gemsfindyours KPTR Page Turning Cat Remote

Product Information

Specifications

- Dimensions: 7 inches x 4.65 inches
- Product Name: Page Turning Cat Remote
- Type: Universal Touch Remote for E-Readers and Touch Screen Devices
- Input: USB-C Port for charging
- Functionality: Page turning, power on/off, page number setting, automatic page turning

Product Usage Instructions

Charging
Use the USB-C port to charge the device. The indicator will show a white screen when charging for the Page Turner and flashing red when charging for the Remote Control. When fully charged, the indicator will not light up.

How to Use
To adjust the amount of time for page turning, press the power button to display the seconds. Press the power button again to activate automatic page turning. The page will turn when the set seconds are reached, with a maximum time of 99 seconds.

Troubleshooting
If the device is not functioning properly, refer to the troubleshooting section in the manual. Ensure that the device is not damaged and all connections are secure.
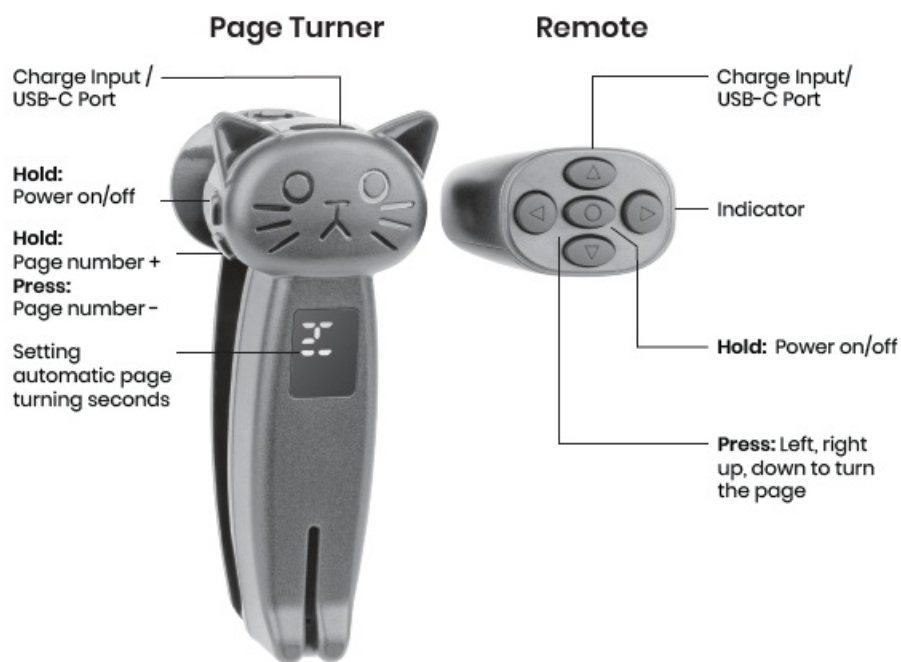

Safety
Follow all safety precautions mentioned in the manual to prevent any potential hazards. Keep the device away from water and extreme temperatures to avoid damage.

FCC

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
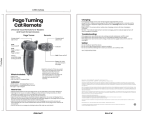

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.
