Specification

mode	Platforms	Indicator Light	Connection Type	System Requirements
	PC	Hold ○+X to switch to XInput mode, the indicator light turning white Hold ○+A to switch to DInput mode, the indicator light turning blue	Dongle/ Wired	Win 7 and Above
	PC/Android /iOS		BT	Win 7 and Above Android 10 and Above iOS 14 and Above
NS	Switch	Blue	BT/Wired	Switch

Note: Most games on PC support XInput mode, but some older games may only support DirectInput mode.

- Wireless RF: BT 5.0
- Service distance: less than 10 meters
- Battery information: rechargeable lithium-ion battery, battery capacity 800mAh, charging time 2 hours, charging voltage 5V, charging current 800mA
- Operating current: less than 40mA when in use, less than 10μA in standby
- Temperature range: use and storage at -10 °C~50 °C

Appearance

The name and content of harmful substances in the product

Part Name	Toxic or Hazardous Substances and Elements					
	Pb	Hg	Cd	Cr	PBB	PBDE
PCB Borad	○	○	○	○	○	○
Shell	○	○	○	○	○	○
Packaging	○	○	○	○	○	○
Wire	○	○	○	○	○	○
Polymer battery	○	○	○	○	○	○
Silicone	○	○	○	○	○	○
Small structural parts such as metal and tape	○	○	○	○	○	○

This form has been prepared in accordance with the provisions of SJ/T 11364

- Indicates that the content of the hazardous substance in all homogeneous materials of this part is within the limit specified in GB/T 26572-2011 Require the following
- ✗ Indicates that the content of the hazardous substance in at least one homogeneous material of the component exceeds the provisions of GB/T 26572-2011 the limited requirements

FCC Statement

FCC StatementThis device complies with Part 15 of the FCC Rules. Operation is subject

to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. \ This equipment generates uses and can radiate radio frequency energy and,if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.if this equipmemt does cause harmful interference to radio or television reception,which can be determined by turning the equipment off and on,the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. This equipment should be installed and operated with a minumum distance of 20 cm between the radiator and your body.
