GW521 Bluetooth Speaker Specifications

The GW521 Bluetooth speaker is a high-performance portable speaker that comes with multiple features to enhance your listening experience. Here are the specifications of the speaker:

- **Bluetooth version:** 4.2
- **Wireless range:** up to 33 feet
- **Battery capacity:** 2000 mAh

- **Playtime:** up to 8 hours
- **Charging time:** about 3 hours
- **Output power:** 10W
- **Signal-to-noise ratio:** $\geq 75\text{dB}$
- **Frequency response:** 100Hz-18kHz
- **Dimensions:** 7.09 x 2.22 x 2.56 inches
- **Weight:** 0.99 lbs

Product Usage Instructions

To use the GW521 Bluetooth speaker, follow these simple steps:

1. **Charge the speaker:** Connect the speaker to a power source using the provided micro-USB cable. The LED light indicator will turn red while charging and will turn off once fully charged.
2. **Pair the speaker with a device:** Turn on the Bluetooth on your device and search for available devices. Select the "GW521" from the list of available devices to pair it with your device. The LED light indicator will turn blue once paired.
3. **Play music:** Once paired, play music or any other audio from your device and it will automatically play through the GW521 Bluetooth speaker.
4. **Adjust volume:** Use the volume buttons on your device or the dedicated volume buttons on the speaker to adjust the volume level.
5. **Answer calls:** If you receive a call while using the speaker, press the play/pause button on the speaker to answer the call. You can then use the speaker's built-in microphone and speaker to talk and listen to the caller.

Please note that the GW521 Bluetooth speaker can also be used with non-Bluetooth devices by using the included 3.5mm AUX cable.
