Product Usage Instructions

Setting the Timer

1. Press the “Set” button to enter the setting mode.
2. Use the up and down arrows to adjust the hours and minutes.
3. Press “Set” again to confirm the time settings.

Programming the Timer

1. Press the “Program” button to enter programming mode.
2. Set the desired on/off times using the arrow keys.
3. Press “Program” again to save the program.

Manual Override

To manually override the programmed settings, press the "Override" button.

• ROTATING ELECTRONIC TIMER

- Works with 3 AAA LRO3 batteries, not included.
- Insertion and batteries replacement: Depending of the model, remove cover by using a screwdriver, put the AAA LRO3 batteries, taking care to match up the polarity indicated. Replace the cover so that it is in the same place.
- Magnet in the backside

• COUNTDOWN TIMER

- Rotate the button to set the time you want.
- After your countdown time is set, press the button once to start counting.
- When the countdown time counts down to 00 minutes 00 seconds, the digital timer will be buzzing and the screen will blink the alarm. The sound will last for 60 seconds.
- Buzzing can be stopped by pressing the button.
- Press the volume button to choose the proper volume.

• STOPWATCH

- Press and hold the button for zero clearing.
- When the display shows 00 minutes 00 seconds, press the button once to start counting. Press the button again to stop counting.
- The brightness will be automatically reduced. The timer will auto sleep while it is no operations for 5 seconds.
