Geuther 2263+Lucilee Plus Cot User Manual

**IMPORTANT!**

Please devote enough time to the assembly reading the instructions carefully.

**PLEASE KEEP FOR FURTHER REFERENCE.**

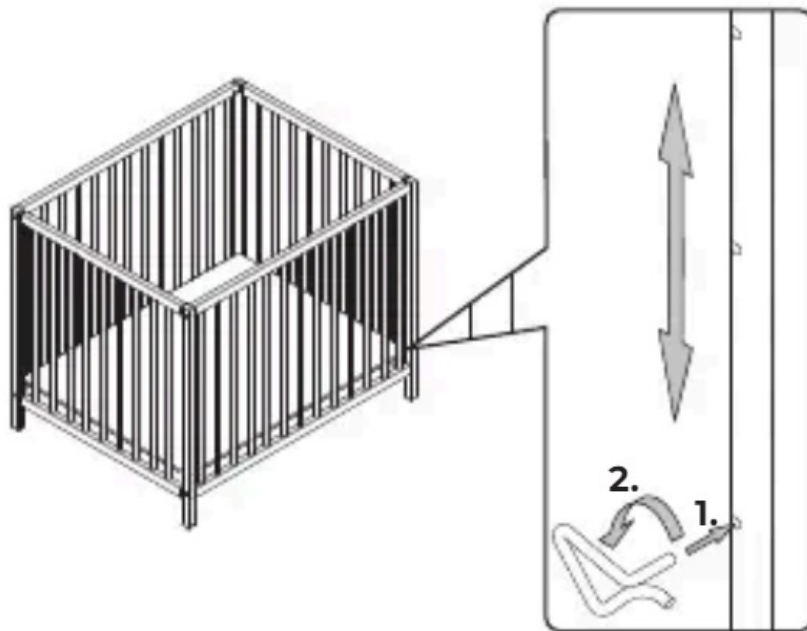

Wood is a natural product. Deviations in its structure and colour underline its genuineness and individuality. For this reason, glazed surfaces may reveal colour differences and different degrees of glossiness. It is equally natural that wood should be “active”, ie. it may, due to changing temperatures and varying degrees of humidity, contract or expand slightly.

**WARNING**

- Don't put the playpen near an open fire or any other source of heat.
- Don't use the playpen without the base.
- Make sure the playpen is completely assembled and that all folding hinges and devices are secured, before putting your child into the playpen.

**CAUTION!**

- Do not leave your child unattended. This is how to prevent accidents.
- Always ensure that all fixings are firmly attached and check that the assembly plastic filler caps are correctly in place. Loose fittings can cause entrapment danger.
- Please ensure that no objects are left in the cot which would enable your child to stand on and which could lead to choking or strangulation.
- The playpen must not be used if any part is broken worn out or missing! Only use spare parts supplied by the manufacturer.
- For cleaning use warm water only!
- Only use accessories or equipment approved by the manufacturer.

The bottom level is subject to the stage of physical development of the child. It has to be adjusted in a way that the child cannot fall out of the playpen. When the child can sit the base must be in the lowest position. The playpen must not be used without a bottom!
