Glocusent GLCSNTA2601 Extendable Book Light

Product Introduction

Words From The Product Designer

Hey there

I'm Mason, the founder of Glocusent. We're thrilled to unveil the next chapter in reading convenience and illumination -our Extendable USB Book Light. Building on the success of our beloved Bookmark Book Light, this new version promises an even more exceptional reading experience.

So, what sets it apart? Let's shine some light on it:

Brighter Brilliance, Wider Illumination:

Say goodbye to squinting in the dark. The Extendable USB Book light boasts increased brightness, offering a wider and more vibrant illumination for your reading pleasure.

Flexible Lighting Head:

We've upped the ante by adding adjustable headlight angles. Find the perfect lighting position to suit your reading posture and preferences with ease.

Timed to Perfection:

With three built-in timing options, you can set the reading pace that suits you. Whether it's a quick chapter or a

marathon session, we've got you covered.

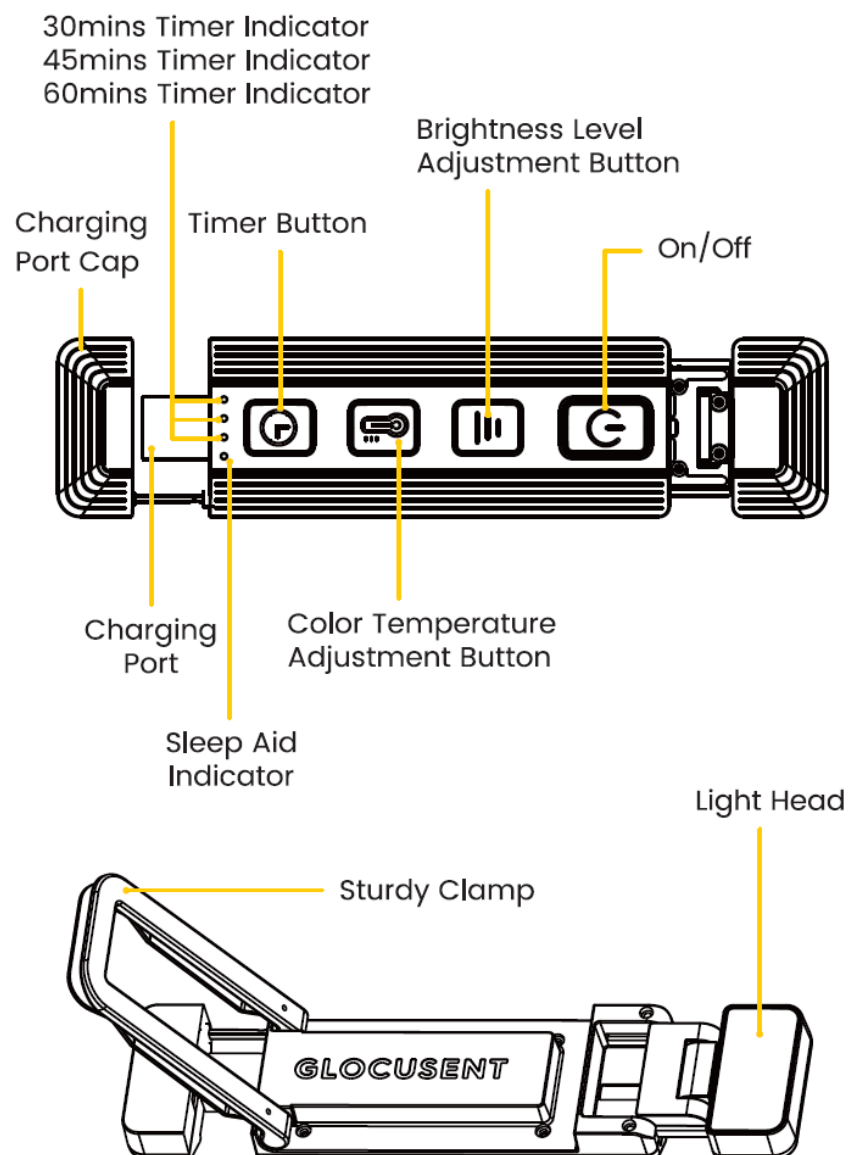

Enhanced Sleep Aid:

Need to wind down after a gripping read?

Activate the sleep aid feature, and watch as the light gently dims to ease you into relaxation. Our Extendable USB Book Light is more than just an accessory; it's a companion for every bookworm and night owl. Experience the joy of reading with brighter, more versatile, and soothingly adjustable lighting. Say hello to your new reading sidekick! Get ready to embark on a reading journey like never before. Grab your Extendable USB Book light today and let the stories illuminate your world.

- Happy reading!
- Mason Founder&. CEO of Glocusent

Instruction

Short Press

Brightness Levels

Short Press to Adjust Brightness Levels

Or long press for stepless brightness adjusting

Color Temperatures

Short Press to Adjust Colour Temperatures

Or long press for stepless colour temperature adjusting

Timer Function

Choose from three timer settings:

Toggle between them by briefly pressing the timer button

Sleep Aid Feature

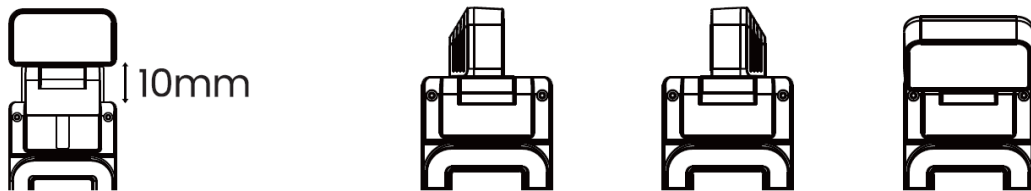

With the lamp on, select your desired timer duration.

- ● ● ● Press and hold the timer button for 2 seconds to activate the sleep aid mode; the sleep aid indicator will illuminate.

- ● ● ● Press and hold the timer button for another 2 seconds to deactivate the sleep aid feature; the sleep aid indicator will turn off.

- **Extendable Lamp Head:** The lamp head section can be extended by 10mm.
- **Lamp Head Rotation Angles:** The lamp head can rotate left/right up to 90 degrees and tilt up to 60 degrees.

Precautions

- Use 5V/1A output wall plug to make sure the book light is working at its full capacity.
- When the book light is running low on battery, the area around the power button will flash red.
- While the book light is in the process of charging, the area around the power button will continuously flash green. When the book light is fully charged, the area around the power button will have a solid green light.
- The light head cannot be extended beyond 10mm.
- The light head cannot be rotated more than 90 degrees to the left or right, and it cannot tilt upward more than 60 degrees. Please avoid placing this light in an extreme temperature environment (minus 20°C to 45°C).

Disposal:

When you are ready to dispose of the product after wearing it out, please make sure to follow the instructions of your local government for environmental and safety purposes.

How to Charge the Extendable Use Book Light

1. Simply pull the charging cap out, and plug the book light into a USB-A charging port, or connect it to your computer.
2. It takes 1.5 hours to fully charge the book light.
3. Please fully charge the book light before first use.
4. When the battery level is below 10%, the red light flashes, and when the battery level is above 10% during charging, the green light flashes.

Note:

When the book light is running low on battery, the area around the power button will flash red; while the book light is in the process of charging, the area around the power button will continuously flash green; when the book light is fully charged, the area around the power button will have a solid green light.
