Online Battle

Mini Games

Connecting to App

① Twist to wake
the cube

② Launch
Supercube App

③ Connect Cube

Notes:

1. The cube will enter sleep mode after 10 minutes of inactivity, twist any layer to wake it, otherwise the app can not find your cube.
2. Make sure the cube is fully charged and disconnected from previous devices before connecting.
3. Only connect the cube within the Supercube app. Do not pair it in your device's Bluetooth list. According to Android 6.0 requirements, apps must have location permission in order to use fast Bluetooth scanning connection function.
4. If you use an Android device, please make sure the location service(GPS) is enabled and authorized before connecting, otherwise the app can not find your cube.

Notices

11. Keep the product away from sand and dust to protect the sensors in the center pieces. Clean only with cloth.
12. Not suitable for children under 3 years. Small parts. Choking Hazards,

FAQ

Q1: What should I do if the app can not find my cube?

The cube could be in sleep mode. Twist any layer to wake it. The cube will beep when waken. Make sure the cube is fully charged and disconnected from previous devices. For Android device, please check if the location service(GPS) is enabled and authorized to the app.

Q2: What should I do if the cube state is not correct?

Press Reset button in My Cube page, then follow the app's instructions to reset cube state.

Q3: What should I do if the cube state is unsolvable?

Double check if the entered state same as the real one on hand. If they are the same, then it means your

cube is disassembled and reassembled in an unsolvable state, you have to reassemble it in a correct state.

Qa:What should I do if there's no beep when I charge the cube?

If the Power Indicator is on, be sure that the Charger is on the correct charging face (with a small charging port in the center piece) and fastened.

Limited Warranty

GIKER warrants that your GIKER hardware product ("the Product") will be free from defects in materials and workmanship for a period of one (1) year from the date of purchase ("the Warranty Period").

If a defect in the Product arises under normal and intended use within the Warranty Period, please contact the authorized GIKER dealer in your country. The authorized GIKER dealer in your country will, at its option and subject to applicable laws, replace or repair the Product with new or reconditioned parts. This warranty is only valid to the original retail purchaser, accompanied by a receipt or proof of purchase. GIKER does not warrant that the operation of the

Product will be uninterrupted or error-free. This Warranty does not apply to a) Products you purchase from unauthorized dealer; b) Defects in consumables,

such as stickers or protective coatings designed to diminish over time; c) Defects.

caused by misuse or failure to follow the product directions, improper installation; product alteration or modification; improper or unauthorized repair; d) Defects caused by accidents, neglect, fire, water, lightning, or other acts of nature; incorrect electrical line voltage, fluctuations or surges; e) Normal wear and tear or otherwise due to the normal aging, other causes beyond GIKER's reasonable control.

Declaration of Conformity

GIKER Technology Co, Ltd. declares that this product is in compliance with the relevant requirements of Directive 2014/53/EL. This declaration of conformity is published on our website www.giker.cn/compliance.

EUROPEAN UNION- DISPOSAL INFORMATION

The symbol above means that according to local laws and regulations your product should be disposed of separately from household waste. When this product reaches its end of life, take it to collection point designated by local authorities. Some collection points accept products for free. The separate collection and recycling of your product at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment. Keep these instructions for future reference as they contain important information.

Technical Specification

Bluetooth: BLE4.0

Frequency band(s) in which the radio equipment operates 2402-2480 Hz.

Maximum radio-frequency power transmitted in the frequency band(s) in which the radio equipment operates: <10 dBm.

BATTERY INFORMATION

Each SUPERCUBE has a lithium polymer battery, which should only be re-charged using

the included charger. Attempting to remove the battery will void the warranty and may result in injury. Protect the environment by not disposing of this product with household waste. Check your local authority for recycling advice and facilities.
