- I. Indicator

- J. USB Receiver
- K. LT Button
- L. Phone Holder Base
- M. M2 M4 Button
- N. LB Button
- O. RT Button
- P. Charging Indicator
- Q. RB Button
- R. Type-C Connector
- S. M1 M3 Button

Power On: Press and hold the HOME button for 2 seconds to power on. Power Off: Press and hold the HOME button for 5 seconds to power off. Pairing Mode: According to the gamepad mode you want to apply, select a button-combination to power on to enter the corresponding mode, which is to enter the pairing mode.

Reconnect: The game controller will remember the last pairing record.

The next time you turn on, you don't need the button-combination. Just press and hold the HOME button and power on will automatically reconnect to the last paired device.

HOW TO USE THE PHONE HOLDER

Please insert the phone holder from the top of the gamepad.

HOW TO CHARGE THE GAMEPAD

Use a charging cable to connect the Type-C interface on the top of the gamepad to the USB charging port

BATTERY STATUS

When the battery is below 15%, the current Charging Indicator  will flash in RED quickly

Charging indicator	Description
Red light stays on	Charging
Red light goes off	Fully charged

HOW TO CONNECT TO A COMPUTER OR ANDROID TV BOX VIA USB RECEIVER

1. Plug the USB receiver into the USB port of your computer or Android TV box.
2. Press the X + HOME button until the gamepad is turned on.
3. The next time you connect to the computer, just press the HOME button to power on, the gamepad will automatically connect.

NOTE: If the gamepad has been switched to another mode, you need to use the key combination to restart.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
