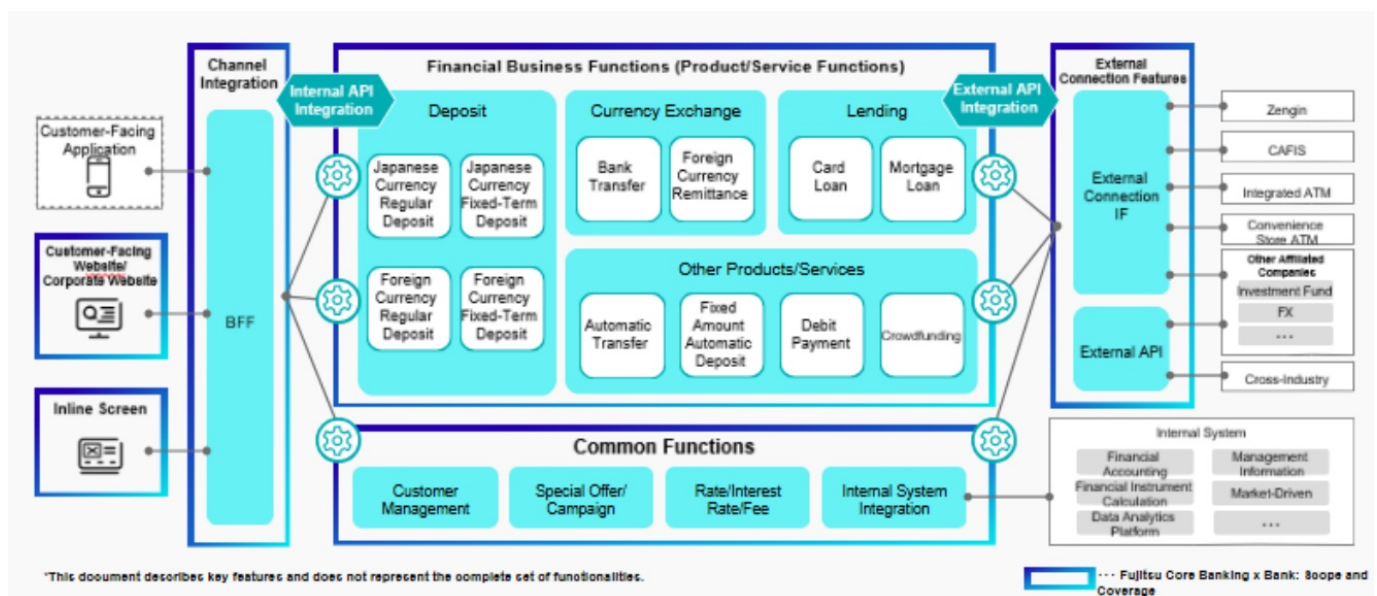

Fujitsu's vision for the future of financial services

We aim to realize a smart society that enriches people's lives by continuously evolving highly reliable core banking and branch solutions and leveraging the data obtained from them.

Core Banking Solution

Overview of Fujitsu's core banking solution

- Sony Bank's new core banking system, powered by Fujitsu's core banking solution, launched on May 6, 2025.

- This press release is Japanese only.

Core Banking Solution: Fujitsu's core banking solution

The next-generation core banking solution from Fujitsu that will shape the future of finance.

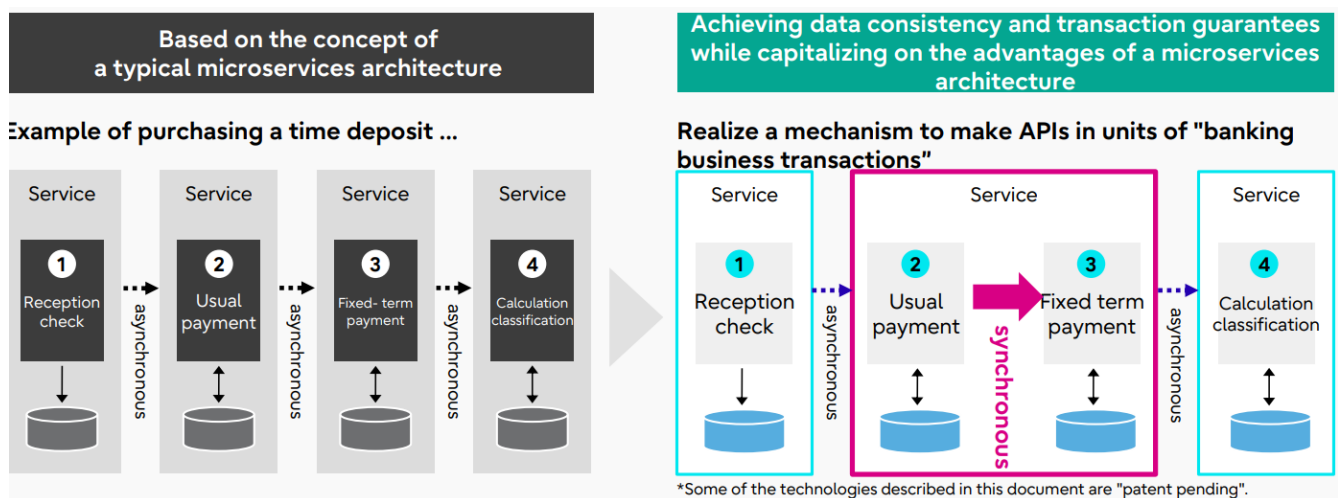

The philosophy behind Fujitsu's core banking solution

- We aim to create an easily integrable solution to support the future expansion of financial services.

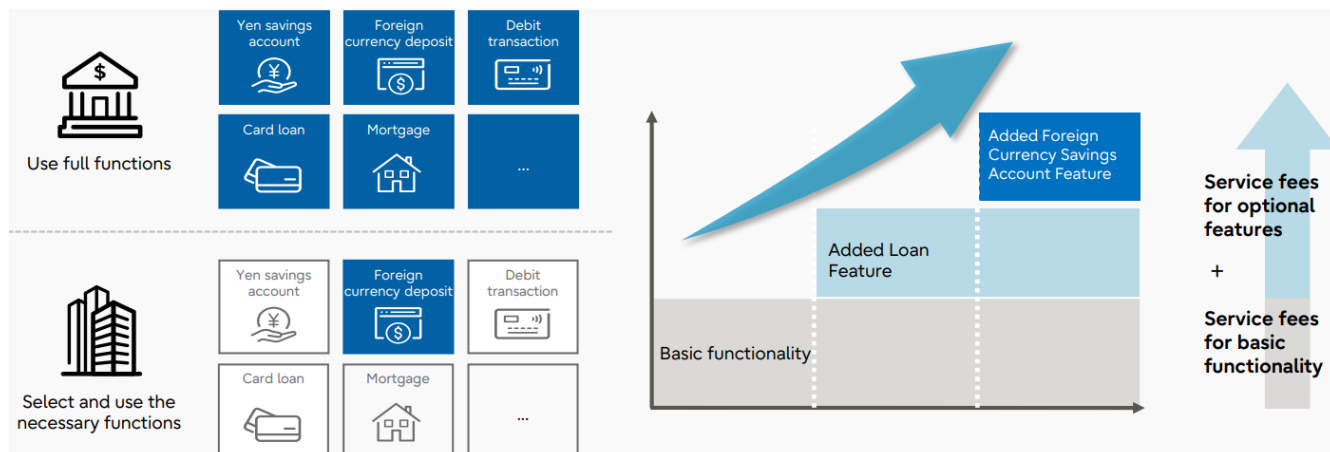

Core Banking Solution: Feature 1 – Lightweight Core Banking Application

- Fujitsu's core banking solution uses a microservices architecture to enhance IT resilience.
- Compared to conventional bank core banking systems, we have reduced the asset scale by approximately 60% and achieved a lighter weight.

