Product Usage Instructions

Mounting the Module

Mount the module according to the table provided below:

Function Overview

The module provides a range of digital I/O pins for general purpose use. Refer to the pin assignments table for specific functions of each pin.

Power Supply

Connect the VDD pin (No. 28) to the power supply pin (No. 48) for proper power input.

Connecting External Devices

For connecting external devices, ensure to match the pin assignments with the corresponding external connections as listed in the table.

Frequently Asked Questions (FAQ)

- **Q: How do I determine the function of a specific pin on the module?**

A: Refer to the pin assignments table in the user manual to identify the function of each pin on the module.

- **Q: What is the purpose of the ground pins?**

A: The ground pins (GND) provide a common reference point for the module's electrical circuits and help ensure proper functioning.

This is the Bluetooth® Low Energy enabled module FWM7BLZ23

The pin assignments and Function of this module are listed in the table. Mount the module according to the table below.

Note to users in the United States of America

Caution:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Applicable FCC rules

Part 15 Subpart C

This device complies with below part 15 of FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Following information must be indicated on the host device of this module. Contains Transmitter Module FCC ID: SQK-7BLZ23

or

Contains FCC ID: SQK-7BLZ23

The modular transmitter is only FCC authorized for the specific rule parts (i.e., FCC transmitter rules) listed on the grant (Part 15 of the FCC rules), and the host product manufacturer is responsible for compliance to any other FCC rules that apply to the host not covered by the modular transmitter grant of certification. The final host product still requires Part 15 Subpart B compliance testing with the modular transmitter installed.

Note to users in the United States of America and Canada

Note to users

- It is strictly forbidden to use antenna except designated.
- This equipment must not be co-located or operated in conjunction with any other antenna or transmitter.

- This equipment complies with FCC/ISED radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the ISED radio frequency (RF)
- Exposure rules. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines. This equipment should be installed and operated keeping the radiator at least 20cm or more away from person's body.
- Following information must be indicated on the host device of this module. Contains IC: 337L-7BLZ23

Note to users in the United States of America and Canada

Note to users in Canada

This device complies with ISED license-exempt RSSs. Operation is subject to the following two conditions:

1. This device may not cause interference; and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

European Community Compliance Statement

Note:

Hereby, Fujitsu component Limited, declares that this FWM7BLZ23 is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.
