### **Installation Guide**

- 1. Step One...
- 2. Step Two...
- 3. Step Three...
- 4. Step Four...
- 5. Step Five...
- 6. Step Six...
- 7. Step Seven...

### **Important Notes**

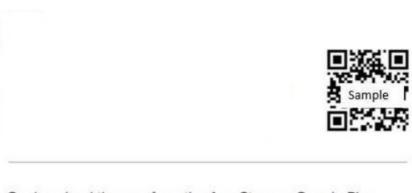

- Reorient or relocate the receiving antenna if experiencing interference.
- Ensure a minimum separation between the equipment and receiver.

- Connect the equipment to an outlet on a different circuit from the receiver.
- For any modifications, consult the dealer or an experienced technician.
- Avoid co-location of this transmitter with other antennas or transmitters.
- Disable the Country Code selection feature for the US/CANADA market.
- Operate only indoors as per FCC regulations.
- Avoid operation on oil platforms, cars, trains, boats, and aircraft, except in large aircraft above 10,000 feet.

#### **FAQ**

- Q: Can the device be used outdoors?
- A: No, the device is restricted to indoor use only as per FCC regulations.
- Q: What should I do if I experience interference?
- A: Try reorienting or relocating the receiving antenna, and ensure a sufficient separation between devices.
- **Q:** Is there a specific distance requirement for radiation exposure?
- A: Yes, maintain a minimum distance of 25cm between the radiator and your body to comply with FCC standards.

Scan the QR Code using your phone to download the Quantum Fiber 360 app.

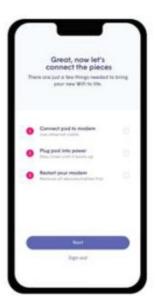

Or, download the app from the App Store or Google Play.

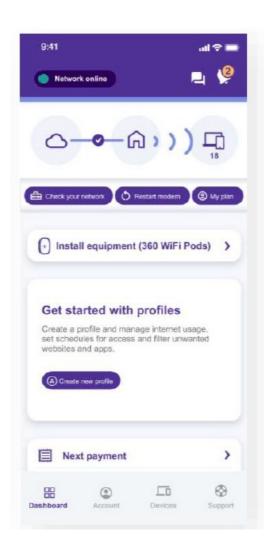

Open the Quantum Fiber app to begin onscreen instructions.

Set up time: 10-15 min

#### **FCC STATEMENT**

#### **Federal Communication Commission Interference Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC Caution:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1. This device may not cause harmful interference, and
- 2. this device must accept any interference received, including interference that may cause undesired operation.

#### **IMPORTANT NOTE:**

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 25cm between the radiator & your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. Country Code selection feature to be disabled for products marketed to the US/CANADA FCC regulations restrict the operation of this device to indoor use only. The operation of this device is prohibited on oil platforms, cars, trains, boats, and aircraft, except that operation of this device is permitted in large aircraft while flying above 10,000 feet. Operation of transmitters in the 5.925-7.125 GHz band is prohibited for control of or communications with unmanned aircraft systems
