Product Information

- Product Name: Cheoriking 2.0
- Model Number: M/N: Cheoriking 2.0
- FCC Compliance Information: This device complies with Part 15 of the FCC Rules.

Antenna Compatibility

Antenna Type	Model No.	Antenna Gain	Manufacturer
PCB Antenna	MDBT50Q-P	0.41 dBi	Raytac Corporation

Product Usage Instructions

1. Ensure that the device is installed and used in accordance with the following instructions to minimize the risk of harmful interference to radio communications.

2. Connect the Cheoriking 2.0 device to the appropriate antenna.
3. Only use the specified antenna model MDBT50Q-P, provided by Raytac Corporation, with the Cheoriking 2.0 device.
4. Ensure that the antenna is securely attached to the device.
5. Follow the manufacturer's guidelines for installing and positioning the antenna for optimal performance.
6. Do not make any modifications to the device or antenna that are not expressly approved by the responsible party for compliance.
7. Failure to comply with these instructions may result in harmful interference to radio or television reception and could void the user's authority to operate the equipment.

Game mode

Game statistics screen

1. Technical statistics for forehand and backhand
2. Prints out the types of techniques used for forehand and the most used techniques
3. Prints out the types of techniques used for backhand and the most used techniques
4. Prints out the fastest speeds for smash and drive (forehand and backhand)

Game statistics page

- Swing analysis examines the forehand and the backhand swings
 - Total swing time
1. Back swing time: Time it takes to complete the backswing
 2. Switch pause time: Time it takes to switch from the backhand swing to the forehand swing
 3. Impact time: Time it takes to hit the ball from the time the swing starts. A good swing is one within 40-60% of the position from the forehand
 4. Swing trajectory distance to the impact position.
 5. Forehand swing time: Time it takes to complete the forehand swing.

Swing game (screen table tennis)

The screen of the selected technique runs for the time selected in the preferences: 1 minute, 3 minutes, or 5 minutes.

- Footwork mode is currently being developed.

The screen of the selected technique runs for the time selected in the preferences: 1 minute, 3 minutes, or 5 minutes.

Adjustment of ball size
If the ball is not seen, set "Bigball" to "On."

Basic swing practice

Adjustment of interval at which the robot shoots the ball

2: Longest shooting interval

0: Fastest shooting interval

Quality Assurance and Product Specifications

In case the product malfunctions, after-sale customer service can be received as follows Only swing tacker devices are covered by after-sale customer service (Only for swing takers installed inside the racket handle)
Racket woodblocks are excluded if they operated normally while purchasing them

1. If the product breaks while functioning properly after following the Instructions in the manual and those on system connectivity, free after-sale service can be received for 6 months from the date of purchase. (If the product is used for commercial purposes, the warranty period will be reduced by half.)
2. The product will be repaired for free within the warranty period, even if the malfunctioning is the consumer's fault, such as taking, breakage, careless handling, or in case of accidents such as fire, flooding, and natural disasters.
3. If you need after-sale customer service, please call the customer center below and follow the instructions.

Model name	CHORE KING	Date of purchase
Buyer	Customer name	Customer phone number
	Address	
Place of purchase		
after-sale request details		

How does after-sale customer service work?

1. Call the customer center below and follow the instructions
2. First, send a picture of the product you want to be repaired and the warranty card
3. Tell us in detail which part of this product is not working properly

4. Products purchased through courier service must be sent to the address that is provided by the customer center. Please pack the product into a racket box carefully before sending to avoid any transit damage.

(If the product is damaged due to the negligence and accident by the customer, the purchaser may bear the after-sale service cost, even if the 6-month warranty period is not over.)

- Shipping fee : If it is the customer's fault, the customer is required to pay the round-trip shipping fee.
- After-sale service call center (Counseling: 070-4118-8989)

Size	18(W) × 48(L) × 0.4(H)
Battery	3.7V 80mAh
Charging time	10 minutes
Waiting time	4 hours 20 minutes
Power	3.7V
The reception distance	Within 10 meters (maximum 15 meters in an open space)

FCC Information to User

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution

Modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Compliance Information: This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation

Product Components and Characteristics

- Electromagnetic certification (KC, SRRC, TELEC)

- Battery certification (KC/UL/Ce/ROHS/FCC/CB/IEC/IS09001)
- Worlds first swing training device with IoT + app feature (screen table tennis training)
- Simultaneously supports online and offline use (table tennis and screen table tennis)
- Produced using high-grade ZLC carbon fibers
- Provides the best feel for beginners and intermediate players because it is light and has good repulsion and control functions to hit the ball quickly.
- Swing analysis and coaching are possible through the app, and game records and statistics are provided.
- Screen table tennis (with 12 training modules) without a table for use at home or outdoors

Bluetooth Connection and Operation

Precautions

- Bluetooth connection and compatibility may differ depending on the model. If the Bluetooth signal is weak, the connection with the device may be cut off, and after which the pairing mode set-up must again be initiated.
 - Bluetooth recognition distance is about 10 meters, and there should be no obstacles between devices.
1. Set the power switch installed in the racket swing tracker to On."
 2. Search for the Bluetooth function on Bluetooth-enabled devices (smartphones, tablets and other devices).
 3. Select SWING TRACKER #7" found on Bluetooth-enabled devices.
 4. Use the product through the Bluetooth-recognized device.

This device(M/N: Cheoriking 2.0) has been tested and should be used with below antenna:
