PROFESSIONAL MEDICAL PRODUCTS  
**BANDAGE SCISSORS**

All serious accidents concerning the medical device supplied by us must be reported to the manufacturer and competent authority of the member state where your registered office is located.

The blades of bandage scissors are made of 2Cr13 stainless steel, the handles of PP.

The blades of these scissors have been milled in order to cut clothes, gauzes, and bandages.

**Bandage scissors are suitable for:**

- Cutting medical gauze
- Cutting bandages away from the skin

**Warning**

Remember that scissors may cause harm if not handled with care.

Please pay due attention and care during use.

Choose a safe place for storing the scissors, out of reach of non-authorized personnel.

Clean the scissors after use and eliminate any residue. Keep the scissors closed when not in use.

Any equipment showing signs of wear should be discarded immediately.

**Instructions for use**

Firmly grip the scissors, cut starting from the front of the body. Do not cut laterally, pay attention in order not to damage the patient's skin.

	Keep in a cool, dry place
	Keep away from sunlight
	Consult instructions for use
