CONNECT AND POWER ON

Follow these steps to connect your phone to the controller.

1	Connect your phone to the controller using the provided Type-C port.	
2	Extend the controller and place your phone into it.	
3	Release the controller to complete the connection.	

- The connection status indicator will be solid white to indicate a successful connection.
- Some Android phones may need to be enabled OTG to power on and use the controller.

STANDBY AND WAKE UP

1. When the controller is turned on with 10 minutes of inactivity, the controller will enter standby mode.

2. When the controller is in standby mode, press A/B/X/Y/Home button to wake up the controller.

STICKS & TRIGGERS CALIBRATION

1. Connect your phone to the controller. Hold the G+S+Home buttons for 3s until the Connection Status indicator and Charging Indicator blink rapidly to indicate calibration mode is entered.
2. In calibration mode, follow below steps to complete calibration:
   - Rotate the sticks at their maximum angles 3 times and let them return to the initial position naturally.
   - Press the triggers to their maximum travel 3 times and let them return to their initial position naturally.
3. Press the A button to complete and exit the calibration mode.
   - Calibration should be kept at a constant speed and gently operated to avoid errors in the collected data.
   - If the sticks and triggers can be used normally, please do not calibrate.

CUSTOMIZATION VIA "GAMESIR APP"

- Download GameSir App at gamesir.k on phone or scan the QR code here. Use GameSir App for firmware upgrade, button testing, sticks & triggers zones adjustment, etc.

WASTE ELECTRICAL & ELECTRICAL EQUIPMENT INFORMATION

CORRECT DISPOSAL OF THIS PRODUCT (WASTE ELECTRICAL & ELECTRICAL EQUIPMENT)

Applicable in the European Union and other European countries with separate collection systems.

This mark on the product or accompanying documents means that it should not be mixed with general household waste. For proper treatment, recovery and recycling, please take this product to designated collection points where it will be accepted free of charge. Alternatively, in some countries you may be able to return your products to your local retailer upon purchase of an equivalent new product.

Disposing of this product correctly will help save valuable resources and prevent any potential negative effects on human health and the environment, which could otherwise arise from inappropriate waste handling. Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally sate recycling. Business users should contact their supplier for further information. If you do so, you will ensure that your disposed product undergoes the necessary treatment, recovery and recycling, thereby preventing negative potential effects on the environment and human health.

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions

1. this device may not cause harmful interference
2. this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the users authority to operate the equipment. NOTE This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio tv technician for help.

To maintain compliance with FCC's RF Exposure guidelines, this equipment should be installed and operated with a minimum distance between 20cm the radiator your body Use only the supplied antenna.

STATEMENT OF COMPLIANCE WITH EU DIRECTIVE

Hereby, Guangzhou Chicken Run Network Technology Co., Ltd. declares that this GameSir X2s Type-C Controller is in compliance with Directive 2014/30/EU & 2011/65/EU and its amendment (EU) 2015/863.