Core Banking Solution: Feature 2: Quick adaptation to business strategies

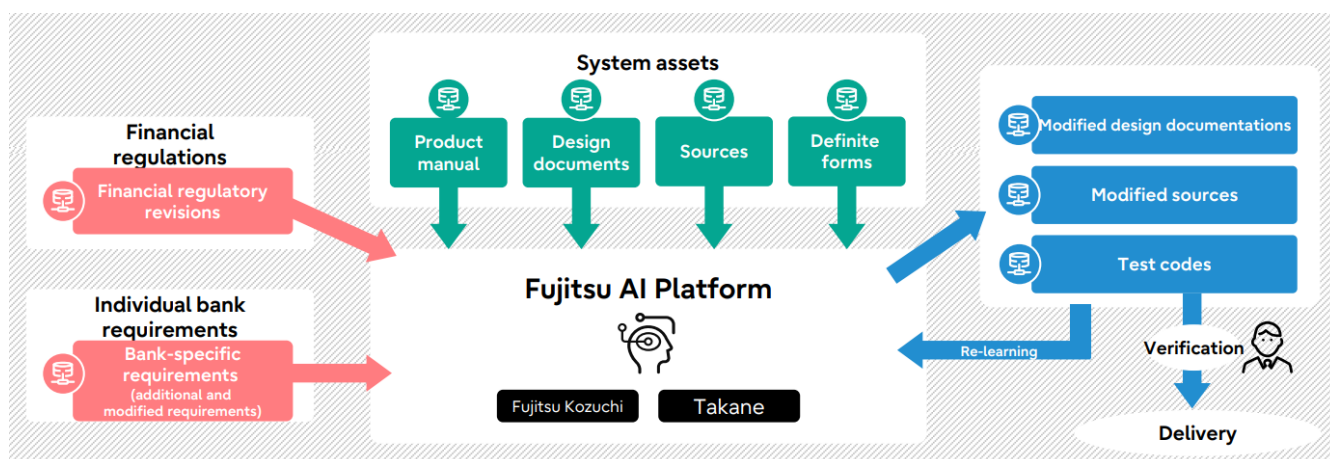

- Fujitsu's core banking solution features a service-oriented architecture, with each business function offered as an independent service.
- This allows for granular selection and combination of functionalities. The system also provides flexible support for service expansion to accommodate business growth, facilitating a rapid response to strategic shifts.

