GALAX PRO

GALAX PRO GP86225 Oscillating Multi-Tool Kit

Launch Date: April 18, 2019

Price: \$59.99

Introduction

The GALAX PRO GP86225 Oscillating Multi-Tool Kit is a strong, useful tool made for both amateurs and professionals who like to work on their homes. With a speed range of 11,000 to 21,000 oscillations per minute and a strong 2.4-amp motor, this multi-tool is great for jobs like grinding, polishing, cutting, and trimming. The quick-release button makes it easy to change blades without tools, and the ergonomic design makes it comfortable to use for long periods of time. The kit comes with 40 different tools that can be used with a lot of different materials, like metal, plastic, and wood. The GALAX PRO GP86225 is small and light, so it's great for getting into tight spots and hard-to-reach places. This oscillating tool makes difficult jobs easier by being built to last and having features that make it easy to use. It ensures efficiency and accuracy. The GALAX PRO GP86225 is an important tool to have, whether you're a do-it-yourself fanatic or a seasoned pro.

Specifications

- **Brand:** GALAX PRO
- **Voltage:** 120 Volts
- **Power Source:** Corded Electric
- **Motor Power:** 2.4 Amps
- **Wattage:** 280 Watts
- **Oscillation Speed:** 11,000 – 21,000 OPM

- **Amperage Capacity:** 2.4 Amps
- **Rotational Speed:** Maximum 21,000 RPM
- **Oscillating Angle:** 4°
- **Material:** Nylon, Aluminum
- **Weight:** 5.55 lbs (2.52 kg)
- **Dimensions:** 14.45 x 6.65 x 4.09 inches
- **Country of Origin:** China
- **Color:** Black

Package Includes

- GALAX PRO GP86225-1 Oscillating Multi-Tool
- Triangular Carbide Blade
- Semi-Circle Carbide Blade
- Triangular Sanding Pad
- HCS Wide Segment Wood Saw Blade
- HCS Narrow Segment Wood Saw Blade
- Semi-Circle Bi-Metal Saw Blade
- 2 Semi-Circle Wood/Plastic Saw Blades
- 4 HCS Wide Segment Wood/Plastic Saw Blades
- 3 Bi-Metal Saw Blades
- 2 Wood Saw Blades
- 2 Wood/Plastic Saw Blades
- 9 Sanding Papers
- 1 User Manual
- 1 Warranty Card

Features

1. Strong and long-lasting motor

The motor in the GALAX PRO GP86225 Oscillating Multi-Tool Kit draws 2.4 amps and can oscillate up to 21,000 times per minute. This strong motor makes sure that you always have enough power for cutting, sawing, trimming, grinding, and sanding, among other tough jobs. Its high-performance design makes it a reliable tool for both pros and people who like to do things themselves.

- ## Oscillations Angle

4 DEGREE

Powerful motor, provide work efficiency, making cutting more convenient

2. Controls for different speeds

The tool has 6 speed sets that can be changed, so users can fine-tune the oscillation speed between 11,000 and 21,000 RPM. The speed control dial is easily placed behind the motor housing, making it easy to get to while the machine is running. Because of this, the tool can be used with a wide range of materials and tasks, making it very precise and effective.

3. Easy to change blades quickly

Changing the blade and accessories is easier with the quick release button, which gets rid of the need for extra tools. This method for changing blades without tools saves time on the job and keeps the accessories in place while they're being used.

4. Design for Comfort

Designed to be comfortable for the user, the soft-grip handle keeps hands from getting tired, so it can be used for long periods of time without any pain. The ergonomic design makes it easier to control and aim, so both professionals and regular people who need to do complicated chores can use it.

5. Useful for Many Things

In addition to its main purpose, the GALAX PRO GP86225 can also be used for the following:

- Cutting things like plywood, metal, wood, and plastic.
 - **Sanding:** cleaning the surface and getting rid of paint or rust.
 - **Scraping:** Getting rid of old grout, glue, or adhesive.
- Polishing means giving metal and wood surfaces a smooth finish.

6. Small and Lightweight

The tool is light—only 3.3 pounds—so it's easy to move and use, even in small or awkward places. Because it's so light, it's great for jobs that need to be done overhead or for long periods of time.

7. Built to Last with an Aluminum Head: The tool's strong aluminum head makes it very durable, so it can handle regular use and harsh circumstances. Its small head design makes it easy to get into tight areas and finish tasks without any problems.

