Tech Specs:

Rated working voltage	12V-24V
Limit working voltage	10~26V
PD output	18W
USB output	5W+18W
Working Temp	0~50℃
Music format support	MP3 / WMA / WAV/ FLAC
SNR	>60dB
Battery voltage error	±0.5V
USB1	U-disk /5V/1A
USB2	QC3.0(3.6V-12V)

bluetooth Ver.	Version 5.0
bluetooth audio processing	DSP and A2DP(Advance Audio Distribution Profile)
bluetooth transmission distance	<10M
MIC effective distance	0.5~2M
FM Freq.	87.5~108Mhz
FM transmission mode	Stereo digital PLL lock frequency

Warm tips:

1. Do not turn the radio volume too high (usually 18 or below) to avoid the increase of the sound back noise.
2. Although the transmission power of this product is relatively strong, better to skip the frequency with strong

signal in local to get a better sound quality

3. Do not use this product in a dusty and humid environment with extremely high and low temperatures.

4. Do not drop the product to avoid the surface damage or breakdown.

5. Do not dismantle compulsory the product,if you have any questions, please contact your dealer.

6. Due to continuous improvement and enhancement of technology,changes in product performance and functionality are subject to change without notice.

Troubleshooting:

Can't play	.Check if the USB device is connected to the player or not, or you can try another USB device. · Please make sureif no there is copy of the file in the USB device that can be supported by the product. · Please make sure the volume is not set to 0
There is noise but no sound	.Whether the product player is in a pause state . Is the volume adjusted to 0 or small?
The audio of car can't receive sound	.Make sure that the product FM launch has been turned on. · Is the transmission frequency of the product the same as that you car?
The tran smitting effect is not good, there is some noise	.Make sure that there is no strong signal station at the frequency of the current transmission. When using it, adjust to the frequency of no radio station to get better sound effect.
