FULLOSUN

FULLOSUN FS-AMZ02 3D Ocean Dolphin Lamp

INTRODUCTION

This adorable night light, the FULLOSUN FS-AMZ02 3D Ocean Dolphin Lamp, is made to entertain kids and provide a calm underwater atmosphere. This polished lamp with a dolphin motif was introduced by FULLOSUN and is reasonably priced at **$15.65**. It has an energy-efficient LED technology that creates a stunning 3D illusion effect. This lamp is unique because it has 16 color-changing modes, touch and remote controls, and adjustable brightness, making it suitable for both ornamental purposes and bedtime relaxation. Made with premium materials and a sleek ABS base, it may be used in nurseries, children's bedrooms, and even themed party settings. The lamp is a parent-approved favorite because it has two power options: a USB connection or three AAA batteries. It also has an auto-off timer that runs from 15 minutes to 12 hours. The FS-AMZ02, which is small and light, is a happy fusion of style and functionality that transforms every night into an amazing aquatic experience for children.

FEATURES

- **Vivid 3D Dolphin Illusion:** Using a flat acrylic panel, this 3D optical illusion produces a realistic image of an ocean dolphin.
- **16 Color Options:** Red, green, blue, yellow, cyan, pink, and white are among the 16 vivid hues available.

- **Remote and Touch Control:** A remote control or a straightforward one-touch button on the base make it simple to operate the lamp.
- **Dimmable Brightness:** For individualized lighting comfort, brightness levels can be changed using a remote control.
- **Dual Power Supply:** For versatile use, it can be powered by a USB cable or three AAA batteries (batteries provided).

- **Energy Efficiency:** Low power usage of 0.012 kWh per day, or about 4.4 kWh per year.
- **Long LED Lifespan:** Premium LEDs with a minimum 10,000-hour continuous usage rating.
- **Soft, Uniform Lighting:** Nine LEDs are used to create soft, uniform lighting that is safe for kids' eyes and doesn't flicker or shine.
- **Auto-Off Timer:** This timer saves energy by automatically shutting off after 15 minutes to 12 hours.
- **Compact Dimensions:** It is lightweight at 0.3 kilogram (10.6 oz) and has compact dimensions of 0.15″ D x 5.2″ W x 8.23″ H.

- **Polished Finish:** A smooth, polished acrylic panel improves both aesthetic appeal and visual clarity.

- **Safe Remote Battery:** The remote battery conforms with UN 38.3 and MSDS safety regulations.
- **Various Use Cases:** Perfect for offices, corridors, living spaces, children's bedrooms, and themed stores.
- **Complete Package:** The entire package consists of an optical acrylic panel, LED base, remote control, 59-inch USB cable, and user instructions.
- **Fingerprint-Friendly Design:** To prevent smudges and fingerprints, it is advised to hold the acrylic panel by its edges.

SETUP GUIDE

- **Unpack Carefully:** Carefully unpack the package, taking off the acrylic panel, LED base, remote control, USB cable, and documentation.
- **Remove Protective Film:** Before using the acrylic panel, remove any protective film by peeling it off.
- **Insert Acrylic Panel:** Slide the dolphin-shaped acrylic panel firmly into the LED base's slot to insert it.
- **Option 1: USB Power:** Attach the USB cable to the base and plug it into a USB power source, either a computer or wall adapter.
- **Power Option 2: Batteries:** To enable cordless operation, open the battery compartment and place the three AAA batteries that are included.
- **Turn on the Lamp:** To turn on the lamp, press the touch button on the base or press the remote control.
- **Choose Color:** To pick your favorite light, use the remote control or touch button to cycle through 16 different colors.
- **Select the Color Mode:** Using the remote, choose between four color-changing modes or static color.
- **Adjust Brightness:** To change the brightness, use the remote's dimmer feature.
- **Set Timer:** Set the timer to turn off automatically at 15, 30, 60, or even 12 hours.
- **Place on Stable Surface:** Set the light down on a desk or bedside table that is level and stable.
- **Avoid Direct Sunlight:** To avoid discoloration, keep the lamp out of direct sunlight.
- **Keep Dry:** Use inside and stay away from damp areas and moisture.
- **Handle USB Cable:** To prevent tangling or damage, arrange the USB cable correctly.

- **Store Remote Control:** Store the remote control correctly by keeping it in a convenient and secure location.

CARE & MAINTENANCE

- **Clean the Acrylic Panel Gently:** To remove dust and fingerprints without causing scratches, use a gentle microfiber cloth.
- **Steer Clear of Abrasive Cleaners:** Avoid using abrasive products or strong chemicals on the base or acrylic.
- **Handle Acrylic by Edges:** To prevent smudges and fingerprints, hold the acrylic panel by its edges.
- **Remove Batteries When Not in Use:** If the lamp will be left unattended for extended periods of time, remove the batteries to avoid battery deterioration.

