USAGE AND COMPATIBILITY

Mass storage device intended for storage and transfer of large amounts of data between computers. This product is compatible with the following operating systems:

- Windows® XP® / Vista / 7 / 8 / 8.1 / 10 / 11
- Mac OS X 10.4 and newer
- Linux

This product is dedicated for consumer-class applications. It is not intended to be used in systems that require high performance or high reliability (e.g. industrial applications), unless it is stated that the product is dedicated for these applications. To achieve the highest performance, please connect the SSD to USB port compatible with USB 3.2 Gen 2 standard. This SSD is also compatible with USB 3.2 Gen 1 and USB 2.0 standards, but using them will limit device's performance to the level specified by these standards.

WARNING: Computer configuration, operating system and USB power supply quality may affect performance of this SSD.

INSTALLATION

Connect the attached USB cable to the external SSD and connect the other end of the cable to a compatible USB port. The computer will identify hard drive automatically and will install all required drivers, if needed.

CAPACITY

Storage capacity for Goodram micro card is always expressed in decimal values. That means, 1GB equals 1 000 000 000 bytes. Operating system that use the binary conversion eg. 1GB equals 1 073 741 824 bytes may show lower storage capacity value than advertised. Additionally, a part of the storage is reserved for files and firmware, managing the drive.

SAFETY MEASURES

To ensure the best user experience and safe use, please follow the precautions listed below:

Do not

- exposing this product to potential damage and excess heat or extremely low temperatures
- immerse any part of this product in water or other liquid
- place the product near the naked flame

Caution

- provide accurate heat dissipation
- this product is not a toy and is not intended for children under the age of three
- use this product only with compatible devices

WARNING: KEEP OUT OF REACH OF SMALL CHILDREN
The appliance and its accessories are not toys. Do not give them to young children to play with, as they may harm themselves or others or damage the appliance. Keep the appliance, all parts and accessories out of the reach of small children.
