Giryuhd A211 LED Desk Lamp

INTRODUCTION

A small and incredibly functional lighting solution, the Giryuhd A211 LED Desk Lamp is ideal for your home, workplace, or on-the-go requirements. This compact, foldable, battery-operated lamp, which was introduced by Giryuhd and costs only **\$9.99**, provides a cost-effective solution without sacrificing usefulness. Its integrated 2000mAh rechargeable lithium-ion battery makes it perfect for travel, reading late at night, or using as a backup emergency light. Once charged, it may be used wirelessly. It gives a clean, contemporary touch to any environment with its sleek white painted finish and folding body. The lamp is eye-friendly, generating soothing, flicker-free light to lessen eye strain, and has 21 LED beads with three brightness settings and 180° changeable angles. The A211, which weighs only 0.4 pounds and is powered by a Type-C USB connector, is a wise option for both multitaskers and minimalists. This model, which is made in China, is small, useful, and incredibly portable.

SPECIFICATIONS

Product Name	Giryuhd A211 LED Desk Lamp
Price	\$9.99
Finish Type	Painted
Material	Plastic
Color	White
Dimensions	6.7" D x 1.77" W x 1.55" H
Weight	0.35 lbs.
Power Source	Rechargeable, built-in 2000mAh battery, Type-C charging
Bulb Type	LED, 21 light beads
Brightness Levels	3-level dimmable
Control Method	Button control
Lighting Angle	180° adjustable lamp head and arm
Mounting Type	Tabletop
Bulb Base	Flanged
Bulb Shape Size	A19
Connectivity	USB
Portability	Foldable, compact, wireless, and travel-friendly
Applications	Office, home, library, bedroom, study, reading lamp
Included Components	Desk Lamp ,User Manual

Special Features	Cordless, space-saving, eye-caring, flicker-free, non-glare light
Waterproof	Yes
Country of Origin	China
Batteries Required	1 Lithium-ion battery (included)
Model Number	A211
Plug Requirement	Requires 5V-1A power adapter for charging (not included)

FEATURES

- **Rechargeable Battery Powered:** It is completely portable and wire-free thanks to its integrated 2000mAh lithium-ion battery.

- **Foldable Design:** The lamp's ability to fold into a small package makes it perfect for carrying around or stashing in a bag or drawer.
- **Three-Level Brightness:** Provides three brightness settings that may be adjusted for studying, reading, or unwinding.
- **Eye-Caring Light:** LED lights that don't flicker or glare are easy on the eyes and ideal for extended use.
- **21 LED Beads:** Outfitted with 21 energy-saving LEDs that produce consistent, bright illumination.
- **180° Adjustable Head & Arm:** The lamp's head and arm can both rotate 180 degrees, providing the greatest amount of height and angle versatility.
- **Compact & Lightweight:** It is incredibly light and portable, weighing only 0.35 lbs.

180° Foldable
Arbitrary 180 degree adjustment, can meet any angle lighting

Light Weight&Portable
≈0.35LB
Easily folds, small and portable, can easily fit in your bag

- **Wireless & Cordless Use:** Excellent for outdoor or power outage scenarios, this device operates without requiring a plug.

- **Type-C Charging:** For quick, universal charging compatibility, use a contemporary USB Type-C port.
- **Button Operation Panel:** A tactile push-button interface provides easy and intuitive operation.

- **Tabletop Mounting:** This type of mounting doesn't require permanent installation and may be placed firmly on any level surface.
- **Aesthetic Minimalist Design:** A sleek, contemporary painted white finish that complements any type of décor.
- **Multipurpose Versatility:** Excellent for reading nooks, libraries, office desks, dorm rooms, and bedside nightlights.
- **Space-Saving Design:** The foldable body reduces desk clutter and conserves room.
- **Water-Resistant Build:** It is safer to use near liquids thanks to its water-resistant build, which provides basic splash resistance.

SETUP GUIDE

- **Carefully Unwrap:** Unwrap the light and the USB Type-C charging cable that came with it.
- **Check Battery Level:** Use the provided wire to make sure the lamp is completely

charged before using it for the first time.

- **Choose the Correct Charger:** To prevent battery damage, connect to a 5V-1A wall adapter (not provided).
- **Charge Completely:** It usually takes three to four hours to fully charge. The charging status may be shown via an indicator light, if any.
- **Position on Flat Surface:** For safe operation, place on a level, sturdy surface.
- **Unfold the Arm and Head:** Rotate the head to the appropriate angle after gently unfolding the arm 180 degrees.
- **Power On:** To turn on the lamp, press the button once.
- **Adjust Brightness:** To switch between the three brightness settings, briefly push the button once more.
- **Fold for Travel:** To make the lamp small and convenient to pack, fold it when not in use.
- **Avoid Overbending:** To avoid breaking, only rotate up to the 180° range that is intended.
- **Use While Charging:** For continuous illumination, the lamp can be used while plugged in.
- **Cord Management:** To prevent tangling, keep the charging cord neatly when not in use.
- **Prevent Overcharging:** To maintain battery health, unplug the device after it is fully charged.
- **Store Correctly:** Keep it folded and put it somewhere dry when keeping.
- **Battery Reset :** Try charging the battery for 30 minutes straight if the lamp doesn't turn on.

