GEWISS

GEWISS GWS3258P Opal Diffuser

Product Specifications

- Model: Smart [3]
- IP Rating: IP66, IP69
- Manufacturer: GEWISS
- Country of Origin: Italy

Product Usage Instructions

Installation

Before installing the Smart [3] product, refer to the specific warnings and guidelines provided on the website www.gewiss.com. Ensure that the installation environment meets the specified requirements.

Configurations

The Smart [3] device can be configured for different settings and applications. Follow the instructions provided in the user manual to set up the device according to your requirements. Make sure to adjust the settings as needed for optimal performance.

Maintenance

Regular maintenance is essential for the proper functioning of the Smart [3] product. Clean the device periodically and check for any signs of wear or damage. Follow the maintenance schedule recommended by the manufacturer.

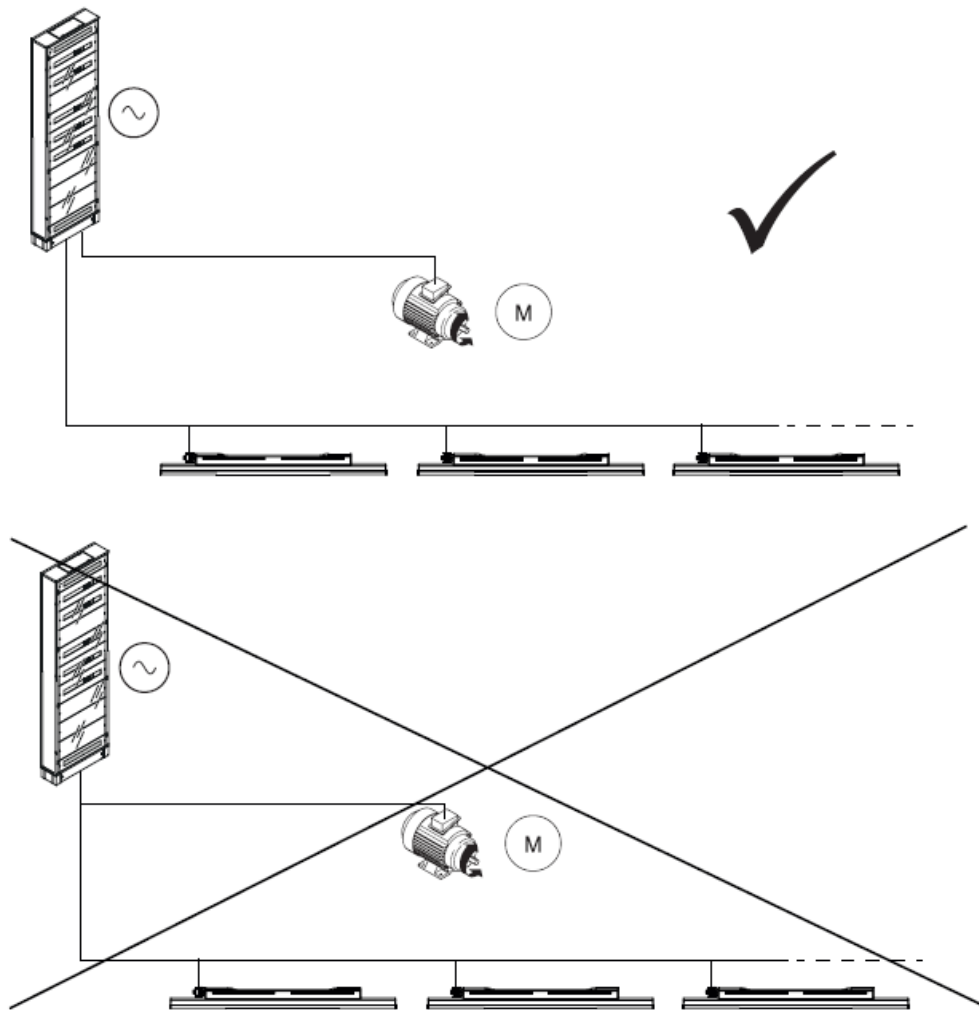

Troubleshooting

If you encounter any issues with the Smart [3] device, refer to the troubleshooting section in the user manual. Follow the step-by-step instructions to identify and resolve common problems. If the issue persists, contact customer support for assistance.

FAQ

- Q: Where can I find the installation guidelines for Smart [3]?
A: The installation guidelines can be found on the official GEWISS website at www.gewiss.com. Refer to the specific warnings and instructions provided for proper installation.
- Q: How often should I perform maintenance on the Smart [3] product?
A: It is recommended to perform regular maintenance on the Smart [3] device as per the manufacturer's guidelines. Check for any dirt, debris, or damage periodically to ensure optimal performance.
- Q: What should I do if I encounter technical issues with the Smart [3] device?
A: If you experience technical issues, refer to the troubleshooting section in the user manual. Follow the recommended steps to diagnose and resolve common problems. If needed, contact customer support for further assistance.

INSTRUCTION

Attention! Before installing the products in cold storage rooms or similar applications, refer to the relative warnings provided on www.gewiss.com.
www.gewiss.com

Smart[3] can be installed outdoors too, but only in a protected place where it's not exposed to direct sunlight. Do not install the product outdoors on metal grilles, pipes, poles or any other type of support that gives no protection against rain and sunlight. Do not install on supports subjected to notable vibration. Chemical agents, whether in direct contact or in substances suspended in the atmosphere, may damage the plastic casing of the device. Before installing the device, check the environment is free of fumes and/or chemical compound atmospheres that may damage the polycarbonate
