FUSIONTM
TECHNOLOGY

DANGER: The Fusion tool is charged with compressed air in a sealed chamber. Prior to any service or repair, release the charge of pressurized air. The pressurized air must be released prior to service. Major components such as the piston/driver assembly, gearbox, piston stop and guide body are all part of the drive assembly. Deliberate tampering with the drive assembly may result in the release of the driver. Any repair or upgrade requiring access to the pressure chamber may be handled by an authorized Senco dealer or service center.

GENERAL ASSEMBLY

GRO UP	DEsCRPTION	GRU PO	DEsCRIPCIÓN	GROU PE	DEsCRPTION
A	Left Body Assembly	A	Ensamblaje izquierdo del cuerpo	A	Ensemble de la partie gauche du boîtier