8. Better value and package

28 pieces of accessories come with the GALAX PRO GP86225 Oscillating Multi-Tool Kit. These include different types of saw blades, a sanding pad, and grinding papers. The tool also comes with a strong holding bag that makes it easy to store and move, and it keeps all the parts safe and organized.

Usage

- **Cutting:** Use the included saw blades for cutting wood, metal, or plastic with precision.
- **Sanding:** Attach the sanding pad and sandpaper for smoothing surfaces and removing paint or rust.
- **Scraping:** Utilize the scraper blade to remove old adhesive, caulk, or paint.
- **Polishing:** Apply polishing pads (sold separately) to achieve a smooth finish on metal or wood surfaces.
- **Multi-Purpose Projects:** Perfect for trimming door casings, cutting plumbing pipes, and removing grout.

Care and Maintenance

1. **Clean the Tool:** After each use, wipe the tool and accessories with a clean, dry cloth to remove dust and debris.
2. **Inspect Blades:** Regularly check blades and attachments for signs of wear or damage and replace them if necessary.
3. **Store Properly:** Keep the tool in its carrying case in a dry, cool place to avoid exposure to moisture.
4. **Lubricate Moving Parts:** Periodically apply light machine oil to the quick-change mechanism to ensure smooth operation.
5. **Check Power Cord:** Inspect the power cord for any cuts or fraying to prevent electrical hazards.

Troubleshooting

Issue	Possible Cause	Solution
Tool does not start	Loose or disconnected power cord	Ensure the cord is securely plugged into the outlet.
Decreased cutting power	Worn or dull blade	Replace the blade with a new one.
Excessive vibration	Improperly secured blade or attachment	Tighten the blade using the quick-change system.
Overheating	Prolonged use or clogged air vents	Allow the tool to cool and clean the air vents.
Blade slips during use	Faulty locking mechanism or worn accessory	Check and secure the locking mechanism. Replace accessories if needed.

Pros and Cons

Pros

- Versatile with multiple attachments for various tasks.
- Quick accessory changes enhance efficiency.
- Adjustable speed settings cater to different materials.

Cons

- Some users may find it less powerful compared to larger models.
- Initial setup may require familiarization for new users.

Warranty

The GALAX PRO GP86225 Oscillating Multi-Tool Kit comes with a warranty that covers manufacturing defects. Please refer to your user manual for specific warranty details and registration instructions.

FAQs

What is the power output of the GALAX PRO GP86225 Oscillating Multi-Tool Kit?

The GALAX PRO GP86225 is equipped with a 2.4-amp motor, delivering up to 21,000 oscillations per minute for powerful performance.

What is the speed range of the GALAX PRO GP86225 Oscillating Multi-Tool?

The GALAX PRO GP86225 offers variable speed control, adjustable between 11,000 and 21,000 oscillations per minute for different materials and tasks.

How does the blade replacement system work in the GALAX PRO GP86225?

The GALAX PRO GP86225 features a quick-release lever, allowing for fast and tool-free blade changes, saving time and effort.

What accessories are included in the GALAX PRO GP86225 Oscillating Multi-Tool Kit?

The GALAX PRO GP86225 comes with 40 accessories, including various saw blades, sanding pads, and a carrying bag for diverse applications.

What materials can the GALAX PRO GP86225 Oscillating Multi-Tool work on?

The GALAX PRO GP86225 is designed for cutting, grinding, sanding, and polishing wood, metal, plastic, drywall, and tiles.

What makes the GALAX PRO GP86225 Oscillating Multi-Tool durable?

The GALAX PRO GP86225 is constructed with high-quality materials such as nylon and aluminum, ensuring long-lasting performance.

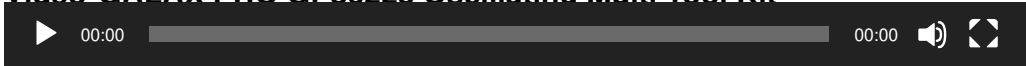

How do you control the speed of the GALAX PRO GP86225 Oscillating Multi-Tool?

The GALAX PRO GP86225 features a 6-speed adjustable dial located on the motor housing for precise speed control.

What are the primary applications of the GALAX PRO GP86225 Oscillating Multi-Tool?

The GALAX PRO GP86225 is ideal for home repair, remodeling, scraping, cutting, trimming, sanding, and polishing projects.
