GAMEMAX Infinity Pro Unobstructed Hardware Showcase

Specifications

- **Model:** INFINITY PRO
- **Side Panel:** Tempered glass left side panel
- **Front Panel:** Tempered glass front panel
- **Top Panel:** Tempered glass top panel
- **PSU Installation:** Supported
- **HDD and SSD Installation:** Supported
- **Motherboard Support:** Standard ATX, Micro ATX, Mini ITX
- **Cooling System Support:** Fans – 120mm x5, 140mm x2; Liquid cooling – 120/240/280/360mm

Product Usage Instructions

Remove the Side Panel

- Locate the tempered glass left side panel of the INFINITY PRO case and remove it carefully to access the internal components.

PSU Installation

- Following the manufacturer's instructions, install the power supply unit in the designated PSU mounting area.

HDD and SSD Installation

- Use the provided screws to mount 3.5 HDDs, and 2.5 SSDs in the respective drive bays securely.

Motherboard Installation

- Install your chosen motherboard (ATX, Micro ATX, Mini ITX) onto the motherboard standoff using the screws provided.

GPU Card Installation

- Follow the step-by-step instructions provided by your GPU manufacturer for installing your graphics card securely into the PCIe slot.

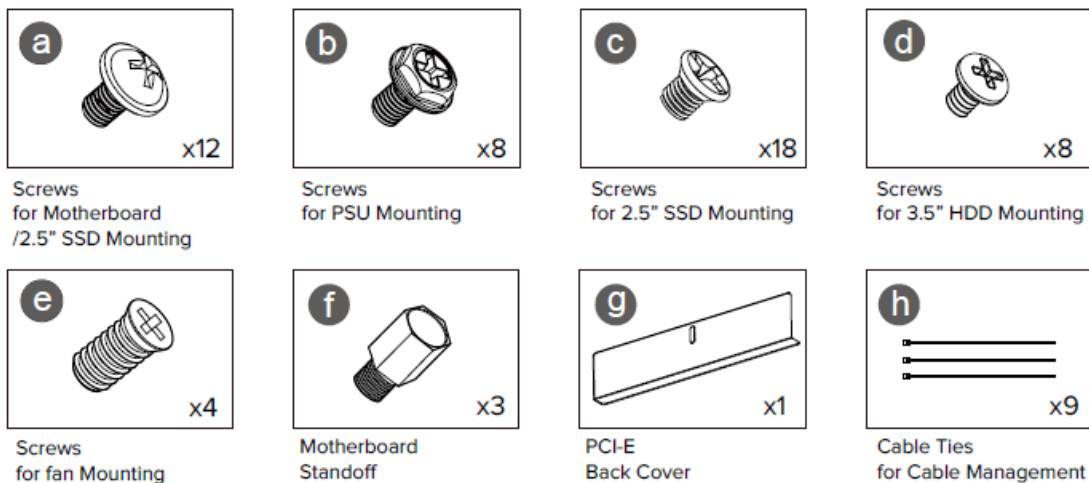

Cooling Fan and Liquid Cooling System Installation

- Install the cooling fans and liquid cooling system as per your cooling requirements. Ensure proper cable management and avoid plugging components into the wrong interfaces to prevent damage.

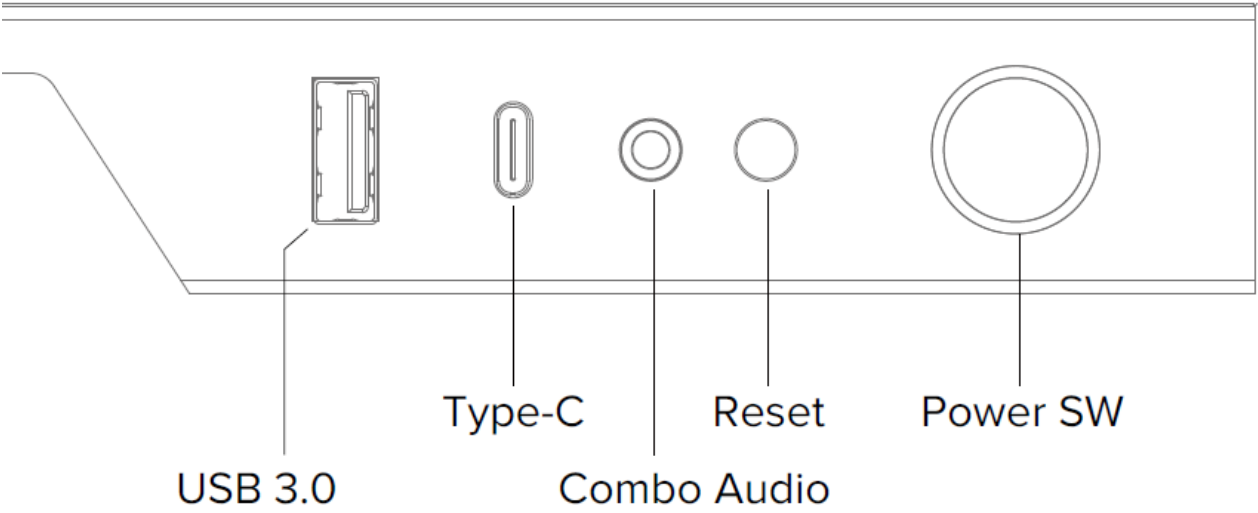

FAQ

- **Q: How many fans does the INFINITY PRO support?**
 - **A:** The case supports up to 5 fans, including 120mm and 140mm sizes, for optimal cooling performance.
- **Q: Can I install a 360mm liquid cooling system in the case?**
 - **A:** Yes, the case supports liquid cooling systems up to 360mm for efficiently cooling your components.