Core Banking Solution – Pursuing further evolution

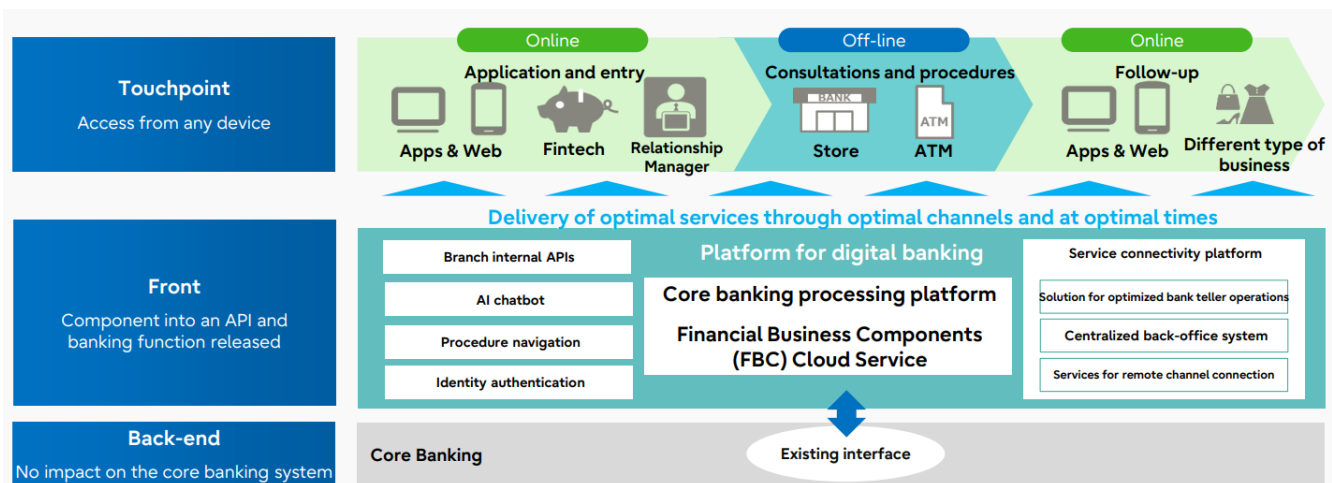

Challenges of AI-driven development and maintenance

- Fujitsu's AI learns from Fujitsu's core banking solution system assets to optimize application maintenance efficiency and quality for financial regulatory revisions and bank-specific requirements.

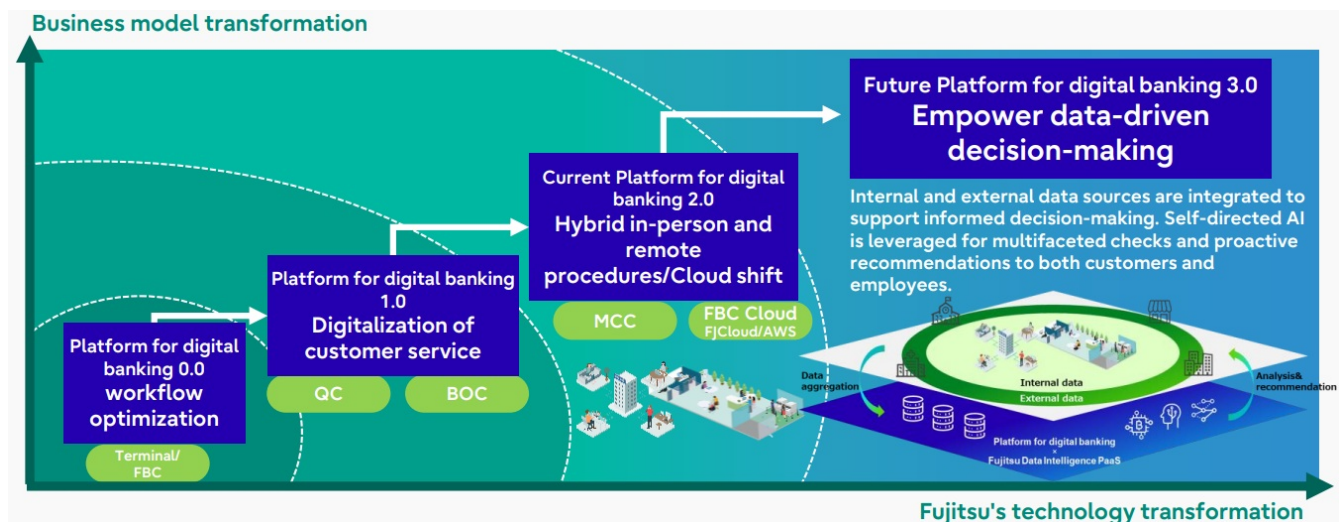

Branch Solutions Platform for digital banking

- A platform for digital banking transforms the financial front-end by digitalizing operations, providing customers with an optimal interface and a seamless experience.
- It promotes operational efficiency and work-style innovation for bank employees, evolving branch locations into agile decision-making hubs.

Branch Solutions – Evolution toward DX

- We are committed to helping our clients realize transformative business models. By disaggregating banking operations into data and workflows and establishing a centralized data integration platform for unified data management, we enable seamless processing across both remote and in-person channels, driving significant operational efficiencies.
- Fujitsu is extending this data integration capability across diverse industries, leveraging core technologies centered on AI, and harnessing the agility and scalability of a cloud-native architecture.

