Product schematic diagram

## Package list

- Bluetooth earphone
- Endurance charging box
- Micro 5pin charging cable
- User's manual
- Earplug silicone cap

## Product specifications

- Product number: 89044
- Bluetooth version: 5.3
- Bluetooth Name: Wavelength-BT
- Battery specification: Headset 3.7V/30 mAh; Charging box 3.7V/ 200 mAh
- Support mode: HFP/HSP/ A2DP/AVRCP
- Sensitivity: 105dB +3dB S.P.L at 1KHz
- Transmission distance: 10 meters (in an ideal environment without any major obstacles)
- Play time: About 2 hours
- Call time: About 2hours
- Standby time: About 80 hours
- Charging time: Charge the charging compartment for about 1.5 hours, and charge the headset for about 1 hour
- Charging box to charge the headset: About 2.5 timees

## Functional operation instructions

### 1. Boot

Take the headset out of the charging compartment and automatically turn it on or press and hold the left and right headset multifunction button for 3 seconds

### 2. Shut down

Put the headset into the charging compartment and turn it off automatically. Press and hold the left and right headset multifunction button for 5 seconds to shut down

### 3. Boot back:

When the pairing is successful, the Bluetooth headset preferentially enters the connected state when the

second time is turned on, and automatically connects back to the connected mobile phone

#### **4. Play / Pause**

In the standby mode, click the left and right earphones multi-function keys to play music directly. When playing, click the left and right earphones multi-function keys to pause playback

#### **5. Switch songs**

When playing music, press and hold the left earphone multi-function button for 2 seconds while ringing “di” to switch to the previous song. Press and hold the right earphone multi-function button for 2 seconds while ringing “di” to switch to the next song

#### **6. Volume addition and subtraction**

Double-click the left earphone multi-function key to increase the volume step by step, double-click the right earphone multi-function key to gradually decrease the volume

#### **7. Call answering**

When the mobile phone calls, click the left and right earphones multi-function button to answer the call

#### **8. Call hang up**

When the phone is talking, click the left and right earphones multi-function button to hang up the phone

#### **9. Call rejection**

When the mobile phone calls, long press the left and right headphones multi-function button for 2 seconds to reject the call

#### **10. Redial**

While on standby or playing music, you can dial the last call you made in your call history by tapping the left headset multifunction button

#### **11. Start voice assistant**

Three-click the right headset multi-function button to start Apple Siri or Google Voice Assistant for voice control mobile phone operation

#### **12. Low battery prompt**

When the battery of the Bluetooth headset is low, the low battery tone will be played every 30 seconds until the headset is powered off

### **Pairing method**

1. Take out from the charging bin or press and hold the left and right earphones multi-function button for 3 seconds to turn on until the red and blue lights flash alternately, enter the ear search pairing state, enter the ear pair automatic matching, and match the main ear (right ear). The red and blue lights are alternately flashing, the secondary ear is flashing slowly, and the paired ear is successfully paired.
2. Start the Bluetooth function of the mobile phone or other devices. If it is an Android mobile phone or device, please click the “Search for Bluetooth device” option. If it is the iOS system mobile phone or device, it will automatically search for the device; when searching for the model of the Bluetooth headset. After that, click to enter the pairing; when the pairing is successful, the main (right) earphone will make a prompt to connect successfully, and the left and right earphones will turn blue and flash slowly, and enter the connection standby state. After the pairing is successful, the main ear is the right channel. The secondary ear is the left channel.
3. The two earphones can also be paired with the mobile phone separately. The operation method can be operated according to the above step 2 operation method.

### **Charging operation**

1. Plug the Micro USB charging cable into the USB port of the charging bay at one end, and plug the charger at the other end to charge the charging box. The LCD will display the latest power
2. charge the earphone: put the earphone into the charging bin and it will automatically charge. The earphone indicator is red when charging, and it will be off when fully charged; The LCD of the charging bin will display the remaining power. When the earphone is fully charged, the LCD of the charging bin will go out.

## Precautions

1. Please charge in a safe environment. When charging the charging compartment, please charge the charging compartment separately from the USB charging cable as soon as the charging indicator indicates full power, so as to avoid damage to the charging compartment after a long time of charging.
2. When playing music, please adjust the music to the appropriate volume to avoid hearing damage at high volume for a long time.
3. Try to avoid using the headset in a place with interference sources, otherwise it may affect the headphone signal.
4. Try to avoid using this headset in a corrosive environment to avoid affecting the function of the headset.

**Tips:** When you use this Bluetooth headset to listen to music or talk, please pay attention to adjust the volume properly, so as not to affect the hearing of excessive volume!

## FCC STATMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment,

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Warning:** Changes or modifications to this unit not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment
