- Support your circadian rhythm sleep / wake cycle
- Control your lights with your voice

- Set up Routines for your lights
- Create ambience in your home

- “Hey Google, turn on the light”

Explore Google Home App with Routines

Troubleshooting

- **Problem:** If there's no blinking from the light after powering on.
- **Solution:** Please follow below Factory Reset process.

Turn power On & Off 5 times then leave it on, each time using light switch:

1. On & Off,
2. On & Off,
3. On & Off,
4. On & Off,
5. On & Off, then On again

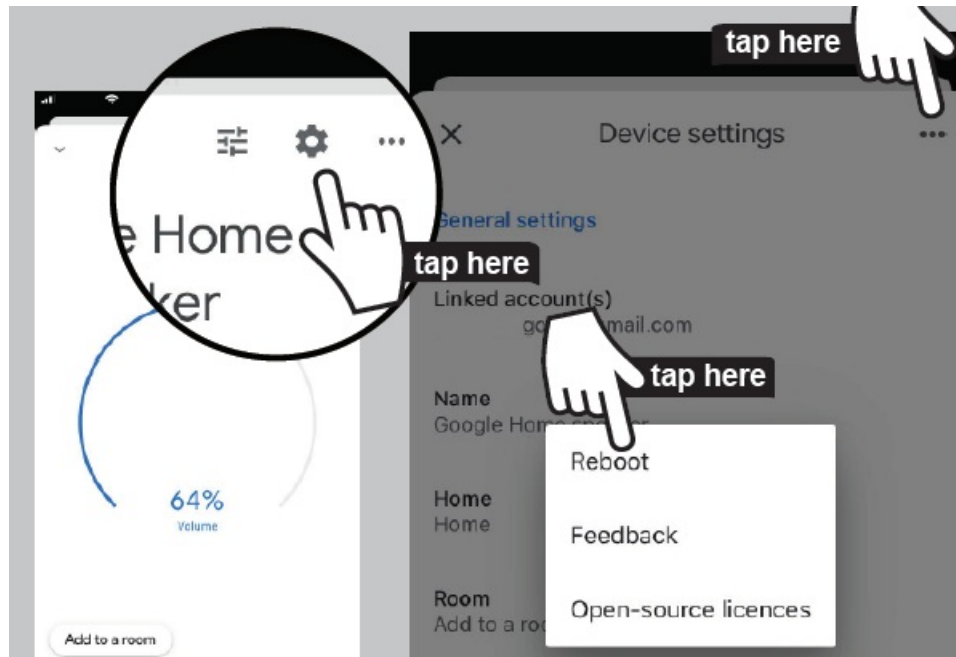

the light should now start to blink

- After performing the above On & Off-cycle, if the light does not blink, please redo the above On & Off-cycle (factory reset) again.

Confirm the light blinks and go to step

- **Problem:** The light can be added successfully, but cannot be controlled.
- **Solution:** Please follow below to reboot the Google Home.

- Tap the to reboot.
