GARNET SeeLeveL-RV-2.0 Mobile Application

Contents

ABOUT THE APPLICATION

The See LeveL RV 2.0 app offers a wide range of powerful features to enhance your RV monitoring experience. With seamless compatibility for Apple iOS devices, this app allows you to effortlessly connect and monitor your tank levels and battery voltage right from your mobile device. The app provides real-time updates on up to four holding tanks, including fresh, grey, black, and LPG tanks. You can customize tank and device names, choose graphical tank fluid colors, and set personalized tank level alarms for timely notifications (see note below). The intuitive interface and Auto Connect feature ensure easy access to vital information directly from the Home Screen. With the See LeveL RV App, managing your resources and maintaining peace of mind while on the road has never been easier.

⚠️ **NOTE**:
The iOS alarm feature is currently in Beta and has the following limitations:

- The alarm will not function while the app is closed or in the background.
- The alarm can only stay active for a few minutes (15 minutes or less)

These limitations will be addressed in a future update. expands on information for any procedures.

GETTING STARTED

Download and Install App
For Apple iOS devices go to the Apple App Store and search "**SeeLeveL RV 2.0**". Download and install the application.

⚠️ NOTE: DON'T MISS OUT ON UPDATES

The app will be updated periodically. To avoid missing out on these updates, make sure to enable auto-update in your app store or manually check for updates.
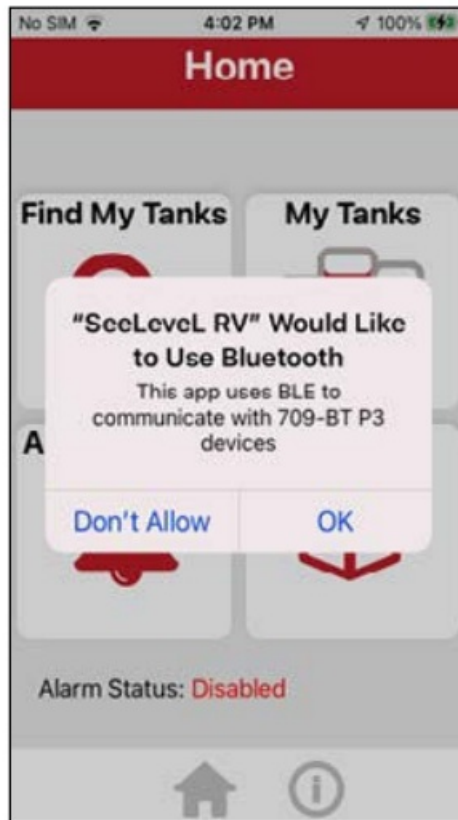

✱ Ensure Bluetooth®is Enabled
Once you have completed the installation, check that Bluetooth® is enabled in your device settings.
