Globe 60605 Plug-in Socket Pendant Light

INTRODUCTION

For any contemporary home or business, the Globe 60605 Plug-in Socket Pendant Light provides a chic and adaptable lighting option. It gives off a stylish industrial vibe with its exposed brass socket and pink fabric cord. You have a lot of versatility because the 15-foot rope lets you hang the pendant light in several places. This pendant lamp, which costs only \$19.95, is a stylish and reasonably priced way to add some brightness to your room. It is a practical option for a variety of lighting choices because it works with halogen, LED, and incandescent bulbs. This light fixture, which was introduced by Globe Electric on August 19, 2021, blends style and functionality to provide a simple plug-in installation. With the Globe 60605, you can add beauty and illumination to your home décor, whether you're looking to add a burst of colour or require practical lighting. This pendant lamp looks fantastic in living areas, kitchens, and bedrooms.

PRODUCT INSTRUCTIONS

Thank you for selecting Globe as your lighting choice for your home. With proper care, this product will provide years of pleasure and enjoyment. Carefully follow the instructions in order to ensure that this product functions safely and properly for years to come.

PLUG-IN PENDANT

FOR YOUR SAFETY:

Most electrical accidents are caused by carelessness or ignorance. If you combine a basic knowledge of

electricity, a healthy respect for it, and a dose of common sense, you can safely tackle many household electrical repairs. Here are some basic guidelines for working with electricity:

- Before working on a circuit, go to the main service panel and remove the fuse or trip the breaker that controls that circuit. Tape a sign to the panel warning others to leave the circuit alone while you work.
- Before touching any wire, use a voltage tester to make sure it's not live.
- Whenever you check for voltage in a receptacle, check both outlets – each may be controlled by a separate wiring circuit.
- When replacing fuses, turn off the main power first. Make sure your hands and feet are dry, and place one hand behind your back to prevent electricity from making a complete circuit through your chest. Touch a plug fuse only by its insulated rim. Remove cartridge fuses with a fuse puller.
- Use tools with insulated handles and ladders made of wood or fibreglass.
- To protect children, place safety covers over any unused outlets.
- When unplugging a power tool or appliance, pull on the plug, not on the power cord.
- Improperly used extension cords are a leading cause of electrical fires. They are for temporary use only – do not use them to extend a circuit permanently.
- Keep dry-chemical fire extinguishers in the kitchen, basement, and workshop.
- Never disable grounding devices. Make sure that all appliances requiring grounding are properly grounded, and that the electrical system itself is properly grounded.
- Meet or exceed all electrical code requirements that cover the work you are doing.
- Always work with enough light to see what you are doing; it's easy to make mistakes when you're working in dim light.
- When in doubt about the safety of any electrical repair or test, call in a professional.

CONSULT A QUALIFIED ELECTRICIAN TO ENSURE THE CORRECT BRANCH CIRCUIT CONDUCTOR.

ELECTRICAL INSTALLATION

- **FIG. 1.** Place the wall switch in the “OFF” position. Depending on which type of fuse box you have in your home:
- **FIG. 2.** Place either the main (Master) switch in the “Off” position, cutting off power to your entire home OR turn off the individual switch that provides power to where the fixture will be installed. OR
- **FIG. 3.** Place either the main (Master) switch in the “OFF” position, cutting off power to the entire home OR

unscrew the fuse that provides power to where the fixture will be installed.

SAVE THESE INSTRUCTIONS

PLUG-IN PENDANT requires 1 medium (E26) base bulb (A 19), 60-watt maximum (sold separately)

DESIGN AND COLOR MAY VARY DEPENDING ON THE STYLE PURCHASED.

TROUBLESHOOTING

Issue	Solution
Light not turning on	Ensure the bulb is properly installed and the cord is securely plugged in.
The pendant light flickers	Check the bulb for faults and replace it if necessary.
Switch does not work	Verify that the in-line rocker switch is functioning and not stuck.
Cord seems too short	Ensure the cord is fully extended and there are no knots restricting it.
Bulb does not light up	Check if the correct wattage is being used for the bulb base (E26).
Light is too dim	Try using a higher-wattage bulb or adjust the type of bulb (halogen/LED).
Plug-in connection is loose	Recheck the plug connection and ensure it is tightly secured.
The fixture is too hot	Make sure the light is being used within the recommended wattage range.
Light is unevenly lit	Confirm that the bulb is centered in the socket and installed correctly.
The pink cord is fraying	Inspect the cord regularly for wear and tear, and discontinue use if damaged.

PROS & CONS

Pros

- 1. Easy installation with plug-in feature.
- 2. Attractive exposed socket and brass design.
- 3. Flexible 15-ft pink cloth cord for versatile placement.
- 4. Works with LED, halogen, and incandescent bulbs.
- 5. Affordable price for stylish and functional lighting.

Cons

- 1. Lacks a dimmer for adjustable brightness.
- 2. Requires a wall switch for controlling power.
- 3. The bulb is not included, so it needs a separate purchase.
- 4. Not suitable for larger spaces due to the limited wattage.
- 5. Limited to a plug-in setup, no hardwiring option.

WARRANTY

The **Globe 60605 Plug-in Socket Pendant Light** comes with a **1-year manufacturer warranty**.

FREQUENTLY ASKED QUESTIONS

What is the price of the Globe 60605 Plug-in Socket Pendant Light?

The Globe 60605 Plug-in Socket Pendant Light is priced at \$19.95, offering an affordable option for adding pendant lighting to your space.
