## Product Information

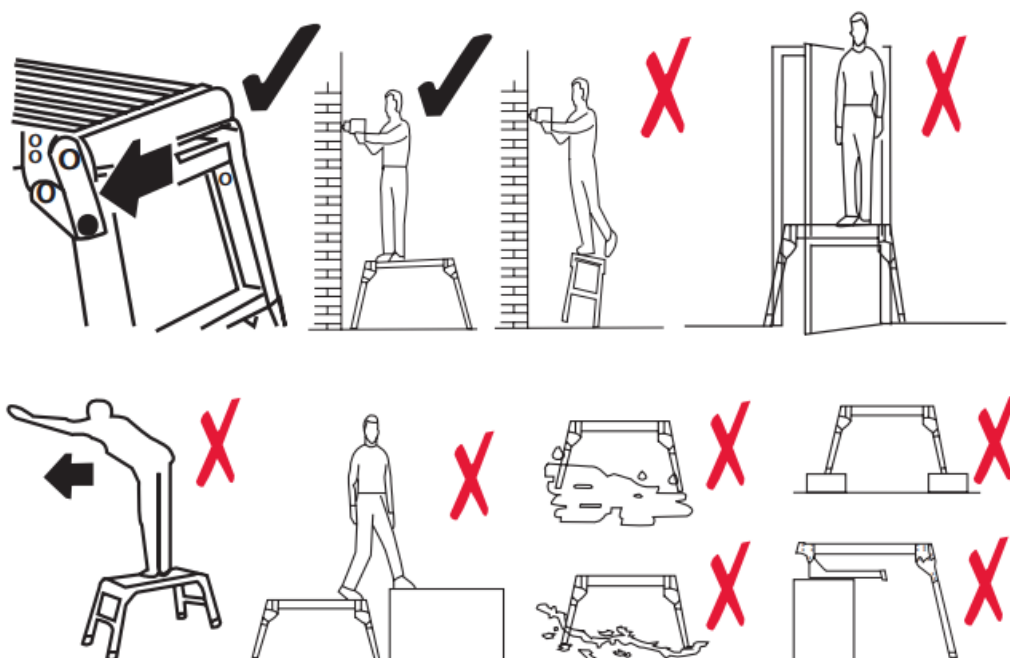

### Thank you for purchasing our product.

Before using this product, please read this manual. This high-end model was initially developed for professional use and has a very sturdy construction. Use of light aluminium materials lowers the total weight and the unique construction allows for collapsing this platform to a very small and easily transportable and storable size. These features make the platform perfect not only for professional use, but also for use in your household, workroom or in the garden. Especially the collapsible feature which allows minimizing of the necessary storage space will be appreciated by many who deal with lack of room in their homes and workrooms or have to deal with frequent transportation of the platform. All construction elements, rungs and security locks are manufactured with ergonomic principles in mind and support simple and intuitive use of the product. We believe that all its features will make your use of the product a pleasant experience for you. Use of the platform was approved by prestigious international test-room TUV Rheinland. We strongly recommend reading of the whole instruction manual on following pages in order to achieve safe use of the platform.
