## Picking your customer up

To begin an order, swipe on 'Pickup Customer' once the customer has entered your vehicle. Tap on the navigation button to find the best route. Let's go!

### Taking a break

Make sure to tap on 'Go online after I complete this trip' while you're on your current trip to take a break before getting another ride request. To go offline for the day, tap on 'Inactivate' (it's the button below where AUTOBID is)!

Don't forget to enter any incurred ERP charges into the app! If the customer is paying by cash, don't forget to collect the fare as shown on the app. Remember to rate your customers too!

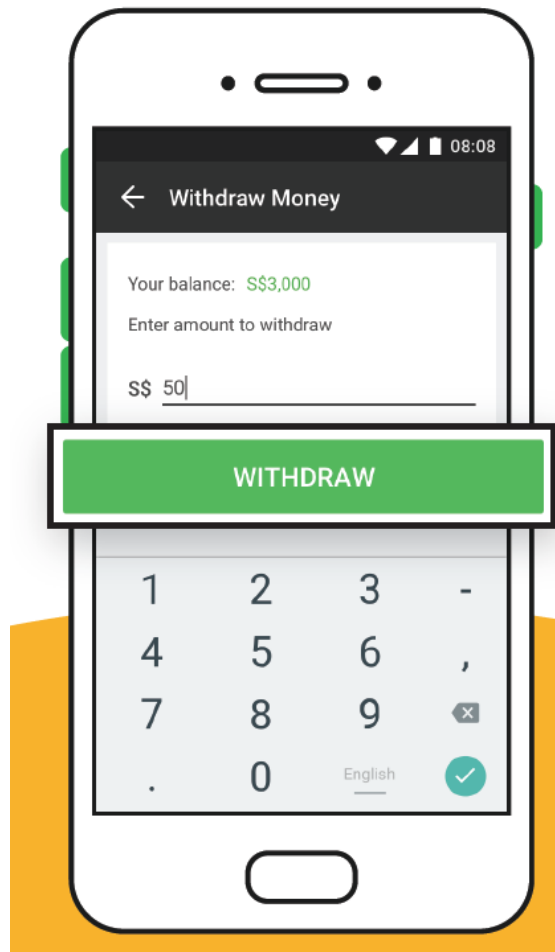

Incentives

The performance serves as a quality checkpoint and requirement to your incentives. The calculation of performance is as follows:  $\text{Total trips completed} / \text{Total trips received} - \text{total customer canceled trips}$ . To track this and read about the latest incentives, go to your Gojek Driver app. You will not be penalized for any trips voluntarily canceled by the customer.

Tap on the 'Balance' button on your home screen to see how much you have in your Earnings Wallet – this is where all your earnings and incentives are. Tap on 'Withdraw' to transfer money from your Earnings Wallet to your bank account. You can do this immediately and at any time, as long as your transaction amount is at least S\$50. We'll let you know when your withdrawal is successful – your earnings will be credited to your bank account in a few minutes.

### Things to note

If your customer needs to change the drop-off point, please advise them to 'Edit Destination' after every stop. Don't worry – your fare will be updated based on distance!

Pick your customers up only at these arrival doors:

- Terminal 1 Doors 1–3
- Terminal 2 Doors 2–4

- Terminal 4 Doors 1–3

Please do not linger and wait at the pick-up points. You may drop off customers at the departure halls, as per usual.

## Cancellation policy

Tap on 'Cancel' before the trip begins if you need to. You will not be able to cancel a trip whilst in the middle of it – please write in via the in-app help or call us and we'll sort it out! Please cancel only when necessary to avoid a poor customer experience.

## Child car seat

If your customer has a child below 1.35m and you don't have a car seat, please cancel the order and select 'I do not have a car seat for children'. If you do have a car seat, feel free to accept the ride!

## Lost & Found policy

We've increased our token of appreciation from \$5 to \$10 – credited to your Wallet when you return lost belongings to customers directly

## Cleaning fee

If a customer has made a significant mess in your vehicle, we'll do our best to help you. Send photos of the mess along with a cleaning receipt via in-app help and we'll cover up to \$50 of your cleaning costs.

## Ratings

Your customers will rate their trips between 1 to 5 stars, with 5 being the best. This rating helps us maintain a quality customer experience. Your rating is calculated based on the average of your last 150 orders in the past 2 months, or from the total number of orders you've taken if less than 150.

## Want that 5-star rating?

### Here's how!

1. Ask customers if they have a preferred route.
2. Ensure your vehicle remains clean and odorless.
3. Begin and end your order on time – start only when the customer has entered the vehicle, and end it when you have arrived at the destination.

## Remember

You are responsible for the safety of everyone in the vehicle, and a customer's satisfaction depends on the service you give!
