You will be setup in 8 easy steps

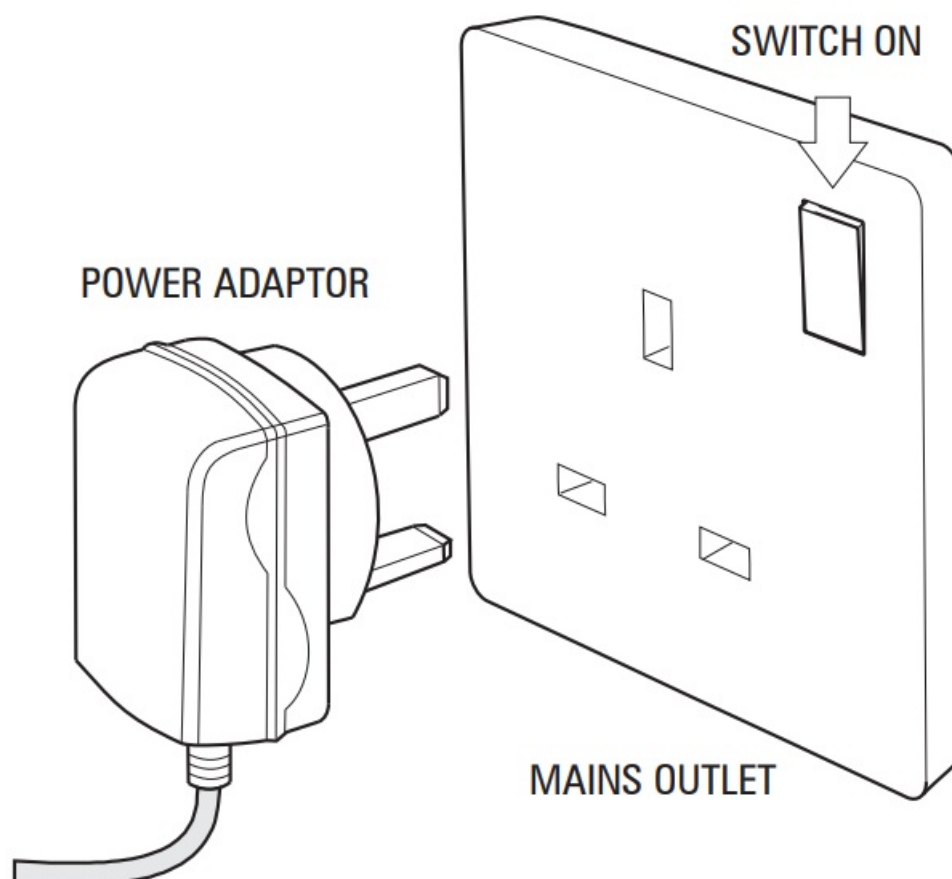

1. For best reception results fully undo the aerial lead (digital radio) and extend the telescopic aerial (FM).

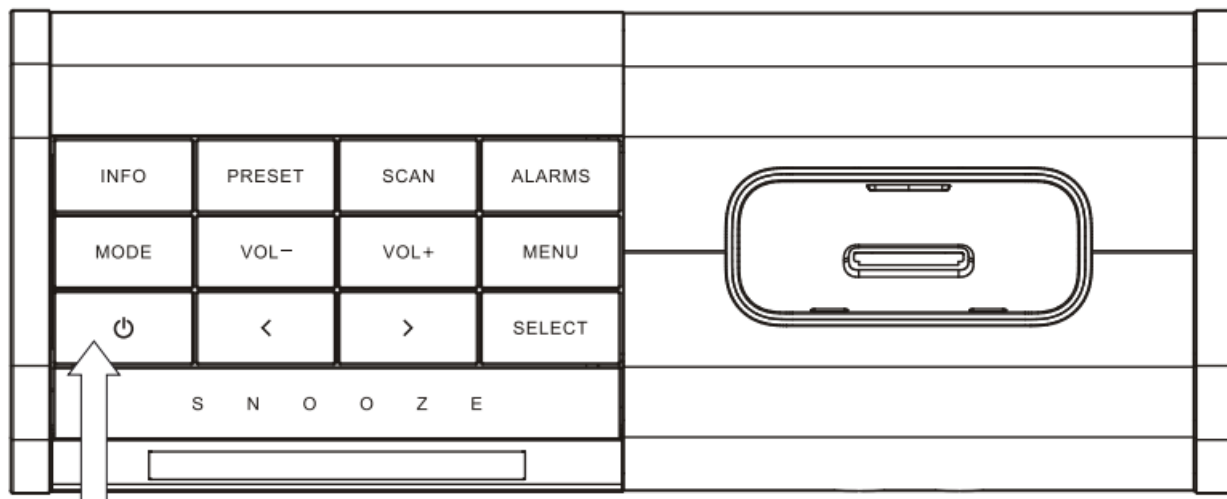

2. Plug the connector on the lead from the Power Adaptor into the DC IN connector on the rear panel.

3. Plug the Power Adaptor in a mains outlet socket and switch on.

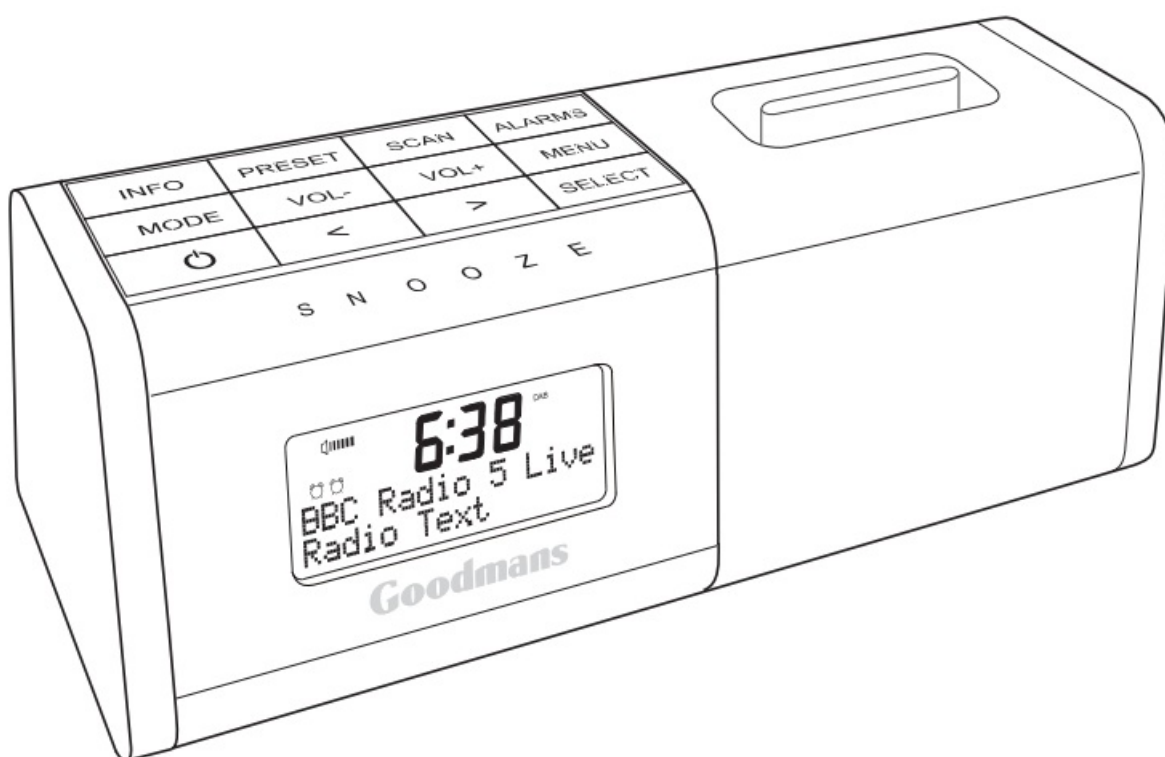

4. Press the POWER ON/OFF button to turn on the Digital Radio.

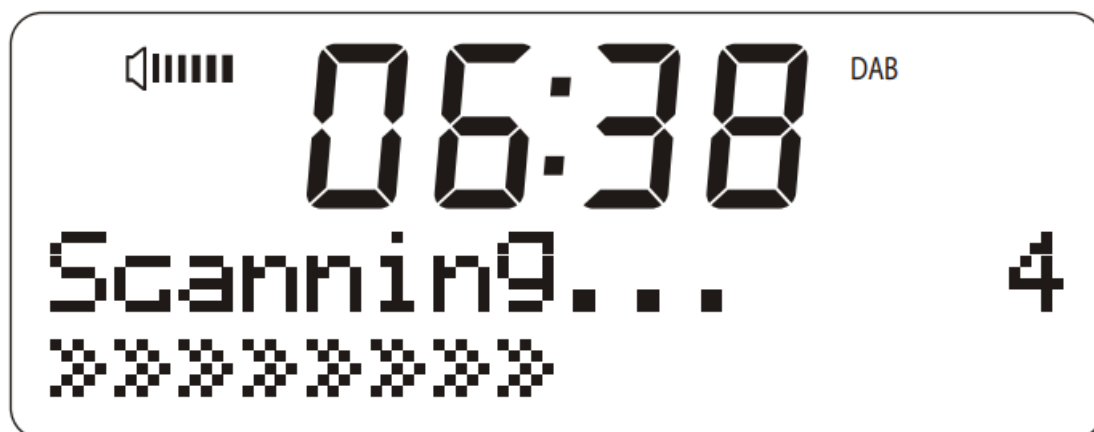

POWER ON/OFF SWITCH

5. Press the MODE button to choose between FM, iPod, AUX In, and DAB modes. If selecting iPod or Aux In modes, make sure that your devices are connected.

6. IF FM or DAB has been selected, press the SCAN button to search for all available digital radio stations.

7. When scanning is complete, the first found station will be played. Press the < or > buttons to select a different station.

8. Setting Alarm 1

1. Press the POWER button to set Standby mode.
2. Press the ALARMS Button to select 'Alarm 1'.
Press the SELECT button.
3. Use the < and > Buttons to adjust the alarm HOURS.
Press the SELECT button.
4. Use the < and > Buttons to adjust the alarm MINS.
Press the SELECT button.
5. Use the < and > Buttons to select the wake up source. Press the SELECT button.
6. The alarm will be active and the alarm icon  will now show in the display.

You are now ready to use your new Digital Alarm Clock Radio With Dock for iPhone/iPod. To learn about your new Radio look in the main user guide.
