Quickstart

Installation: Make sure to install the robotic mower before including it in the app. Follow the installation instructions in the compound instructions manual. It is important to plan the installation process.

Inclusion in the GARDENA smart system app: This step must be performed only after the installation. In order to include, a smart gateway with internet connectivity is needed. The inclusion process for all devices is always handled by the GARDENA smart system app. Follow the instructions inside the app.

You can download the free GARDENA smart system app from the Apple App Store or from the Google Play Store.

IMPORTANT PRODUCT HINTS

Please read the instruction manual of the products supplied prior to putting the system into operation. The manuals can be downloaded using the app supplied for the system. You will also find them under www.gardena.com/de/smartsysterry bedienungsanleitung.
