- Power Input: 100-240V AC 50-60Hz
- Power Output: 5V/2A

Product Usage Instructions

Power On/Off
To turn on the product, press and hold the power button for about 5 seconds until the screen turns on. To enter the reboot or shutdown menu, press and hold the power button for about 3 seconds.
To turn off/on the screen (while keeping the photo frame on), short press the power button.

USB Connection
To transfer data, connect a USB disk to the USB port.

Reset
If you need to reset the device, use a pin or paperclip to press the reset button.

DC Input
To power the device, connect the DC adapter to the DC input.

Initial Setup
After turning on the frame for the first time, follow these steps for initial setup:

1. Select the language for the menu.
2. Connect the frame to the internet via Wi-Fi.
3. Set the current date and time. Note: Frameo may prompt you to update to the latest version. We recommend updating the frame.
4. Configure Frameo settings and the ability to send and receive photos.
5. Set the time zone if the default is incorrect.

FrameoApp
To send photos, use the Frameo app on iOS or Android. Scan the QR code below to access the app. Note:

Features may vary depending on the app version.

FAQ

Where can I find the full user manual?
You can find the full user manual by scanning the QR code or copying the link: **https://support.frameo.net/hc/en-us**

How do I import photos to the frame?
You can import photos to the frame by using a micro SD card or a USB device. Simply connect the card or device to the corresponding port and follow the instructions in the user manual or app.

What is the maximum capacity for external memory?
The product supports external micro SD cards with a capacity of up to 32GB.

Can I connect the frame to Wi-Fi?
Yes, you can connect the frame to Wi-Fi to enable features such as sending and receiving photos.

How do I update the frame?
If prompted, you can update the frame to the latest version by following the instructions in the user manual or app.
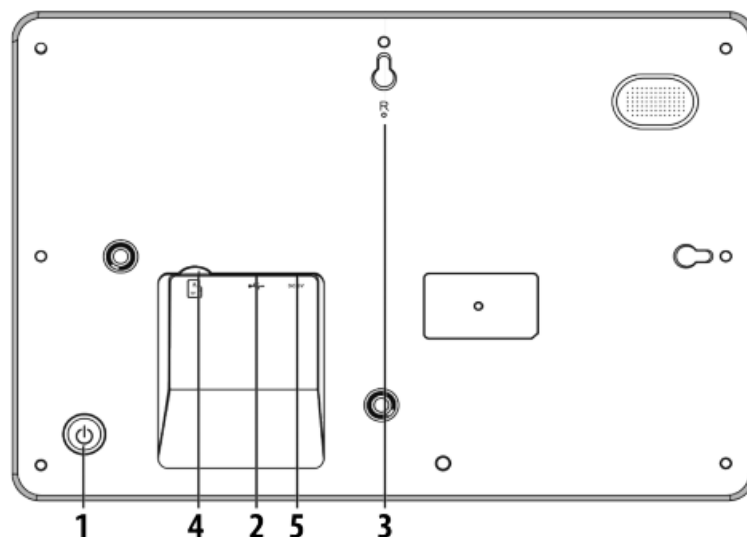

How do I reset the frame?
To reset the frame, use a pin or paperclip to press the reset button.

INTRODUCTION
Thank you for buying our product. Please read through these operating instructions, so you will know how to operate your equipment properly. After you finished reading the instructions manual, put it away in a safe place for future reference.

PRODUCT OVERVIEW AND CONTROL BUTTONS

1. POWER

   Press and hold the power button for about 5 seconds to turn it on (until the screen turns on).

   Press and hold the power button for about 3 seconds to enter the reboot or shutdown menu.

   Short press the power button to turn off/on the screen(but the photo frame stays on).

2. USB

   Connect a USB flash drive to transfer data.

3. RESET

   Use a needle or paper clip to reset unit.

4. Micro SD

   Load external Micro SD memory cards here.

5. DC socket

   Connect DC adapter to power on the device.

GETTING STARTED

- Connect the power adaptor to the back of the photo frame and plug it into a power socket.
- When powering it on for the first time, set up your photo frame by following the Frameo quick setup or follow the on-screen guide.
- Once you set up your photo frame, you can start connecting it to your friends and family.

FRAMEO QUICK SETUP

When starting your photo frame for the first time, you will need to set up the photo frame.

- Select a language. This will be the language used on the Frameo.
- Connect your frame to the internet by connecting it to Wi-Fi.
- Verify or correct the date and time.
  Note: Frameo may ask you to update to the latest version. It is recommended to update your photo frame before continuing if asked to.
- Enter your name, and the location where you have placed your photo frame e.g. "Jeffrey Lebowski" and "Living room", "Carpet" or "Bowling alley".
- Finally set the timezone if not already correct.

START USING FRAMEO

Start by connecting with your friends and family by providing them with a unique code from your photo frame. If you want to be able to send photos to the photo frame yourself, start by downloading the app for iOS or Android on App Store or Google Play. Then use the code to connect your photo frame and app as described below.

Connecting a new friend

- Make sure that your friend has downloaded and installed the Frameo app.
- Click the add friend icon on your photo frame . A dialog will appear showing a unique code which is valid for 12 hours.
- Now share this code in whatever fashion you prefer e.g. SMS, E-Mail, IM, phone call, to your friend.

- Once your friends have added the code in their Frameo app, they will automatically appear on your photo frame and be able to send you photos.

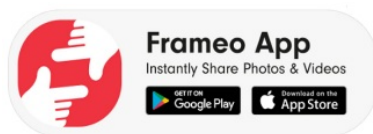

FULL USER MANUAL
To find the full user manual scan the QR code or use the link: **support.frameo.net/hc/en-us**

FRAMEO APP
To send photos to your photo frame, use the Frameo app for iOS or Android.

Scan QR code to find the app

NOTE: Features may change depending on the version of the application.