Branch Solutions – Case Study

FBC Total Solution

- Since its launch at Hiroshima Bank in March 2023, adoption of our cloud-based service model has been growing.

Track record

- Currently running at 33 financial institutions (as of March 2025)

Cloud Adoption Row

Fujitsu's digital channel services Case Study: Hiroshima Bank

PRESS RELEASE

2023年9月26日
富士通株式会社

広島銀行様に、営業店業務の平準化を図る仕組み「僚店サポート」を導入

金融機関様向けデジタルソリューション「Digital Branch」の活用により銀行全体で事務効率化を実現

当社は、株式会社広島銀行^(注1)（以下、広島銀行）様の営業店業務をペーパーレスにて人の移動なく、事務集中部門や他店舗を含めた銀行全体で支援し、業務の平準化を図る仕組みである「僚店サポート」を導入し、広島銀行様にて、2023年9月より運用が開始されました。

本仕組みは、当社の金融機関様向けデジタルチャネルソリューション「Digital Branch」の後方事務集中化ソリューション「BackOffice Connector」を用いて実現し、各営業店・本部で受け付けた帳票を事務集中部門や他店舗へイメージデータで作業依頼するものです。

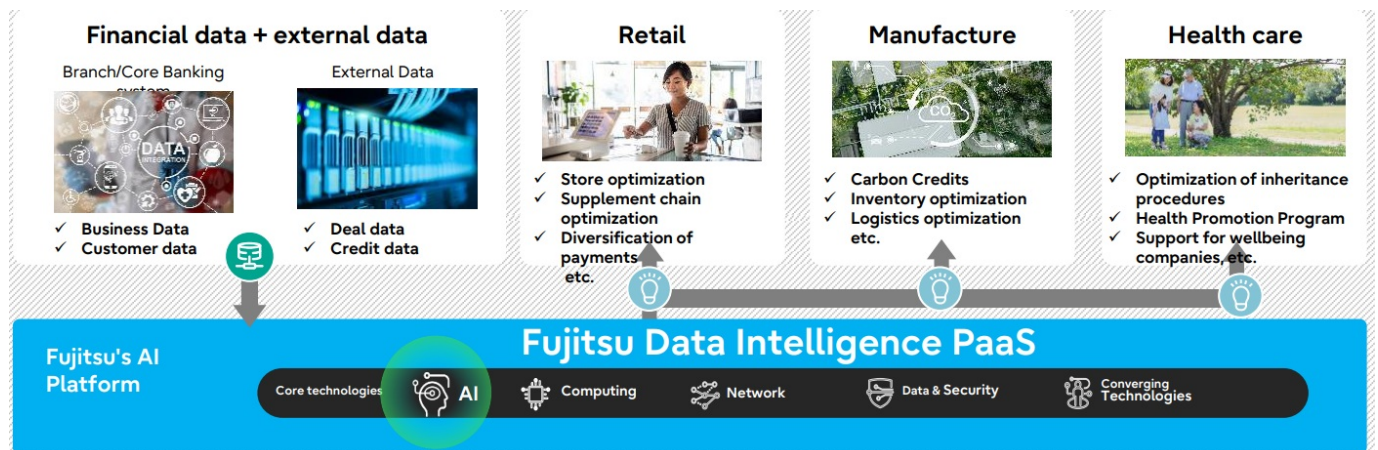

広島銀行様では、営業店業務のデジタル化を推進しており、2023年3月には従来オンプレミス型で提供していた営業店システムの基盤を、当社のクラウド型営業店システム「FBC Cloud Service」により、クラウドシステムへ移行しました。クラウド化により、システム運用コストを削減するとともに拡張性と柔軟性を確保し、他サービスとの連携やお客様の利便性向上につなげています。
