#### **Conference Call**

Press MENU/OK select ▼ ▲ INTERCOM, Press MENU/OK and Enter the desired handset number on the keypad.

After connection press and hold \*\* until CONFERENCE is shown.

**NOTE:** Any party hanging up during a conference call will leave the other party still in connection with the external call

#### **PHONEBOOK**

Your phone can store up to 50 private phonebooks in the cordless handset and the telephone base with names and numbers. Each phonebook entry can have a maximum of

20 digits for the phone number and 12 characters for the name. You can also select different ringer tones for your phonebook entries.

Phonebook entries are stored alphabetically by name.

#### To add a new entry

In idle mode:

Press MENU/OK select ▼ ▲ PHONEBOOK to access the phonebook list ( or empty),
Press MENU/OK to select ADD.

Press MENU/OK to select NAME and enter the name.

Press MENU/OK to select NUMBER and enter a number.

Press MENU/OK and ▼ ▲ to select the desired ringtone for your phonebook entry.

Press MENU/OK to save.

#### **DIRECT MEM**

Your AMPLIDECT295 base can also be paired as additional handsets with some specific handset/device like our PhotoDECT295 or EMERGENCY295 which need direct memory numbers programmed in the base, and these numbers (4 maxi) have to be added through the regular handset.

On Handset: Press MENU/OK select ▼ ▲ DIRECT MEM,

Press MENU / OK , select ▼ ▲ M1-M2-M3-M4, Press MENU / OK , enter the number then OK.

#### **ANSWERING MACHINE**

Your telephone base includes a telephone answering machine that records unanswered calls when it is on. The answering machine can store up to 59 messages within the maximum recording time of approximately 15 minutes. As well as recording incoming messages, you can record memos for other users of your phone.

Press ON/OFF to switch the answering machine ON or OFF.

#### **REMOTE OPERATIONS**

If you are away from your home, you can call your answering machine to switch on or off the answering machine and listen to your messages remotely using another tone-dialing phone.

- 1. Place a call from a tone-dialing phone.
- 2. When the answering machine answers the call and starts playing OGM, press.
- 3. Enter the 4-digit Remote Access PIN (default PIN is 0000).
- 4. Press the following keys to carry out your desired function.

key	Functions	
	While the message is not playing	While the message is playing
2		Delete the current message playback
4		Repeat playing the current message from the beginning. Press twice to skip backward to the previous message.
5	Play the message	
6		Skip forward to play the next message
7	Turn on the answering machine	
8		Stop the current message playback
9	Turn off the answering machine	
*	Enter the 4-digit remote access PIN	

### **NOTE:**

When your answering machine memory is full and the answer mode is in ANS & RECORD, the answer mode will change to ANSWER ONLY automatically.

It will change to ANS & RECORD mode automatically after some messages have been deleted.

You cannot delete new messages before they were listened to.

#### **GUARANTEE**

From the moment your Geemarc AMPLIDECT<sup>Tm</sup>295 is purchased, Geemarc guarantees it for a period of two years. During this time, all repairs or replacements (at our discretion) are free of charge. Should you experience a problem then contact our helpline or visit our website at <a href="https://www.geemarc.com">www.geemarc.com</a>.

The guarantee does not cover accidents, negligence or breakages to any parts. The product must not tamper with or taken apart by anyone who is not an authorized

Geemarc representative.

The Geemarc guarantee in no way limits your legal rights.

**IMPORTANT:** YOUR RECEIPT IS PART OF YOUR GUARANTEE AND MUST BE RETAINED AND PRODUCED IN THE EVENT OF A WARRANTY CLAIM.

Please note: The guarantee applies to the United Kingdom only.

#### **DECLARATIONS:**

#### **UKCA Directives**

Geemarc Telecom SA hereby declares that this AMPLIDECT™ 295 is in compliance with the essential requirements and other relevant provisions of the Radio

Equipment Directive 2014/53/UE.

The UKCA declaration of conformity may be consulted at www.geemarc.com

**Electrical connection:** The apparatus is designed to operate from a 230V 50Hz supply only. (Classified as hazardous voltage according to EN62368-1 standard). The

apparatus does not incorporate an integral power on / off switch. To switch off the apparatus, disconnect the power adaptor.

When installing the apparatus, ensure that the mains power socket is readily accessible.

**Telephone connection:** Voltages present on the telecommunication network are classified TNV-3 (Telecommunication Network Voltage) according to the EN62368-1 standard.

## **Recycling Directives**

The WEEE (Waste Electrical and Electronic Equipment) has been put in place for the products at the end of their useful life to be recycled in the best way.

When this product is finished, please do not put it in your domestic waste bin. Please use one of the following disposal options:

- Remove the batteries and deposit them in an appropriate WEEE skip.
   Deposit the product in an appropriate WEEE skip.
- Or, hand the old product to the retailer. If you purchase a new one, they should accept it.
   Thus if you respect these instructions you ensure human health and environmental protection.