CARE & MAINTENANCE

- **Keep Dry:** To extend life, keep it away from direct water sources even though it is water-resistant.
- **Clean Gently:** Use a microfiber cloth that is dry or slightly moist to wipe the surface.
- **Steer Clear of Harsh Chemicals:** Steer clear of cleaners that contain ammonia, bleach, or alcohol.
- **Charge Safely:** To prevent the battery from overheating, only use a 5V-1A charger.
- **Store Folded:** Keep the lamp folded and in a cool, dry location when not in use for long periods of time.
- **Avoid Direct Sunlight:** To avoid warping or battery damage, stay out of direct sunlight or extremely hot temperatures.
- **Do Not Disassemble:** To avoid voiding the warranty or causing damage, do not open or tamper with internal components.

- **Verify Battery Health:** If the battery drains rapidly, think about getting a new one or getting in touch with support.
- **Dust Often:** To preserve light output and rotation flexibility, dust LED joints and beads.
- **Use Indoors Only:** This lamp is not intended for outdoor use, although having a minor water resistance.
- **Prevent Drops or Impacts:** Use caution when handling to prevent joint misalignment or plastic body cracking.
- **Avoid Flammables:** When charging or using, always place on non-flammable surfaces.
- **Inspect Charging Cable:** Make sure the Type-C charging cable is not frayed or damaged by regularly inspecting it.
- **Battery Cycle Maintenance:** To preserve capacity, let the battery run completely flat once a month.
- **Update Use Environment:** To preserve performance and beauty, stay away from areas that are damp, oily, or dusty.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Lamp not turning on	Battery drained or not charged	Charge fully using Type-C cable and proper 5V-1A adapter
Light flickers	Loose internal connection or low battery	Recharge and ensure proper cable connection
Dim light even at max setting	Battery low or defective LEDs	Recharge; if issue persists, contact manufacturer
Button unresponsive	Dust or hardware issue	Clean surface gently; press firmly; reset by long hold
USB not charging the lamp	Incompatible plug or faulty cable	Use only 5V-1A charger and high-quality USB Type-C cable

Issue	Possible Cause	Solution
Lamp won't hold position	Loose hinge or over-rotated joint	Adjust to correct angle, avoid excessive force
Short battery life	Overuse at high brightness setting	Use at lower brightness levels for extended battery duration
Lamp gets warm	Continuous use on high brightness	Allow lamp to cool down between sessions
Won't fold properly	Misaligned parts or debris in hinge	Check for blockage and fold gently
Uneven lighting	Dirty LED strip or diffused lens	Clean LED area with soft cloth to restore light clarity

PROS & CONS

Pros:

- Rechargeable battery with 2000mAh capacity for cordless use
- Foldable and lightweight for portability
- Three-level dimmable brightness for eye comfort
- 180° adjustable head and arm for flexible positioning
- Affordable price for wide usability

Cons:

- Not suitable for high-intensity lighting needs
- Requires 5V-1A plug (not always included)
- Plastic build may feel less premium
- Button control instead of touch-sensitive panel
- Limited height may not suit large desk setups

WARRANTY

The Giryuhd A211 LED Desk Lamp typically includes a limited manufacturer's warranty, covering defects in materials and craftsmanship under normal use conditions. Customers are advised to retain proof of purchase and contact the manufacturer directly for warranty-related inquiries or claims.

FREQUENTLY ASKED QUESTIONS

What makes the Giryuhd A211 LED Desk Lamp ideal for portable use?

The Giryuhd A211 LED Desk Lamp features a rechargeable 2000mAh battery and foldable, lightweight design, making it an excellent compact, portable light for office, home, or travel use.

How many brightness levels does the Giryuhd A211 desk lamp offer?

The Giryuhd A211 offers 3 adjustable brightness levels via button control, allowing you to switch between low, medium, and high lighting based on your needs.

How do I charge the Giryuhd A211 LED Desk Lamp?

Use the Type-C USB port to connect the lamp to a 5V-1A power source. Charging is easy and efficient with any standard Type-C cable (included).

Why isn't my Giryuhd A211 LED Desk Lamp turning on after charging?

Make sure you're using a 5V-1A power source, not a high-voltage charger. Also, try holding the power button for a few seconds and check battery charge status.

Why does the Giryuhd A211 desk lamp shut off randomly?

This usually happens if the battery is low or if the lamp overheats after extended use. Recharge the lamp and avoid blocking ventilation.

Why isn't the Giryuhd A211 lamp charging properly?

Confirm that you're using the correct Type-C cable and a 5V-1A adapter. Higher-voltage chargers may not be compatible and can cause charging issues.

The brightness of my Giryuhd A211 lamp seems uneven. What should I do?

Check that the lamp head is not obstructed. If some of the 21 LED beads aren't lighting, the unit may be faulty and require replacement.