- **Check Battery Compartment:** Examine the battery compartment frequently for indications of corrosion or leaks.
- **Maintain a Clean USB Port:** For a dependable connection, make sure the USB port is clear of dust and debris.
- **Handle Carefully:** To avoid damage or cracks, do not drop or distort the acrylic panel.
- **Store in Dry Place:** To extend the lamp's lifespan, store it in a dry location when not in use.
- **Avoid Water Exposure:** Even when using the light indoors, keep it away from water and humid areas.
- **Check USB Cable Condition:** Examine the condition of the USB cable and replace it if there are indications of wear or damage.
- **Use the Correct Power Source:** To prevent harm, only use USB power sources with a 5V output.
- **Turn Off When Not Needed:** Turn off the LED lamp when it's not in use to prolong its longevity.
- **Avoid Pressure on Controls:** Avoid putting too much pressure on controls to keep the remote and touch sensor sensitive.
- **Avoid Extreme Temperatures:** Keep the lamp out of cold temperatures and heat sources.
- **Replace Remote Batteries:** When necessary, change the remote control batteries to ensure continuous operation.

TROUBLESHOOTING

Issue	Possible Cause	Suggested Solution
Lamp doesn't power on	Power supply not connected properly	Check USB cable or replace batteries
Remote not responding	Dead remote battery	Replace battery; ensure line of sight
No color changes	Remote or touch control failure	Reset lamp; re-test with both controls

Issue	Possible Cause	Suggested Solution
Brightness not adjusting	Remote malfunction or low battery	Replace remote battery or test touch control
Flickering light	Unstable power or loose panel	Secure acrylic plate and power source
Auto-timer not working	Timer not set correctly	Double-press timer button to activate
Uneven lighting	Panel not inserted properly	Remove and reinsert acrylic panel correctly
Touch sensor unresponsive	Dust or static interference	Gently clean button area and try again
LED base overheating	Prolonged use without ventilation	Allow lamp to cool; do not cover while on
Weak light output	Dirty panel or low battery	Clean panel surface; replace or recharge

PROS & CONS

Pros

- Eye-friendly, flicker-free LED lighting
- 16 color modes with remote and touch control
- Auto-off timer up to 12 hours
- Dual power options: USB or battery
- Lightweight and easy to use anywhere

Cons

- Acrylic panel can attract fingerprints
- Not waterproof or outdoor-suitable

- Timer needs to be reset daily
- Limited to indoor, tabletop use
- May not provide enough light for reading

WARRANTY

The FULLOSUN FS-AMZ02 Dolphin Lamp comes with a **1-year limited** warranty covering defects in materials and workmanship. This includes issues with the LED base, remote control, or power functions under normal use. Customers are eligible for repair, replacement, or customer support during the coverage period.

FREQUENTLY ASKED QUESTIONS

What kind of visual effect does the FULLOSUN FS-AMZ02 3D Ocean Dolphin Lamp offer?

The FULLOSUN FS-AMZ02 creates a stunning 3D illusion of a dolphin, projecting a soft, eye-friendly glow that captivates children while providing comfort at bedtime.

How many colors can the FULLOSUN FS-AMZ02 Dolphin Night Light display?

The lamp offers 16 color options including red, green, blue, yellow, cyan, pink, and white controlled via the included remote or touch button.

What power sources are compatible with the FULLOSUN FS-AMZ02 Dolphin Lamp?

The lamp can be powered by a USB cable or 3 AAA batteries, offering flexible usage without relying solely on one power source.

What should I do if the FULLOSUN FS-AMZ02 remote isn't working?

Confirm the remote battery is installed properly. Point the remote directly at the

lamp base, and remove any obstacles between the remote and the sensor.

Why does my FULLOSUN FS-AMZ02 Dolphin Lamp flicker occasionally?

Flickering may occur due to low battery levels, a loose USB connection, or a damaged power cable. Try switching to a different power method or replacing the batteries.

What is the expected LED lifespan of the FULLOSUN FS-AMZ02 Dolphin Lamp?

The built-in LED lights have an estimated lifespan of 10,000 hours, making it a long-lasting and energy-efficient night light solution.

Is the FULLOSUN FS-AMZ02 Dolphin Lamp safe for kids and babies?

Yes, it uses soft, non-flickering LED lights that are gentle on the eyes, and it is certified with MSDS and UN 38.3 safety regulations, making it ideal for children.
